Grading Dried Prunes

The work of grading prunes for the market is one of great importance. This 60 dried prones in a pound of some varietiee, while in others, as the Petite for example, it is 60, 70 and 80 to the pound. Consumers of prunes prefer their fruit to be all of a uniform size. No. 10, (40 to the pound) being the more highly prized, No. 50 next and No. 60 of the lowest value of same variety.

The Oregon Fruit Union has now in grading of the fruit. The machine has been set up and this morning the machine was set at work, but for some cause-
