THE SASSIETY TOUT.

His Latest Budget of Tips Contains Some That Are Very Interesting.

Both Belgravia and Bohemia, not to say the church and stage, will be greatly interested in the news of two engagements about to be announced.

Now, I want to preface my voicing of the rumor by declaring that I know both engagements will be emphatically, even violently, denied, but that is only the proper caper now.

I hear that Mrs. Paran Stevens is to marry Mr. Albert Morris Bagby.

Now, nobody needs enlightenment as to Mrs. Paran Stevens, but there may be a few forlorn folks whose social encyclopedia contains no reference to Albert Morris Bagby.

Nevertheless he is a charming chap, of whom the women always speak as "that dear little Bagby."

He is a western born man of really oriental tact and finesse.

He gives music lessons, having been the favorite pupil par excellence of Liszt, and incidentally he gives the swellest musicales of the season at the Waldorf—at $5 a ticket.

He has charming manners and has just completed a novel on the romantic life at Weimar of his great teacher, the Abbe Liszt.

He has attained a really enviable position in the genuine haut monde solely by his gentle breeding and his immense diplomacy, and nobody but his rivals will wish him aught but lots of plums in his wedding cake.

The other engagement that will soon be announced is that of Miss Olive Chamberlin and young Harper, son of a member of the great publishing house.

The very name of Harper is synonymous with Methodism and millions, and Miss Chamberlin is the daughter of that popular all round sport and "nature's nobleman," John Chamberlin.

She is a superb young woman still in her teens, of the Junoesque type of beauty and inheriting the magnetic charm of her mother, who was the brilliant, beautiful Emily Thorne, sister of the late Charles R. Thorne, Jr.

The stamp of approval of Miss Chamberlin's beauty and chic bears the Hall mark of such connoisseurs as George Work, George de Forest Grant and Francis Sykes, and she is as brilliant as she is beautiful.

I am requested to deny authoritatively that Mrs. E. Berry Wall contemplates going on the comic opera stage, or that she is even considering the offer made her by a well known impresario.

To be sure, she is taking singing lessons and is cultivating her voice with really fervid devotion; but, bless you, so is E. Berry himself.

No, Mrs. Wall will not appear on any stage, not even the amateur, this year.—Cholly Knickerbocker in New York Recorder.

THE MATCHMAKING QUEEN.

She May Not Be Physically Strong, but Is Able to Arrange Convenient Marriages.

Queen Victoria is said to be getting increasingly feeble in her powers of locomotion and has to be carried up stairs or the smallest rise of ground. But whatever may be her physical condition her mental powers are absolutely unimpaired, and her capacity for work is undiminished. She takes increased interest, too, in matchmaking and has of late repeatedly expressed her opinion that the poorer princes of the younger branches of the royal house of England ought to marry into the wealthy aristocracy of Great Britain as Prince Adolphus of Teck has just done.

This young man has certainly done a wise thing by choosing as his wife the daughter of the Duke of Westminster, the richest peer in England. Few people outside the two families and the lawyers are likely to possess trustworthy information respecting the settlements in this match, but rumor has it that the duke has provided a dowry of $500,000 besides settling $25,000 a year upon the young couple. It may be said with absolute certainty that the prince has brought nothing into the settlement beyond life insurance policies and possibly a few thousands provided by the queen, with whom he is deservedly a great favorite.

It is no disgrace to the Duke of Teck to say that he lives well up to and probably considerably beyond his income, especially since the future king of England became his son-in-law.—London Cable.

Florence Blythe's Millions.

Florence Blythe-Hinckley has virtually come into possession of the large estate which contestants in the California courts so resolutely tried to wrest from her. Generally speaking, it is worth from $4,000,000 to $5,000,000. It consists of a San Francisco block, 80,000 acres of land in San Diego county, 44,000 acres of land in Mexico adjoining California, and an interest in 1,800,000 acres of land in Mexico. Just what the Blythe estate interest in these 1,800,000 acres is will have to be decided by the Mexican courts. A suit has been brought to determine the size of the Blythe interest in the large tract of land. There is also $125,000 in cash on hand belonging to the estate. This will go principally to pay the expenses of administration of the estate.—San Francisco Letter.

How Sherman Got Into Congress.

