"To say and straight unsay argues no leader." So said Milton, and so say we, and we will add on our own responsibility, neither does it argue fit qualifications for a teacher, as a minister and editor of a church paper certainly claims to be.

Brother Acton, of the Advocate, came out a few weeks since in an editorial endorsing women ministers in unqualified terms. His comments thereon were widely copied and very generally commended by the press, as we doubt not they were by the larger and more intelligent class of his readers. But it is evident that there "is a power behind the throne greater than the throne," or, in other words, that those who employ Brother Acton employ him merely as an amanuensis, and if, perchance, he expresses his own views, they speedily find means to make him retract. Hear him in his issue of the 8th inst.:
