ports everything plenty in the region from whence he hails, except money. When adequate railroad facilities throw the beautiful harvests of this section into market, this complaint will no longer be heard.

The Supreme Court has reversed the judgment of the lower Court in the case of Jackson Grant, under sentence of death in this city, and the same is remanded for a new trial. He has lain for months in the county jail, and the evidence of his guilt is purely circumstantial or suppositions.

Mrs. P. Annetta Peckham, a lady of much ability as a temperance lecturer, has recently arrived from California, and is now delivering a course of lectures in Astoria. We learn with pleasure that she will deliver an address at the open temperance meeting in this city on next Saturday evening. The hall, as usual, will be crowded.

Milliners and general dry goods dealers who find their stocks of ribbons, flowers, frames, feathers, straw goods, notions and every variety of fashionable staple goods running low, will have no need to send or go before for supplies, as Fleischer, Mayer & Co. can furnish a complete outfit of everything they want from a gross of pins to a bale of ribbons or a dozen hat frames to half a ton of straw, cheap or linen hats.

The following are the concluding words of the opinion of Judge Deady in the school book case: "There being no valid contract between the complainants and the State by which the latter is bound to use the books of the former in its schools, it follows, of course, that the complainants have no right to the relief demanded, and therefore the prayer for an injunction must be denied, and the bill dismissed."

After having been in session for nearly two weeks, the Board of local Inspectors—Captain G. H. Flanders, Inspector of Hulls, and James Lotan, Inspector of Boilers—report the following findings relative to the "Great Republic" disaster: "After a full investigation and a careful review of all the testimony inquiring into the loss of the steamship 'Great Republic,' we find that Captain James Carroll did wrong in giving the Pilot Thomas Doug acted imprudently in attempting to cross the Columbia River bar in the night, thereby endangering the lives of so many persons and so much valuable property. We suspend his license as pilot on steam vessels for twelve months from date. After a very careful investigation of the condition of the steamship 'Great Republic,' we find that she was tight, staunch and in a seaworthy condition when she stranded near said island."

Helmbold's Buchu has long been known as one of the most valuable medicines obtainable in certain classes of diseases, such as dyspepsia, chronic rheumatism, dropsy, cutaneous affections, and especially affections of the urinary organs. As a diuretic, it is superior to almost any other medicine in use, and the great care with which it is prepared, and the diligence used in the selection of the crude material, have made it known far and wide as a reliable and effective preparation, and one that can always be used with safety and benefit.

The great success of Helmbold's Buchu has led to the production of many spurious preparations, which are made cheaply and placed upon the market to be sold on the reputation acquired by Helmbold's original preparation. Parties who desire a really good medicine should be careful and use Helmbold's only.
