Public education is the bulwark of American liberty and must not be suffered to pass under the control of sectarianism.

All religions should be tolerated and protected in the United States, so long as they keep their sectarian grasp of the ship of state.

The receipts of revenue for March is reported below the expenditures. It such a shrinkage continues the Cleveland-Carlisle-Wilson-Gorman government will have to sell more bonds to "the English you know."

The people of the United States went off in 1892 after a will-o-the-wisp democratic free trade, and have found that it is not what fancy painted it. They fear also that the promises of populism will not improve the conditions.

There are three things that go to determine man's character, viz: Prenatal influence, his education and training in youth, and the surrounding circumstances in his daily life.

In seven states of the Union the Catholic population is in excess to the Protestant, viz: New Mexico, California, Massachusetts, Rhode Island, Connecticut, New York and Louisiana.

Secretary Gresham, it is said, will retire in the near future from Cleveland's cabinet. His wife's desire to return to her home in Illinois and his taste for law practice is claimed, are the motives for surrendering his portfolio, rather than the many snubs he has received both from his party and foreign governments.

The republican party is too decisive in its measures, too vigorous of life, too clear in its enunciations of the principles upon which it is based, viz: American protection to all American industries.

If democracy were indeed, as it claims to be, the friend of the poor man, it would give him a preference over the rich when it wants to borrow money. Just let the old maids and safety bank depositors have a chance to empty their old stocking legs of coin laid away, and depositors to draw their bank checks for three dollars and a half.

The PLAINDEALER is a bimetalist and holds to the opinion that to effect the largest circulation of silver possible, would be to call in all gold coins of less denomination than the ten-dollar piece and all bank and treasury notes below the denomination of ten dollars.

The Portlander, an A. P. A. paper, published in Portland, Oregon, says: "There were, in 1890, 16,940,311 men of voting age in this country."

This, it true, shows 10,292,440 were not members of any church. Sodom would have been spared from destruction with a much less population of righteous men.

This coming season, from present indications, is going to be more active in general mining in this section of Southern Oregon than ever before.
