OCTOBER 14, 1895.

OAKLAND.

Miss Lillian Hall made a visit to Roseburg last week. Capt. Manpin and wife of Kellogg were visiting in town last week. Miss Marie Weising came over from Roseburg Sunday to visit friends. Bert Brown of Eastern Oregon was here a couple of days last week to see his father, A. F. Brown. It is said we are soon to have in our town what is known as a Racket store. Mr. Carle of Roseburg was in town last week looking after the wheel business. Harry Pinkston has done a good job in repairing several of our street crossings lately. Dr. H. Little, our local dentist, has had his residence repaired with a new roof. A social dance was given by the young men of our town last Friday night and a pleasant time is reported. Several of our townsmen went to Roseburg Sunday to attend the funeral of Dr. Bunnell. W. T. Turner & Co. received quite a large shipment of goods last week. This company is doing their share of business. Their motto is to please and satisfy their customers. Miss K. Clarke of Millwood is in town visiting friends. What will our town people do now for Sunday services? Rev. Wilson is the only minister who has regular appointments now on the first and third Sundays of each month at 11 a. m. For some time emigrant wagons have been passing through our town going north and south making an exchange we suppose. No doubt they will find there will be the promised land when they arrive at their destination. Rev. Shangle's youngest child met with quite a serious accident last week, his clothes catching fire from the fire place and burning quite a large place on his back. Mrs. Shangle being quite near smothered the flames and prevented what might have been a very serious injury. Last Wednesday Messrs Ralph Dimmick, D. W. Stearns, Jim Battie, W. Mahoney and J. Howard started for the Bohemia mining district to inspect the wagon road as far as it is built and to make an estimate as near as can be made in a general way of the cost of completing the road through to the mines. We are told what mines are running with the limited machinery that has been taken in over a rough trail have been producing on an average of 4000 per month. We are also told that just as soon as the mines are accessible by a good wagon road capitalists will be on hand to develop the mines to a large extent. We learn from good authority that the greater part of the mining district is within the boundaries of Douglas county. Why would it not be to the interest of the county to have the wagon road completed, as a good mining property has as much right to pay taxes as any other industry. Should the report be a favorable one by the parties on their return we hope that in some way or other there may be arrangements made for the completion of the wagon road. Just at the close of our writing we learn that the parties have returned this Sunday evening but too late to learn any news. TULLY.

For Rent.

A five-room cottage with hydrant and convenient out houses, three blocks from postoffice. Enquire at this office or at 405 Washington street, west side of railroad track.

Notice.

Grain bags and twine for sale by Sol Abraham, and the highest market price in cash will be paid by him for grain, delivered at his warehouse at Roseburg.

New goods at Caro Bros.

TELEGRAPH NEWS

A Daring Robbery. JULIAETTA, Idaho, Oct. 12.—Indian Trader H. M. Jorgens arrived here this forenoon, after an all-night ride from Kamiah, on Nez Perce reservation, bringing news of a daring and successful robbery at his store at 7:30 last night. Three masked men came into the store. Two entered from the front door, and one came in through the back rooms, occupied by Mr. Jorgens' family as living apartments. The latter drove Mrs. Jorgens, a sick woman, into the store, thus rounding up all the occupants of the house. Mr. Jorgens and his clerk were in the store. He identified one of the robbers as a man who had been stopping with him for two days. His first thought was that it was a coarse joke. This man had gone out and brought in his two companions, who had been concealed in the brush, his appearance at the store having been for the purpose of learning the surrounding, locating valuables and selecting the most opportune time for the hold-up. The robbers were armed with a double-barreled shotgun and two revolvers. As they came into the room, they ordered all present to throw up their hands. They then took \$1500 in money, \$1000 of which had been deposited by Indians with Mr. Jorgens for safe keeping; six gold watches, a tray of gold rings, a shotgun and a rifle. They then backed out of the room, mounted their horses and rode away in the darkness. Mr. Jorgens immediately organized a posse for pursuit, and in a little while ten Indians were scouring the country. It is believed the thieves headed for the Palouse country. Mr. Jorgens followed them all night, arriving here at 11 o'clock this morning. On reaching this place he immediately telegraphed to the sheriffs at Moscow and Lewiston. It is believed the alarm has been so thoroughly sounded that the robbers will be unable to escape.

