THE HOROSCOPE.

The democratic party now hope-
lessly in the throes of final desola-
tion—its frail bark has gone to pieces
on the free-trade reef; its passengers
are sticking out for any object that
seems to offer escape from drowning.

Quite a number are "climbing on
board of that crazy fishing smack
"free silver." The larger portion,
however, have gone aboard the life-
boat which will doubtless make port
in safety or be picked up by those
staunch old ships, "Constitution,"
"Protection" and "Sound Money,"
commanded by Harrison, McKinley
and Reed.

Times are improving and business
all over the country seems to be in-
creasing, and democrats are endeavor-
ing to create the impression that
it is all owing to the tariff policy of
the democratic party. They seem to
ignore the fact, that the resources of
the country are of great magnitude,
and that it is impossible that de-
pression of business can continue for
any great length of time. They
also seem to be unaware of the fact
that the people are becoming hope-
ful of soon restoring the
republican party to power, and
thereby bringing order out of chaos,
and again establishing that policy of
protection to home industry, which
prevailed prior to the ascendancy of
the democratic party to power, and
which policy gave to the most pros-
perous period in the history of our
country. Protection to home indus-
try and republicanism are synony-
mous terms, and both signify love
of country, prosperity and content-
ment to man in all the varied pur-
suits and occupations of life in this
glorious land of ours.

We do not believe there is a word
of truth in the rumor that Colonel
Hofer intends to resign the editorial
chair and enter the ministry. But if
it should be true, all we have to say
is that the newspaper world would
lose a very good editor and the
church reap a mighty poor minister.
But come to think of it, the Colonel
after all, knows a good deal about
the ways of the "devil."—Post.

Ralph L. Knapp, editor of the O-
regon Populist, is now a preacher,
Ralph, it is said, was once a "devil,"
but now a minister. This is a
great country, when men can rise
from the position of "devil" to that of
minister.—Salem Post.

If England's grand old man were not
so much greater than his party he might
be condescended as a bolter. The bill to
disestablish the English church in Wales
is in line with the liberal party's timor-
ous policy, and Mr. Gladstone's re-
sulted in charge of the campaign that
in Ireland. His change of front at this
time can only be accounted for by pre-
suming that as he draws nearer to the
pearly gates he feels less inclined to in-
cur the wrath of any set of praying
Christians.—Telegraph.

Mr. Hermann of Oregon, who for
years has been a member of the house
committee on rivers and harbors, will
probably be the chairman of this most
important committee on the next con-
gress. In Mr. Hermann's hands for two
years the fate of the harbor appropria-
tions will probably rest.—Duluth Tri-
bune.

In Oregon the wish is father to the
thought as expressed above.—Statesman.
In Hermann's hands, Oregon may ex-
pect her usual slice of appropriation.

Our dispatches today show that the
German people are very much elated
over the opening of the great canal across
the peninsula, Schleswig-Holstein, con-
necting the Baltic sea with the North
sea. It is a matter of pride and self-con-
gratulation for any people to be thus
commercially benefited by such interna-
tional advantages. The United States
ought to learn a lesson and construct the
Nicaragua canal at the earliest time
practicable.

A story is told of one of our big footed
citizens, thusly: One evening he lay
down on the carpet with his feet to
the fire and fell asleep. After a while he
awoke and in the dim firelight saw his
feet, toes up, in front of him. He cried
out to his twin babies that he imagined
stood in front of him. "Stand aside,
Will and Wallace, and let your poor old
father warm his feet."

We give place today of a report of the
Grand Army and W. R. C. at Oregon
City, at their last encampment, June
10th, by S. T. Train, secretary of the old
board of Trustees of Soldiers' Home,
which explains to those bodies Mr.
Train's work while secretary, with his
comments on the report of the legislative
committee of investigation.

