The election laws require the county court to provide polling places for every 250 voters and for that purpose the court advises the precincts and divide them to accommodate and facilitate voting, prior to each election. These requirements of law will make it necessary to make two precincts out of Umpqua. All parties in interest will do well to look after this matter.

S. F. Flood has resigned his position as second deputy under C. Black, collector of customs of the district of Willamette, on account of ill health. Fred Flood is an Oregon boy born and reared in Douglas county and took a very active part in politics, on account of which he was doubtless appointed to the position he has now resigned. Fred breaks the democratic record. It can no longer be said, democrats never resign.

Danger Not Yet Past. LONDON, Dec. 31.—The Westminster Gazette this afternoon, in a leading article, headed "The Way Out," says: "While the question intrinsically is not important, incidentally it is of great importance. Great Britain cannot retreat from the position she has taken, and the United States will not retreat from hers. The only method of escape from this deadlock which shall impose neither humiliation nor retreat on either side is to find something which is not arbitration, but which is as like it as possible."

The Gazette suggests that both countries agree upon a board of conciliation, not binding themselves, as in the case of arbitration to accept its decisions, but on the chance of conciliators being able to suggest a compromise acceptable to both countries. In conclusion, the Westminster Gazette remarks: "We firmly believe a couple of impartial, sensible men, say the chief justices of the two countries could easily settle the matter by this method."

The afternoon newspapers all regard the utterances of Senator Sherman on President Cleveland's message to congress on the Venezuela question as a plain warning that danger has not yet passed. The stock exchange opened dull and inactive, but later the tone of the market improved.

Two firms involved in American securities were declared defaulters today on the Liverpool stock exchange. The Recent Fight at Colon. KEY WEST, Fla., Dec. 31.—An account has been received here of the recent fighting around Colon, and of the rough manner in which the Spaniards were handled. Some of the Spanish commanders were nearly cut in pieces.

One brigade, composed of 2000 men, was practically destroyed. This brigade, early in the engagement, became detached from Campo's main army, and tried to make its way to Cienfuegos. The guides proved treacherous, and led the Spaniards through a country swarming with insurgents. From every point of vantage the insurgents poured in a withering fire on the Spaniards and all semblance of discipline was lost.

The Spanish retreat became a rout, each man seeking shelter from the bullets of the concealed foe. After four days of incredible suffering the remnants of the brigade reached San Domingo, on the road to Cienfuegos. Of the 2000 soldiers who began the retreat, 1100 were missing. More than half the officers of the command were also missing. Many of the soldiers and officers had perished by insurgent bullets, but the larger number had died from exhaustion. For three days the troops were without food. All the horses belonging to the command were killed and eaten. Those who reached San Domingo were in a pitiable condition. Their guns had been thrown away, their feet were bare and blistered, and the clothing of many was in rags.

The account concludes by describing the wounded Spaniards pouring into the hospitals at Matanzas, Cardenas, Havana and other points since the recent fighting. Insurgents Hopeful. NEW YORK, Dec. 31.—A letter dated December 19th has been received at the Cuban revolutionary headquarters in this city, from the agent of the junta in Santa Clara. The letter gave some important details as to the number killed and wounded in the recent actions in the island. It adds, in part: "By the file of papers received today from Havana I see that not even one-half of what has taken place here is published. From Matiempo alone 92 wounded have been brought into the city, and we know positively that the Spaniards lost 27 killed. From Horniguero 40 wounded were brought in yesterday, and several more from other places."

"We have no communication with Havana, Cienfuegos, Sagua and other cities, as telegraph lines have been cut and there are no mails. The only way to get a letter through is by special courier. Under the circumstances you may well imagine the state of excitement in which we live. Things look very black for the Spaniards."

Visited By a Hurricane. NEW YORK, Dec. 31.—A cold wave reached this section today. It was heralded by a violent wind storm, which at 2 o'clock reached the velocity of 72 miles per hour. Bay Ridge, Staten Island, the Jersey shore and Coney Island received the full force of the wind. As the morning advanced, the wind decreased slightly, but it was still blowing 50 miles an hour at 10 o'clock. The thermometer registered 32 deg.

In the interior of the state the storm was very severe. At Little Falls, the West Shore railway tracks were washed out. Reports from the Adirondacks indicate much damage by wind. Blizzard at Pittsburg. PITTSBURG, Dec. 31.—Following the heavy rain yesterday a blizzard struck Pittsburg at 10 o'clock last night, and raged until daylight. The wind attained a velocity of 30 miles an hour. Telegraph wires were prostrated, and communication with the East was entirely cut off until nearly noon today. The mercury dropped 25 deg. in ten hours.

An Extraordinary Act. NEW YORK, Dec. 31.—A special from Caracas says great excitement has been caused by a report that the Spanish minister has been escorted out of Bogota, the capital of Colombia. According to this report, which is devoid of details, the extraordinary act was due to the minister's denunciation of the treatment

which the British minister to the same republic is alleged to have suffered. The diplomatic representative of Great Britain, it is said, will be summarily expelled, for what reason is not known. General Pachana has been appointed minister to Argentina.