A Double Hanging.

SAN FRANCISCO, Oct. 12.—United States Marshal Baldwin has completed arrangements for the execution of Thomas St. Clair and Hans Hansen next Friday. The double hanging will take place at the state prison at San Quentin, whither both murderers were taken today. Two scaffolds will be erected, and both men will die at the same time. The crime for which the prisoners will be hanged is the murder of the mate of the bark Hesper, on the high seas. This will be the first execution of federal prisoners on the Pacific coast. Other men have been convicted of murder on the high seas, but have not paid the death penalty.

Baracoa Blown Up.

KEY WEST, Fla., Oct. 12.—A report has been received here that the town of Baracoa, on the northern coast of Cuba, has been taken by the insurgents and blown up by dynamite.

Pilot-Boat Captured by Insurgents.

HAVANA, Oct. 12.—The insurgents at Azevedo bay, near Santiago de Cuba, have captured a pilot-boat commanded by a lieutenant in the Spanish navy and having 12 marines on board. It was doing cruiser duty along the coast. This small ship was attacked by a number of insurgents, who seized the crew, the latter being compelled to surrender in the face of overwhelming numbers of the enemy. The insurgents carried away the armament of the cruiser, consisting of a Gatling gun and all the ammunition, stores, etc., which they found on board, together with the weapons of the Spanish marines.

They Want the Fight.

HOT SPRINGS, Oct. 12.—The announcement by Governor Clarke of his determination to prevent the Corbett-Fitzsimmons mill produced no apparent effect here. The sheriff has not allowed himself to be interviewed further than to say that the authorities can rely upon him to do his duty under the laws. The action can be taken as a criterion by which to judge the attitude of the city authorities. Whatever these officials may think of the position of Governor Clarke, they are uncommunicative. Brady arrived here tonight. A mass meeting of citizens was held this afternoon to raise by popular subscription, the sum of \$5000 as a guarantee. Mayor Water, in calling the meeting to order, referred to the distressed condition of business here, and the financial benefit the city must derive from the contest if it is brought off here. A subscription blank was prepared and passed around and the necessary amount was subscribed and paid within 30 minutes. Joe Vendig was present. He said tonight: "Corbett and Fitzsimmons will be here by Tuesday. The lumber will be here in time to put 200 men to work Wednesday. You can say that the contest will take place here October 31."

Old Glory Again.

Mrs. Henry Rust of Baker City has made for and will present to the soldiers home a magnificent flag Tuesday afternoon amidst the roar of cannons, the rattling of sabers and the charms of oratory. Mr. Hermann will make the presentation speech. A cordial invitation is extended to all.

OLALLA.

Tom Newland is building a house on his Olalla farm. Dick Tevebaugh has moved onto John Byron's Olalla farm. Dr. S. Pope of Brockway preached two very interesting discourses last Sunday and will talk to the people of Olalla on the 20th inst at 11 o'clock. Eugene Hoover is moving to his mother's ranch in our neighborhood. Mason Aldrich has traded for the Hunter's flat and moved thereto. Mrs. Lucinda Bushnell of Ten Mile is very sick again.

I notice a card in Thursday's issue of the PLAINDEALER from W. R. Wells accusing me of making a "misstatement as usual." I do not wish to enter into a controversy with Mr. Wells, neither do I wish to wound his feelings, but I must say in justice to myself and friends that either Billy made a misstatement or some of his neighbors have seriously perverted the facts connected with the transaction alluded to in his card. ALLEN.

NOTES OF INTEREST.

Haynes has just returned from the East and opened dental parlors in Mark's building, where he will be pleased to welcome persons desiring dental work. New Style of Trunk. At the Boss store you can see something new under the sun. It is a new style of trunk that prevents the breakage of the hinges when throwing back the top. Just the thing for ladies. The internal arrangements are unique. State Normal School, DRAIN, OREGON. First term begins September 16th. Entire new facility. Send for catalogue. LOUIS BARTEE, President.

DAYS.

What is the message of days, what is the thought they bring— Days that darken to winter, days that sweeten to spring? Is there a lore to learn? Is there a truth to be told? Hath the new dawn a ray that never flashed from the old? Day that deepens to night, night that broadens to day. What is the meaning of all, what is the word they say? Silence for aye and aye, and the heart beats never cease Till toll and life and the day are the night and death and peace. —John Hall Ingham in Scribner's.

