PUBLISHERS' ANNOUNCEMENT

In posting our books for the year 1894 we find there are a number of persons indebted to us in small amounts which aggregate several thousand dollars.

THE ELECTION OF SENATORS

The advance of our country, the demands of legislation, and the urgent demands of the people alike require a change in the mode of electing senators.

Heretofore the PLAINDEALER has refrained from saying anything detrimental to Mr. Dolph, believing he would withdraw from the race at the proper time.

The wonderful amount of regard some people have for the republican party on certain occasions is truly surprising.

When representatives proclaim they will follow the behests of a few party leaders in preference to the expressed will of the people, it is time to consign such representatives to private life, be they for or against Dolph.

Dolph's supporters speak very sneeringly of Representative Bridges, and endeavor to create the impression that he is compelled to support Dolph through fear of what is known as "the machine."

Senator Dolph's abusive methods don't seem to be meeting with the success anticipated. The Salem Statesman, which for a time was an ardent supporter of Mr. Dolph, in yesterday's issue said: "If Senator Dolph cannot be re-elected without abuse of every man who sees fit to support some other candidate for United States senator, then he will have to be elected without any assistance of that nature from the Statesman.

Rotation of Crops. By having the farm divided into small fields and these numbered, at least three advantages are gained. It is much easier to keep accounts with the different crops and with the farm.

There were no shipments of gold Thursday from the Philadelphia mint, and hereafter there will be no announcements of calls for the yellow metal.

There is a misunderstanding regarding the work of the caucus, by which Dolph secured the nomination for U. S. senator. While it is true that Mr. Dolph secured three more votes than were required to carry the caucus, yet at the same time when a resolution was submitted tending to make the vote binding upon all members such a storm of indignation was aroused that the resolution was withdrawn without being submitted to a vote of the caucus.

No long as the PLAINDEALER believed there was a possibility of re-electing Senator Dolph, it kept "man" on the subject. But when it was of the opinion that he could not be elected then it had the honesty to say so.

Observations on the election of senators. The advance of our country, the demands of legislation, and the urgent demands of the people alike require a change in the mode of electing senators.

GLANCE AT DOLPH'S RECORD.

How He Served the Northern Pacific in the Senate. Once at least in his career the Oregonian showed up Senator Dolph in his true light as a corporation senator.

All this was, and is, true. By an amendment forfeiting only a comparatively small strip of land—between Wallula and Portland—to which the company, even by the greatest ingenuity of corporation lawyers and senators, could not possibly obtain any title.

Senator Van Wyck offered a substitute for Dolph's bill the house bill, which simply forfeited all unneeded lands according to the terms of the contract between the people and the railroad, but Mr. Dolph would not accept any such bill.

After long effort, Senator Mitchell has succeeded in securing a pension for William Frakes, of Roberts, Or., at \$6 per month, dating from August 6, 1890, and \$8 per month from November 9, 1892.

Recently the Hawaiian question—one that is very important to the people of this coast—has been considered in the senate, and has been watched very closely by Senator Mitchell. At the same time our other senator was watching very closely his private interests at Salem, while drawing a salary for labors supposed to be performed in the interests of the people.

By having the farm divided into small fields and these numbered, at least three advantages are gained. It is much easier to keep accounts with the different crops and with the farm. A letter system of manuring to improve and build up the land can be followed and a better system of rotation can be planned and carried out.

It is perfectly evident that it was intended to give an advantage to the Northern Pacific railroad, that is proposed only to forfeit what the Northern Pacific railroad company were willing should be forfeited.

Mr. Dolph stands now just where he stood then—being the servile of this corporation and opposing the interests and rights of the people.

SUMMONS.