Revolution Spreading.
New York, June 20.—A special to
the World from Bogota says:
Government circles are much alarmed
at the spread of the revolution. The
rebel forces are increasing rapidly, and
the government is having difficulty in
meeting its obligations. The president
is continually surrounded by guards.
The greater part of the country is de-
vasted by the former revolution and is
not producing anything. It is claimed
that the taxes on coffee prevent its cul-
tivation.

The Nation Educational Association
meets in annual convention at Denver,
Col., in July next. A special rate of \$70
from Roseburg to Denver and return has
been fixed for this occasion. Special
tickets at this rate will be sold on July
12th to 5th inclusive. They will be good
going only for continuous passage com-
mencing on date of sale. They will be
good for return from Denver from July
12th to 10th inclusive; but if deposited
with a joint agent of terminal lines at
Denver, will be made available for re-
turn on any date up to and including
August 20th next.

Young Sam.

Don't forget Young Sam. Call on
him and take a look at his fine China
ware, his silks and satins, his endless
variety of toys. Sam has been a resi-
dent of Douglas County for more than
25 years and has won the regard of all
the people with whom he has come in
contact. Young Sam is known for hon-
esty in his dealings, for his polite and
courteous manner to his patrons. He
has many warm friends in Roseburg, all
of whom wish him success in business.
Sam knows the times are hard, so he is
selling his wares cheaper than ever.
Call on Sam.

Farewell Party.

At the residence of Mrs. W. L. Willis
the Misses Dora Wilkins, Blanche
Autenrieth, Gertrude Benjamin, Alice
Morris, Stella Hamilton, Grace and
Minnie Sheridan and Rosa Josephson
paid a friendly visit to Miss Floy Willis
of Portland who has been on an extended
visit to her uncle and aunt, upon the
eve of her return home to Portland,
Thursday evening. Ice cream, cake and
lemonade were the refreshments served
by their entertainers, Misses Snow
Autenrieth and Lillian Gilliland. Music,
dancing and games were the pastime
amusements and highly enjoyed by all.

Roseburg in It.

Mrs. M. B. Conkling was elected
grand secretary. O. E. S., at Portland
June 10th.
Mrs. Chas. Graham was elected grand
secretary of the grand lodge of Rebekahs.
This makes three times in succession that
Mrs. Graham has been elected to that
office. That breaks the record.

Mrs. Sol Abraham was elected a dele-
gate to the national convention of W. E.
C., to convene at Louisville, Ky., next
September.

It Was a Great Mistake.

The wool market report indicates a
weakening instead of strengthening.
One report says: "Prices cannot ad-
vance, as on a basis of 1 or 2 cents
higher for scoured wools, a large quantity
of foreign wools could be imported, which
would prevent." We understood from
the democratic press and stump speakers
that all we needed to make a demand
for our wools was the free importation of
foreign wools. Is it possible that we
were deceived?

Fourth of July Excursions.

The Southern Pacific Company has
made the usual rate of one fare for the
round trip to all points on their lines for
Independence day.

Tickets will be sold at this rate on
July 3rd and the morning of July 4th
and will be good to return until July 5th
inclusive.

The Union Pacific Blamed.