POSING AT THE PIANO.

Paderewski Thinks Performers Should Look Effective While Playing. When Paderewski was in New York, he was calling at a prominent Wall street man's home in Fifth avenue when the broker told him he would like to have his opinion of his daughter's playing. The great pianist courteously replied that nothing would give him greater pleasure.

After the young lady had dashed off several selections Paderewski said: "To get the greatest enjoyment from the piano the music must not only be heard, but the performer should be seen. The performer should therefore be careful of his or her position at the instrument. "I will be frank with you and say that I preferred to see rather than hear your daughter play. I might better say that I looked more than I listened. She held herself correctly. There is nothing I hate more than a listless, careless posture of the body while playing. "Then there was life in her touch. Her fingers fairly sparkled as they ran over the board and touched the keys, rebounding from them with a snap that was exhilarating to behold. Her manner of using her hands and her elbowing, if I may so call it, showed proper training also. "I will therefore add that my sense of hearing would have been equally delighted doubtless if my sense of sight had not been so completely monopolized. I compliment the young lady on her accomplishment. "There is wisdom in that," said the broker in repeating the conversation. "Teachers of the piano should give far more attention to this matter than they now do." —New York Advertiser.

Electric Light Test.

The public is becoming quite knowing in many branches of electric knowledge, and in none more than in the determination, with greater or less accuracy, of the efficiency of the electric light. At one time a central station had no great difficulty in foisting upon its customers as a 16 candle power light that the ordinary gas jet would be an improvement upon. Now, however, people are more critical, and they have a very shrewd idea as to whether they are getting as much light as they are paying for. If they have any doubt on the subject, it can be easily set at rest. The latest method of measuring illumination is based upon the principle that the illumination, falling, say, on a printed page, must have a definite value in order to render the printed characters just legible, and that the intensity of illumination so required will, for a normal eye, depend upon the size and character of the print. A small printed tablet is placed in a darkened box and exposed to illumination from a translucent plate of glass or porcelain, which receives directly on its surface the light whose intensity is to be measured. The area of the translucent plate is then varied until the amount of light received by the test characters just renders them visible. A scale is provided by reference to which the exact degree of candle power of the illumination is determined. —New York Times.

His Pills.

There lives in a town not far from here—in fact, it is at Skaneateles—a couple who think a good deal of each other, and when one is ill the other does everything in the world for her or his welfare. Not long ago the husband was taken ill, and his wife rummaged around to find some medicine in the house. Finally she came across a box of little black pills. There was no writing on the cover of the box to tell what they were, but as they resembled a certain liver pill the wife concluded that they must be the required thing. She gave them to her hubby regularly, and he seemed to improve. About a week after, when he had got down to the last pill, he chanced to turn the box over. He gave a yell that startled the whole neighborhood. His wife ran to him, thinking that he was dying. "Look," he cried. "Read what it says on the bottom." She did as he bade her, and this was what she read: "Prime Crown Morning Glory Seeds!" —Syracuse Post.

Swore Himself In.

In his reminiscences of the Crimea, in 1854, General Sir Evelyn Wood tells a story of a fighting general who, during a conflict, was seen wherever bullets fell most thickly. When not visible, his voice was heard encouraging his men with "a vocabulary borrowed from the army in Flanders," which Sir Evelyn says will not bear repetition. "Years after he was appointed to the Aldershot command, and her majesty happened to ask, 'Has the new general yet taken up his command?' 'Yes, your majesty,' was the apt reply: 'he swore himself in yesterday.'"

Iceland Moss is native to the northern parts of all continents. It is most abundant, however, in Iceland, whence its name has been obtained. Formerly in high repute in medicine, it is now very lightly regarded. Australia means "south," and the land now known by that name was formerly called New Holland. The doublet was a close fitting coat introduced into France from Italy about 1100.

M. F. Rapp, LEADING PRESCRIPTION DRUGGIST, Jackson Street, Roseburg, Oregon. Patent Medicines, Perfumeries, Toilet Articles. A COMPLETE LINE OF Knickerbocker Shoulder Braces FOR Gentlemen, Ladies and Children.
