Only One America.
New York, Dec. 23.—A special to the Herald from Havana says:
"La Discusion has received a dispatch from Madrid giving the opinions of Spanish military engineers, of high rank, on the possibility of a war between the United States and Great Britain over the Venezuela boundary question. One officer, high in the engineering department of Spain's army, Colonel Genero Alos, is quoted as saying that England was trading on dangerous ground. If she should press the Venezuela affair to a climax she would soon recognize the fact that there was, in reality, only one America, and that in a crisis such as the present one, every republic on the continent, from the pigmy San Salvador to the giant Brazil, would coalesce as if by magic and follow the United States in battle to preserve and defend the integrity of the territory against European aggression. It was to be doubted whether England could count upon assistance from other European states."

Fighting at Zeitoun.
BERLIN, Dec. 23.—The Frankfort Zeitung publishes a dispatch from Constantinople saying there has been fierce fighting at Zeitoun between the Turkish troops, who surrounded that city, and the insurgent Armenians, who defended it. Both sides are said to have suffered frightfully. The Turks were 10,000 strong and had 24 pieces of artillery. The Armenians numbered 15,000, but had no artillery.

Fenians Will Fight.
ST. PAUL, Dec. 23.—Captain J. A. Kennedy of this city, speaking for the Northwestern center of the Fenian Brotherhood, has sent a message to President Cleveland, tendering "the service of 20,000 men who have been under fire before" in case of war with Great Britain. St. Paul has been a Fenian center for 25 years, and a large number of the men now anxious to fight England abetted Louis Riel in his two rebellions in the Northwest.

Two Motormen Shot.
PHILADELPHIA, Dec. 23.—William H. Matthews and Samuel C. Grossley, two motormen who were in a mob of strike sympathizers, were shot, the latter probably fatally, by a policeman on a car at Seventeenth street and Girard avenue. After repeated warning to the crowd to disperse, the policemen began firing. Only a few shots were necessary to send the mob scattering in every direction. It is alleged fully 5000 people were in the crowd. Half a dozen cars were wrecked. Riots of a less serious nature occurred at five other places, and numerous arrests were made. The company is running more cars today than at any time since the strike began. The strikers' committee today adopted resolutions asking John Wannamaker to act as arbitrator of the streetcar trouble. Wannamaker accepted.

France With us.
PARIS, Dec. 23.—L'Eclair today declares that French sympathies are with England in the Venezuelan dispute, saying that on the contrary that they are with the United States, adding:
"If England's power and prestige are lessened, nothing would be more to the advantage of France."

One Sensible Englishman.
LONDON, Dec. 23.—Mr. Labouchere, in truth, regrets the bullying tone of Mr. Cleveland, but contends that England ought to submit the whole boundary question to arbitration. He adds:
"The Monroe doctrine has become a

TELEGRAPH NEWS
No Issue of Bonds.
WASHINGTON, Dec. 23.—It can be stated on authority that the rumor that the president had decided to announce another bond issue at once is without foundation. The only members of the cabinet who saw the president were Secretary Lamont, who had just returned to the city, and called to pay his respects, and Giney and Carlisle. The general situation was discussed informally, but the question of the immediate issue of bonds was not considered. Indeed it is stated that in view of the president's recent message to congress asking for legislation which might render another issue unnecessary, it would be scant courtesy to that body to anticipate its negative action.
The president has himself repeatedly stated, however, that he would protect the public credit at whatever cost should the necessities of the situation require heroic action, but at the present moment it is argued no such necessity has arisen. Moreover, it is doubted whether in view of the present state of the money market at home and abroad a large loan could be floated except at a great sacrifice to the government. With money at 25 per cent it is not seen how exporters can afford to make any shipments of gold, and for this reason the apprehension of large withdrawals predicted before the break in the market occurred, is no longer felt. There seems to be, however, no reasonable doubt that should the heavy gold shipments be resumed, and congress fail to pass any remedial legislation, the president would issue bonds to any amount that the situation might justify.

Steadily Improving.
New York, Dec. 23.—The stock market opened in good tone, with speculation very brisk. There was good buying, in which foreign houses were prominent, and nearly all active lists made rapid advances. Some realizing sales caused a retrograde movement, and declines were recorded from 1/2 to 2 per cent. The market, however, was fairly steady, and there were no indications of panicky conditions.
The depression which came on the market at 10:15, continued about half an hour, the extreme decline being in sugar, which fell 2 1/2 cents. At 10:45 prices were again moving upward. Pullman selling a 6 per cent and others at from 1/2 to 2 per cent advance. Money has ranged between 6 and 25 per cent on actual transactions, but at one time was 35 per cent, with no business. The rate at noon was 30 per cent, and at 12:50 \$200,000 was loaned at 30 per cent. Loans have been made on dividend-paying stock at 6 per cent.
Goold, Hall & Company suspended today as the result of the slump in the stock market Friday and Saturday. The firm is a small one, and the suspension had no effect on exchange.

Improvement in London.
London, Dec. 23.—At 1 o'clock this afternoon there was less excitement on the stock exchange, but the market was still unsettled. There was a disposition to take a more hopeful view of the Venezuelan question politically, but grave apprehension is felt regarding the financial outlook of the United States. There was not much improvement in foreign government securities. The American railroad market, which was very excited at the opening, was quieter at 1 o'clock.
In fact the panicky feeling seems to give way to one of more confidence.
On the Liverpool and Manchester and Glasgow stock exchanges the tone showed a marked improvement and prices for American securities were steadily increasing.

Comotion on Jackson Street.
Monday evening about 4:30 two young men from Oak Creek, Oliver and Charles Patterson, who had imbibed some of Roseburg's tarantula juice, took it into their heads that Jackson street was a race course, and mounting their mustangs began to spur them up and down the street, yelling like wild Indians, which made quite a commotion for a few minutes. The marshal soon appeared upon the scene and marched them to the calaboose. In effecting their arrest one of our citizens, Bailey Singleton, who caught one of the horses, was dragged about 40 feet through the mud and when released from his precarious predicament presented a ludicrous appearance—mud from head to foot. But Bailey held on like grim death and the horse's rider was secured and locked up. Mr. Geo. Kolhagen came forward and went their bail and they were released from durance vile, having learned doubtless that Jackson street is not the place to run their horses, and are now wiser and we hope better men.