"These are days of tidal waves," said Senator Sherman. "We had a marked change in 1892 and have just witnessed another. Do I recollect anything to equal the last one? Oh, yes. We had the same thing happen in 1854. Ohio elected a solid Republican delegation to congress. The election, then turned on the slavery question. The tidal wave carried me into congress. I was a young lawyer and was nominated in a district with 3,000 Democratic majority. I hoped, of course, to be elected, but I had no reason to feel confident. Few expected it. Yet I went in with 3,000 more than enough to elect me."—St. Louis Globe-Democrat.

Wayne Jones is special farm agent for the "old reliable" Continental Insurance Company of New York, which has been tested by passing through and paying all of its losses in that great conflagration of Chicago in 1871, by which over one hundred companies equal to the State Insurance Company of Salem, Ore. failed. A word to the wise is sufficient.

If you want the best of dentistry go to Dr. Strange and have it done by an experienced and skillful dentist. All work guaranteed and at very reasonable prices.

THE SCHOOL BOOKS.

Statement of Saving That Might Have Been Made by Exchange.

The following statement, by Jacob G. Stevenson, county superintendent of schools in Lane county, is published in the Eugene Register. No man has better knowledge of the facts than Mr. Stevenson, and no man is more clearly above the reach of biased representations or improper influence of every kind. Any statement he makes is entitled always to the fullest credit. It may now be seen what was lost to Oregon by the refusal to make certain changes. We give Mr. Stevenson's statement in full, viz:

In the selection of school books for use in the public schools for the next six years, better books or books equally as good, could have been secured at no cost of exchange and much saving in retail price. It is calculated that one-third of all books used each year are purchased new, and two-thirds are old books, in the hands of pupils, and we figure on this basis:

Readers now in use and readopted:	
Two sets in hands of pupils, cost	$ 00
One set, retail price, cost	3 00
Total cost, three sets	$3 00
New readers:	
Two sets, exchange price, cost	$ 00
One set, introduction price, cost	1 98
Total cost, three sets	$1 98
Difference in favor of exchange	1 02

The last is a reader full as good and much better bound, and one which retails for 25 cents less per set than the ones now in use.

Geographies now in use and readopted:	
Two sets in hands of pupils, cost	$ 00
One set retail price, cost	1 90
Total cost, three sets	$1 90
New geographies:	
Two sets, exchange price, cost	$ 52
One set, introduction price, cost	90
Totl cost, three sets	$1 42
Difference in favor of exchange	48

The new series are the latest and best, and the best-bound book on the market. The old book is very poorly bound and sells at retail per set of two books at $1.90, while the new book sells per set of two books at $1.20.

In the matter of grammar the American Book Company publishes those in use and those adopted. Maxwell's was adopted, three books:

Two sets, exchange price, cost	$1 80
One set, introduction price, cost	1 40
Total cost, three sets	$3 20
Reed & Kellogg's two books:	
Two sets, exchange price, cost	$1 10
One set, introduction price, cost	1 00
Total cost, three sets	$2 10
Difference in favor of exchange	1 10

Reed and Kellogg's grammars are considered among the best in the United States, and according to Dr. Chapman, a distinguished examiner, superior to Maxwell's. It was claimed by the agent of the American Book Company that Maxwell's first two books would be sufficient for the common schools, but this is not true. Every pupil who finishes the course will be compelled to buy all three books.

Summary—

Could have saved by exchange on	
each three sets of readers	$1 98
Geographies	48
Grammars	1 10
Total saved by exchange	$3 56
Could have saved by exchange in	
retail price on each of readers	$ 25
Geographies	70
Grammars	45
Total saved by exchange	$1 40

Other changes could have been made with equal advantage, and hundreds of dollars saved by the exchange, and in the period of six years, for which the books are adopted, thousands of dollars might have been saved to the school patrons of Oregon. J. G. STEVENSON.

$50 In Prizes.

To be given at the grand Mask Ball, Feb. 14. This ball promises to be the largest and most brilliant affair of the season. Prizes will be given as follows: Best dressed lady, second best dressed lady, best sustained character, lady; neatest and cheapest dressed lady; best display of old programmes of dances given by T. K. Richardson to be attached to dress, either lady or gent; best dressed gentleman, second best dressed gentleman, best sustained character, gentleman; most comical character, best clown. Doors open at 7:30. The K. of P. band will entertain the audience with some fine selections, and also one fine selection from the orchestra displaying the effect of our fine kettle drums, while the maskers are getting ready for the grand march at 9 o'clock sharp. There will be one fine prize given to the one in the audience holding the lucky number. T. K. RICHARDSON.