CHICAGO, June 21.—The Western lines
are becoming uneasy over the excursion
rates to Denver for the Fourth of July ac-
cording to the requirements of the grade and
whether the road be passing through the
country or the city. The cars will be
considerably smaller and lighter than
the present railway cars now in use.
They will be lighted by electricity and
heated in this way also, and, for that
matter, could easily have telegraphic
communication all the time with the
outside world.
The California idea does not vary in
its essential particulars from two rapid
transit systems which have been existing
at the World's fair. One of these was
the Cook system, proposed to have
cars suspended from a single track,
placed at the top of a series of poles.
The idea was that the cars were to be
somewhat in the shape of a present rail-
way car cut lengthwise in two. One
set would run in one direction on one
side of the pole, and the other set on
the other side in the opposite direction.
This was an invention of L. D. Cook of
Tacoma, who constructed a trial track
on the outskirts of Tacoma and claimed
to have run his cars successfully at the
rate of 100 miles an hour.
The only difference between the Cook
system and the Thomas plan is that the
latter would suspend the cars from a
series of poles instead of from an iron
track. Electricians believe that some
such elevated or suspended railway oper-
ated by electricity will soon supplant
our present surface roads. They believe
the day is not far distant when it will
be possible to make the trip from Bos-
ton to New York, from New York to
Washington, in less than two hours,
from New York to Chicago in less than
nine hours, and clear across the contin-
ent in a single 24 hour day. The most
wonderful part of all this is that they
insist that these elevated railroads can
be built so as to run trains at 100 to 150
miles an hour, with far greater safety,
comfort, ease and far less expense than
the steam roads, which now make not
much over 30 miles an hour. They hold
out the prospect that so cheap will rail-
road traveling become when these sus-
pension roads are constructed and in
operation that one will be able to travel
from New York to Chicago for a matter
of \$5 or \$6, and clear across the contin-
ent for perhaps not more than \$25.

Fared Indian Troubles.

BRIDGEMAN, Blaine county, Okla.,
June 21.—The trouble at Arapahoe arising
out of the shooting of Red Lodge by
Deputy Sheriff Burch is still intense.
Red Lodge is still alive, but cannot live,
and the Indians are making threats to be
carried out when he dies. On the day of
the shooting the Indians were much ex-
cited and threatening, but were quieted
by troop A, Third cavalry, Captain Mc-
Kin, who is in camp near town. The
Indians sent couriers to Fort Reno and
to the Kiowa reservation. If the whites
can identify Red Lodge as the man who
assaulted Mrs. Hays they will hang him.
John Hansel, an educated Cheyenne
Indian, said: "I fear my people will
rise against the white men. The whites
have imposed upon them beyond advo-
cance. I saw old Red Lodge at Watonga.
He said if his son died the Indian
warriors would go on the warpath and
wipe out the people of Arapahoe."

Asked how many warriors the
Cheyennes had he said from 300 to 400.
He said they were getting no help from
the Arapahoes, but would from the
Kiowas.

The Grand Old Man.

LONDON, June 21.—The government
was defeated today on the motion of Hon.
William St. John F. Broderick, a con-
servative member for the Guilford division
of Surrey, to reduce the salary of secre-
tary of war by £100, on account of the
alleged deficiency in the army stores and
munitions of war. The motion was
adopted by a vote of 132 to 125. Pro-
gress was immediately reported.

Tomorrow's Irish Catholic will declare
that the rumor to the effect that Glad-
stone is in earnest, and will add that he
will lead the liberals at the next general
election. His object is stated to be
the carrying out of the home rule measure
and thus finally settling the national
quarrel.

Sugar has advanced under the Wilson-
Gorman tariff. "Rah for free trade."

AN AERIAL ELECTRIC ROAD.

The Rapid Transit Scheme Proposed by a
San Francisco Capitalist.
A railroad on wire.

Such is the scheme which D. R. P.
Thomas, a San Francisco capitalist,
now has on foot. He proposes to build
what he calls an aerial road from San
Francisco to Los Angeles up the cele-
brated San Joaquin valley. The cars
will be suspended on cables and oper-
ated by electricity. They will run at the
rate of 100 miles an hour. No grading
will be necessary for the construction
of this road, no ties, and no rails, no
bridges and no fencing in of track. No
section gang will be required in its
maintenance.

It will, so its projector thinks, be the
first road in America to be absolutely
free from snags. The cars can't
collide head on because the road is a
double track, and they can't be tele-
scoped because, by a simple little mech-
anism, if one train comes too close to
another the electricity is shut off. No
obstructions or blockades can interfere
with its running. The cars cannot jump
the track. The wear and tear on its
mechanism and rolling stock is compar-
atively slight. It costs from one-third
to two-thirds less to construct and
maintain than any other kind of rail-
road. It also solves the question of
the right of way. The road may be
quickly constructed and