To Protect the Reserve. WASHINGTON, Dec. 31.—Senator Sherman introduced into the senate today the following: "Resolved, that by injurious legislation by the 53d congress, the revenues of the government were reduced below its necessary expenditures and the fund created by lawful redemption of United States notes has been invaded to supply such a deficiency of the reserve, and that such misapplication of the redemption fund is of doubtful legality and greatly injurious to the public credit, and should be prevented by restoring said fund to a sum of not less than \$100,000,000 in gold coin or bullion to be paid out only in the redemption of United States notes and treasury notes, and such notes, when redeemed, to be re-issued only in exchange for gold coin or bullion."

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal. Transvaal Invaded. LONDON, Jan. 1.—News from Pretoria, Transvaal republic, today, tends to confirm the gravity of the situation there growing out of the invasion of the Boer territory by an armed force of the British South African Company, numbering about 700 men, with six Maxim guns, led by Dr. Jamieson, the British commissioner of the Transvaal.

President Kruger has called upon the burghers to defend their country, and a serious conflict is anticipated, in spite of the fact that the colonial secretary, Hon. Joseph Chamberlain, has telegraphed Dr. Jamieson to withdraw into British territory, and urged President Kruger to do his utmost to prevent bloodshed. A dispatch from the Transvaal today says: "The burghers are advancing to meet Jamieson. A conflict is hourly expected."

The afternoon papers comment at some length upon the fresh trouble the British government has to face. They recognize that an invasion of the Transvaal, although made upon the urgent request of thousands of Englishmen and others, who complain that they have to pay the whole revenue of the country, while being denied representation, is liable to give particular offense to German, whose friendship at this critical stage the Marquis of Salisbury is more than anxious to cultivate.

The telegraph wires are believed to have been cut behind Jamieson's force, and as the Boer forces, well armed and equipped, have been mobilizing under General Jubert, news of a bloody conflict is expected. The Boers can put in the field 6000 fighting men, supported with Maxim guns, and to oppose this force Dr. Jamieson has only about 700 men, with six Maxim guns, who may receive the direct or indirect assistance of about 4000 untrained and badly armed Englishmen. However, Jamieson may be able to call to his support 1000 men belonging to the Bebers Company. The dispatch says Great Britain, through the colonial secretary, has offered to arbitrate, but it is feared the offer has come too late, and serious consequences are apprehended.

A special from Berlin says it is stated that Emperor William has promised his moral support to the Boers, and indicated that he may take other measures if Great Britain persists in her present course. The secretary of state for the colonies, Mr. Chamberlain, has issued the following statement on the Transvaal question: "Having learned Monday evening that Dr. Jamieson has entered the Boer country, I have since been continually engaged in an endeavor to avert the consequences of his extraordinary action. Sir Hercules Robinson has by proclamation publicly repudiated Jamieson's act, and has enjoined British subjects to obey the laws and remain quiet. Jamieson and his officers have also been ordered to retire immediately. It is hoped a collision will be averted, but Jamieson cut the wires as he advanced."

"The British agents at Johannesburg," Chamberlain's statement continues, "is moving forward to meet Dr. Jamieson and to order him in the queen's name to retire. I have called upon the Chartered Company to repudiate Dr. Jamieson's proceedings, of which the company says it is entirely ignorant."

Mr. Cecil Rhodes, premier of Cape Colony, has stated Jamieson's action is without his authority, and that as soon as he heard he contemplated entering the Transvaal, he endeavored to stop but found the wires cut.

Germans Aroused. BERLIN, Jan. 1.—The news of the invasion of the Transvaal republic by an armed British force has created a decided sensation here. The Kenne Zeitung says: "Everywhere is the same greed and bad faith. Today it is Africa; yesterday it was South America."

The invasion of the Transvaal by Dr. Jamieson and the forces of the British South Africa Company, all the newspapers declare, constitutes a serious and unjustifiable breach of peace, against which Germany must protest.

Gone to Berlin. THE HAGUE, Jan. 1.—The minister of the Transvaal republic left here this morning for Berlin in order, it is believed, to make strong representations to the German government on the subject of the invasion of the Transvaal republic by the forces of the British South Africa Company.

Our first New Year's dinner in Oregon was partaken in 1845, fifty years ago. We were living on the Lockmatte in Folk county. A neighbor of ours, Green B. Smith, had lost some calves supposed to be killed by a panther. On the first of January that year a half dozen of us assembled at Smith's house to hunt, and, if possible, to find the animal and put an end to his depredations on his band of cattle. We surrounded a fir thicket of about ten acres, started a dog on his track and soon the animal ascended a tree for safety. David Stump with unerring aim discharged his rifle at him, and he came tumbling to the ground. Through curiosity, and to test the quality of meat of said animal, we skinned him, selected some choice portions and broiled it over hot coals; but when the time came for testing its qualities as an article of diet, we found it most disgusting to the sense of taste, and worse than the mule meat we had eaten of in the Cascades previously when out of muck-a-muck. So our dinner was at last confined to boiled wheat and camas, luxuries that are seldom seen on the tables of epicures in these latter days. Old pioneers can call to mind those days of early pioneer life and contrast them with the present manner of living, brought about through their instrumentality in their being the leaders in the advance of civilization on this coast. Calling to remembrance those early times, we wish the surviving old pioneers a prosperous and most happy New Year. S.