FROM THE COUNTRY.

All persons attending the mask ball, February 14th, can have one horse kept free of charge for each ball ticket at Jas. Young's stable, by order of T. K. Richardson.

To The Insuring Public.

The undersigned has the following answer to make to the charges made against him in the Roseburg Review by a would be insurance agent who goes by the name of Wayne Jones, to-wit: That on the 18th day of January, 1895, the old reliable Home Insurance Co. of New York, with cash assets of $9,000,000, did discharge the said Jones as their agent and appointed the undersigned as their agent for this city and vicinity. My commission hangs in my office in the frame in which said Jones formerly had his and can be inspected by anyone desiring to see it. All who wish to insure in the Home will please call at my office in the Marsters block.

L. D. CARLE, Agent.

The United Brethren will hold their quarterly meeting at Pine Grove church, on the first Saturday and Sunday in February. Bishop Mills, late of the east, will conduct the meeting, to which we kindly and cordially invite all.

N. COCKELREAS.

WHAT IS THE LABOR QUESTION?

The money question is also the labor question. Any considerable change in the volume and consequent value of money at once affects the prices of all forms of property, and this affects labor that produces property. If money is raised in value, or appreciated to the gold standard, prices on all the products of labor must come down in the same proportion. Falling prices destroy profits, and without profits labor cannot be employed. Running this downward circle further, we see that labor unemployed cannot purchase goods, however cheap; so unemployed labor and falling prices go side by side on a downward road to ruin, and this is brought about by decreasing or hoarding or otherwise cutting off the volume of circulating money. The remedy is to increase instead of decrease the volume of money.

The money question is the property and labor question. Property values and prices rest on money. Profits and enterprises rest on money. Employment of laborers rest on money—money on one side, property and labor on the other. As one end of the lever goes up the other comes down. Let property and labor be heard in financial legislation. Property and labor have too long been silent on the money question. This question is the greatest of all legislative questions, however much the upholders of our present system may seek to belittle discussion and investigation, and cast ridicule and epithets on those who would improve the system. All systems of robbery have expected their advocates to cry out against refrom, and say, "let us alone, let us alone," or if any change is desired, leave it to us to make the necessary change.

The question now arises, What shall be the money of our people? Shall the domination of gold, which is but another term for the domination of the holders of gold, be continued to the detriment of public and private interests? LEGO.

THE JAPANESE ARMY.

Its Perfect Discipline and Great Efficiency.

In a most interesting letter on the Nishingisen, "the righteous Japan-Chinese war," as the subjects of the mikado call it, Dr. D. C. Greene writes from Tokio to the Outlook: "The barracks of an artillery regiment are situated hardly a stone's throw from my study. For some weeks large numbers of horses of all sorts, destined for the use of this regiment, were gathered on an open bit of ground still nearer my house. One morning I walked by the barracks, only to find that in the night every vestige of the troops had disappeared. I have seen service as a cavalryman, and know something of the movement of troops, but it seemed incredible that such a body, with its guns, caissons and pack horses, could have slipped away so quietly. This impressed me deeply, because it was so near to me, but it is only a trifling matter compared with the clock-like accuracy with which the varied wants of a large invading army have been met.

"Probably Asia never saw such an army more efficient, or, what is far better, one which, on the whole, represented nobler aspirations or a higher ideal of military ethics. Its victories mean, if Europe does not interfere, civilization and government on modern principles. There have been some breaches of discipline reported, but they have been, it would seem, strangely rare, and have been followed by severe punishment. The Japanese soldiers have always been well behaved. Besides the artillery regiment to which I have referred, several thousand soldiers are stationed very near my house, not to speak of two large military schools in the immediate vicinity; but the only annoyance from these students or soldiers during nearly five years arose from the over-friendliness of a young fellow in his cups. This was so trifling as to be worth remembering only from the emphasis it gave to the otherwise universally good behavior of the troops."

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle.

Trespass notices printed on cloth for sale at this office at 5 cents each.

The Pelton Water Motor
