## WHEN WOMEN REGISTER.

When the women come to voting and to giving names and addresses, there'll be lots of funny capers on those registration papers.

Whether she's a Miss or Mrs. Will annoy the registrar. Asking won't be safe—they'd rather read the answer in the stars.

As for ages—the question Must be asked—the man without Faith in truthfulness of answers Had best not display his doubts.

He'll put down the sweet words, Ask not if they're what they seem, And, for public satisfaction, The perhaps this little scheme:

Mark the age, when "elaimed," in this way (2)

Each "refused to answer" (3) (4)

And all ages that are "sworn to" With three dashes in a row (24).

WEIGHT OF BIRDS' HEARTS.

Most people will be surprised to learn that the hearts of birds are far heavier proportionately than the hearts of animals, including man, but a little explanation will show that this is quite natural.

The average weight of the human heart in normal circumstances is five-one-hundredths of the total weight of the body.

Most birds are a long way ahead of animals. The carrier pigeon comes out at 12.25; the common sparrow, 16.22; the hobby, an extremely active species of falcon, 16.98, and the song thrush, 17.5.

## News in the Ads.

At this season of the year advertisements become news matter. In every household there are those who are looking for holiday bargains—Printers' Ink.

## COMMERCIAL VALUE OF SERMONS.

A Great Divine of London makes a Departure and Stirs Up a Horse's Nest. The Rev. Dr. Joseph Parker, pastor of the City Temple, has been expressing high indignation because some newspapers printed extracts from a sermon without his permission.

This strong language provokes many unkind remarks about the gentleman who, since Spurgeon's death, has been considered by many as London's greatest pulpit orator.

## They Are Heavier in Proportion Than Those of Animals.

Most people will be surprised to learn that the hearts of birds are far heavier proportionately than the hearts of animals, including man, but a little explanation will show that this is quite natural.

## Dr. Parker's Letter Causes Some Qualms of Conscience.

## Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system, such articles should never be used except on directions from reliable physicians.

## DUELING IN EUROPE.

Nothing could give a more adequate idea of the ease with which dueling came on the European mainland than the story told by our Roman correspondent of an adventure that lately befell a foreigner on the island of Lido, near Venice.
