SOLID FACTS.

Alarming prevalence of that insidious, loathsome, dangerous, and often fatal disease,

CATARRH!

NINE-TENTHS OF THE PEOPLE OF THE NORTHWEST are suffering more or less from this baneful malady. Being of scrofulous origin, hence constitutional, its manifestations are as varied in form as the rainbow is in color. CATARRH is a scrofulous affection of the mucous membrane which lines not only the throat and nasal passages but also all the interior cavities—brain, eyes, ears, stomach, liver, lungs, intestines, kidneys, bladder, and the entire cuticle of the body—and in its different stages is known as HUMID-DRY or CANCEROUS CATARRH. At first it usually affects the throat and nostrils, the impurities of which are swallowed into the stomach or inhaled into the lungs, thus poisoning the digestive, respiratory and genito-urinary organs, and causing Deafness, Dyspepsia, Constipation, Chronic Diarrhoea, Bronchitis, Leucorrhoea and Consumption, which latter is very often only CATARRH OF THE LUNGS. Hence it is evident that any remedy, to be effectual in permanently curing this disease, must possess the alterative properties necessary to eliminate from the blood the scrofulous virus, which is the primary cause of the malady, as well as to cleanse and heal the affected membrane.

DR. JAMES KECK'S
