Ensign Wimmer and wife have taken charge of this corps and will continue enlistments in the army of God, as they term their work. Quite a large crowd Rice, per pound, 14%. gathered at the barracks last night to see and hear the work of this corps. Go to the Churchill, Woolley & Mc-Kenzie corner and witness the grand display of Christmas presents on exhibition there. Lamps, table cutlery and ornamental fixtures of almost every description may be found at their store in abundance, suitable for Christmas presents for old and young of both sexes. Don't be backward in coming forward to make your purchases to please husband, wife and children, and when Christmas comes you will be happy in the thought that Churchill, Woolley & McKenzie have enabled you to make the whole family circle joyous and happy. Sam Veatch has just come into possession of a beautiful young canine, a pup of pure blood, and on being asked its name, we learn that I answered to the name I of McKinley. We presume he regarded McKinley as a good protector of the American laboring man, and therefore named his pup after him, hoping that his pup would at some future time be a good protector of himself and property. Sam, take good care of that pup, he bears an honored name, and when in 1896 McKinley is installed into the presidential chair, he may rend for your pup, have him conveyed to Washington and installed as guardian o the treasury, thus preventing the assault of Cleveland upon it.

#### A Peculiar Sight.

Captain J. T. C. Nash returned from the Elliott creek mines, just over the California line from Applegate yesterday, says the Medford Monitor. He brought with him a peculiar animal born to a well-bred shepherd dog. The pup or cub is about six weeks old, and is about the size and color of a cinnamon bear of that age. The fur is long and bushy, the body bear-shaped, except the feet. The hair on the under side of the body is similar to that of its mother. The head is like a small lion in shape, being larger than an ordinary cub or pup. Whether the monstrosity is the result of antenatal fright or a cross is not known. Its development will be watched with interest. It is one of a litter of two, the other baving died.
