THE OTHER SIDE.

Train Demands a Full Legal Investigation. S. S. Train, one of the members of the Board of Trustees of the Soldiers' Home, has this to say concerning the report of the legislative committee sent to investigate the Home:

Since during the last days of the session of the legislature, a most infamous, outrageous, methodical and untruthful report from the committee sent to investigate the home, reflecting not only upon the management, but also upon the personal characters of the trustees, was made to the legislature and adopted, it remains that in simple self defense, and as a plea for a truer, nobler and broader support of the Home, and the removal of the selfish, unscrupulous and pernicious seeking after place which is the foundation of this report, as can be seen by the fact that Senator F. B. Alley, chairman of the committee, and clerk of the committee, S. B. Ormsby, on the strength of this report, of which they alone were the authors—were immediately appointed and confirmed trustees for four years. It is also understood that S. B. Ormsby expects to be commandant of the Home, which accounts for the accusations against, and requests for the removal of the present commandant.

The main charge of this committee against myself is that in addition to expenses, a charge of \$5.00 per diem has been made, and that I have drawn \$203 a year as secretary. The law itself provides for a secretary, the salary to be fixed by the board. The board fixed at \$200, which is surely a modest sum, and does not savor of a steal. This committee, or no one else, can say the work of secretary has not been well done. As to the other charges the records will show the information of the committee to have been either incorrect or falsified, as the vouchers in the state's office will show that no charge of \$5.00 per diem was made, nor in fact could it be under the law, and no per diem, or fees of any kind, beyond actual expenses were allowed.

The total amount I have received from the state during the two years I have served on the board, is \$394.40, of which \$300 is for salary as secretary, \$7.50 for postage and stationary, and the remainder for actual expenses incurred in attending the meetings and transacting the business of the board. These facts are substantiated by the records in the office of the secretary of state.

This wonderful report closes with the recommendation that "suit be brought by the proper officer to compel the trustees to return the amount illegally held by them."

The report including the recommendation was adopted by the legislature, and now as a member of the old board, I demand that such suit be brought in order that a full legal investigation may be had, and that the truth or falsity of these charges may be officially determined.

WHAT SICKLES SAYS. The report of the committee which was approved by the legislature to investigate the Oregon Soldiers' Home is one of the most damnable things that was ever published on a long suffering public. It reeks with falsehood, spite and injustice, and will be shown up in its true light in the course of time.

The report is a masterpiece of the G. A. R. in this alleged investigation is not at all essential to them. Except in minor details it is based upon the biased assertions of an individual who is conspicuous for his animosity, crowd and personal enmities, and who became disgraced because he could not use the board of trustees of the home for his own designs. The father of the report is an ignorant, unscrupulous crank from Marion county, who has been repudiated by his own party and lies upon the crumpled crumple of the table of his political and fraternal friends. One member of the investigating committee ordered his name stricken from the report when it was submitted to the senate, as he had never signed it or read its contents; another did not know that such a report had been written, and it is doubtful whether at least one more of the other members concurred with these straggler proceedings. It is hardly necessary to state that those acquainted with the trustees or the facts of the case and other legitimate evidence—Semi-Weekly Times.

We were accosted on the street last Tuesday as a pioneer, and twitted for our boasts of Oregon's prolific soil, and then our attention was directed to a woman in Duluth who had 2 sets of triplets. All we could say was, "They had forgotten the young woman on Soap Creek who had several kids at one birth, and all born with webs on their toes and moss on their backs." We still stand up for Oregon.

Black Sand Mining. Work at the black sand mines near Randolph is now progressing in a very satisfactory manner, says the Coast Mail. After a prolonged series of experiments and numerous modifications the apparatus is working with every promise of success, and last week 50 pounds of the amalgam was cleaned up. The parties decline to state the results, but it is gathered from good authority that the result is three times greater than the highest guess. Before the work commenced three of them engaged made a guess as to what the amalgam would produce, and the result was about five times greater than the lowest guess, and three times greater than the highest calculation. The results are better than the most sanguine calculations and it is believed by good judges that a process has at last been discovered which will take out all the gold in the sand. Only one machine is partly constructed and it is now running out about three tons concentrates per day. Several more machines are in process of construction and will be put to work just as soon as they can be completed. The parties have been at work experimenting since last July and have just completed the design which it is believed will fill the requirements. There is said to be much more of the fine and invisible gold in the sand than was supposed, and the machine is said to save all metallic substances in the sand. A sugar sack of the concentrate about half filled weighs in the neighborhood of 250 pounds. The process saves all the metals in the ore, which consists of platinum, iron, etc. The owners are much elated over the prospects and are sanguine that there are millions in the project of black sand mining.

Bigtry in the Reichstag. BERLIN, Feb. 23.—A clerical member of the Reichstag has given notice of his intention to move an amendment to the anti-revolutionary bill, providing for the fine and imprisonment of any person denying the existence of God, the immortality of the soul, or attacking the religious character of marriage.

The Cologne Gazette attacks the amendment as an outrage of humane liberty. That paper says the next proposal of the clericals will be to impose a law to enforce the doctrine of papal infallibility and the immaculate conception.
