Helpless Armenia.

WASHINGTON, Jan. 13.—Today being the second Monday of the month, was, under the rules, set aside for the consideration of business relating to the District of Columbia. Before Chairman Babcock claimed the day, Morse presented the following resolution for reference to the committee on foreign affairs: "Whereas, The most mournful tragedy of the 19th century has been and is now being enacted under the apparent sanction of the sultan of Turkey, by which hundreds of thousands of Armenians are being ruthlessly slaughtered in cold blood; women are being driven in captivity worse than death, and the inhabitants who have fled to the mountains are dying of cold and starvation, and "Whereas, The blood of these martyred dead cry to heaven for justice; "Resolved, That the committee on foreign affairs consider the expediency of reporting forthwith some expression by this government in denunciation of these atrocities, and if they find we as a nation are powerless to act, that we invoke the co-operation of the allied powers to wipe the Turkish government off the face of the earth and secure the freedom and independence of Armenia." The resolution was referred.

The house then entered upon the consideration of district business. Two important bills were reported, after which the house went into a committee of the whole for consideration of the pension appropriation bill.

An Important Discovery.

WASHINGTON, Jan. 13.—Public opinion in Great Britain has changed in the most wonderful manner since the Monroe doctrine was first promulgated. An unexpected discovery in the old files in the house of representatives has given to the state department a valuable state paper, with which Lord Salisbury's claim that the Monroe doctrine has never been recognized by England, will be completely upset.

In going over the old records Walter H. French, the file clerk of the house, discovered a collection of clippings from English papers, all bearing on the message of President Monroe, in which he gave to the world the famous doctrine which bears his name. The message was sent on the opening of congress, the first Monday in December, 1823. The British papers without exception, commented on the message in the most favorable terms. France was then contemplating conquest in South America and Great Britain was prompt to seize on the Monroe message as a notice to continental nations that conquest in America meant war with the United States.

Mr. Frenche's discovery has been copied and sent to Secretary Olney. Members of the foreign affairs committee say that Mr. Frenche's discovery is the most important made in the matter, as it presents contemporary evidence of the fact, which Great Britain has since forgotten, that at the time President Monroe's message was delivered it was accepted, and even welcomed as sound doctrine by the people of England. More than that, the newspapers then distinctly pledged Great Britain to aid in the enforcement of the Monroe doctrine.

Break in the Clouds.

LONDON, Jan. 13.—It was learned this afternoon that the cabinet council Saturday considered the question of re-establishing diplomatic relations with Venezuela, but no definite conclusion was arrived at. The Westminster Gazette this afternoon, touching upon the misunderstanding between Great Britain and the United States, says it sees a distinct break in the clouds, and hopes a settlement satisfactory to Great Britain and the United States will be effected with Venezuela direct, and intimates that the Brazilian minister is closely identified with the latest proposed solution of this controversy.

Torpedoes Being Planted.

CHICAGO, Jan. 13.—A special from Washington says: Torpedoes are being planted in the harbor of Havana and heavy siege guns are being placed in position. This was the private information received by the Cuban junta and given out by Senor Rubens last night. As the insurgents have not a ship afloat, the inference is irresistible that Spain expects interference by the United States, and is preparing to defend the capital from an attack by sea. Action by the United States looking to the recognition of the belligerency is expected.

It is stated on apparently good authority that President Cleveland's Venezuela message was a double-barreled affair, which hit Salisbury in two places at the same time. According to the secret agents of the Cubans, Spain is at the end of her resources, and will have to suspend specie payments entirely within the next 30 days. With bankruptcy staring her in the face, Spain, it is said, made a proposition to sell the island of Cuba to Great Britain. Lord Salisbury, it is intimated, according to Cuban authority, sounded the United States on the subject, and the reply was President

Cleveland's vigorous enunciation of the Monroe doctrine.

The senate committee on foreign relations has been holding several conferences of late. Senator Davis of Minnesota, at the head of a sub-committee having the matter in charge, is now drawing up a formal definition of the Monroe doctrine, which expands the original declaration and makes it clear as the formal doctrine of the American congress. Those who claim to know, say that this declaration is intended to meet both the Cuban and Venezuela cases.

As the dry season ends in March, it is now said if Spain does not succeed in stopping the rebellion by that time the United States will certainly recognize the insurgents as belligerents. The Cuban colony is in a ferment over rumors that recognition by the United States is at last at hand.

Mark A. Katz, of the firm of Chas. Jacobson & Co. of San Francisco, was here during last week making arrangements with E. G. Young & Co., for a part of a carload of chickens to be shipped this week. The car will leave Eugene partly loaded and will stop here for the above lot to be put aboard. This San Francisco company will run a car once a month hereafter, gathering up poultry along the road from Portland to San Francisco. This will be a great convenience to shippers.

OLALLA.

Minio is rather tedious just now owing to the scarcity of water, yet there is some work going on.

All the old mines are in operation except the Bushnell claim, Nevens & Byron's claim and the old K. B. Ireland claim.

Pursuant to previous notice a few of the citizens of Olalla met at the school house and organized a social club or literary society. O. H. Flook was elected president; H. Z. Ireland, vice-president; G. Byron, secretary; Zelia Byron, treasurer and W. L. Short, sergeant-at-arms. A committee having been appointed to draft a constitution and by-laws, handed in their report, which was read and adopted. There being no further business the meeting adjourned to meet Sunday, Jan. 19, at 2 o'clock p. m.

ALLEN.

When the civil war opened the wealth of this country was estimated at \$15,000,000,000. In 1890 it had reached \$65,000,000,000, and in case of a foreign war we should now be an undivided people. The most remarkable fact connected with these figures is that the United States accumulated three times as much wealth during the thirty years ending with 1890 as in the 250 years preceding 1890.

The receipts of the American Bible Society last year were over \$28,000, but this was much less than was needed for its purposes. It prints the Bible in ninety-five different languages and dialects, and while many are of a high class and purchased by the well-to-do, the most of them are cheap, and find their way as gifts into the homes of the poor. Since 1804, there has been an aggregate of 250,000,000 Bibles printed in the world.

The fact that the exports to the United States from Sheffield, England, during 1895 were \$750,000 larger than those of 1894 is worth noting as an example of the way in which a democratic tariff policy does not benefit the manufacturers and laborers of the United States.

Marvelous Results.
From a letter written by Rev. J. Gauderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at River Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at A. C. Masters & Co.'s Drug Store. Regular size 50c. and \$1.00.
