#### HERMANN'S INFLUENCE.

It is a little refreshing to learn from disinterested sources what influence Mr. Hermann fields in congress. We give the opinion of Hon. W. C. Patterson, president of the chamber of commerce of Los Angeles, Cal. In Mr. Patterson's address to the chamber upon his return from Washington, where he had been before the rivers and harbor committee in behalf of San Pedro harbor he said: (As reported in the Los Angeles Herald of March 8, 1896). "After the adjournment of the committee we met a number of members personally. One and all, they assured us that in Mr. Hermann we had a friend upon whom we could rely. \* \* \* Hermann of Oregon is one of the strong men of the house. He is a man who has had the benefit of experience and others look up to him."  
Such golden opinions as the above coming from such a source shows in unmistakable language that Mr. Hermann possesses and wields more than ordinary influence in congress, and for good reasons: his pleasing address, his perseverance in his duties and his experience.  
Oregonians are now, if he is returned to congress, beginning to reap the ripe fruits of his experience. Displace him with a new man and we loose that benefit we are now entitled to receive from him. So long as Mr. Hermann does well, keep him there is the correct policy.

Primaries next Saturday at 1 o'clock p. m. Let every republican turn out and attend the meetings. Send up to the County Convention representative men and demand through them, to require pledges from candidates for the state legislature to work and vote for re-trenchments in state and county expenses. Let this demand come from all parts of the county and we may expect it will be heeded.

**And Still Another.**  
EDITOR PLAINDEALER: The near approach of the nominating convention causes the average voter to weigh the qualifications of the many aspirants for the various offices, and it sometimes happens that voters preferences are for some one who has not aspired or has not pushed their cause before the primaries. In connection with shrewdly the name of Capt. G. W. Peters of Oakland, has been frequently and favorably mentioned and without saying one word in disparagement of any of the prominent candidates, the friends of Capt. Peters claim that he is eminently qualified for the office. His clerical qualifications are of the best, and his active services as a soldier amply qualify him for the management of prisoners. No kind of danger would deter Capt. Peters from the performance of his duties. It would be a graceful compliment to the old soldier for the republican county convention to tender the nomination for sheriff to a man who so faithfully served his country as did Capt. Peters.

#### LET THE PUBLIC KNOW.

No one doubts the right of the Review to controvert the principles of the A. P. A., nor does any unbiased mind doubt the fact that the Review entertains very strong convictions on the subject, and more, that it is so foolishly prejudiced against the organization that it would be difficult for his befogged brain to comprehend the real reasons for the existence of the A. P. A. and the fundamentals which they have promulgated to the world. Mark you, the Review has never published a single line of their faith. He has said many things, which are alien to their principles. He has dubbed them as the "off scouring of the earth," "silly babblers," "half breeds," "imported French," and "broken down Englishmen." From week to week the public has been treated to such delectable patulum for the mind as the above, which approaches nearly to the billingsgate and fishmonger idiom. "More Anon" has been greatly surprised at both the matter, and the utter unfairness and dishonesty of the editorials in the Review on A. P. Assn. No man takes the oath, or receives the instruction in an A. P. A. council as formulated by the Review, but admitting for the sake of argument, that the Review has the oath and instruction given in an A. P. A. council, he has gotten them through either bribery or intimidation, either of which is thoroughly dishonest and should be frowned down, and utterly repudiated by an honest public. We would ask, how did you get these obligations, grips, passwords, and signs? Let the public know, did you get them honestly, or have you taken the vows of an American and through fear, or for mercenary purposes betrayed your vows and basely broken your oath?  
You claim to be well acquainted with the ritual and secret workings of the council. Pray tell us how you get your knowledge of these things? If you have never been a member of a council, and are in possession of its secrets, tell the public if your brother has given you the signs, grips, passwords, secret oaths and workings of the order. We say you have not these things. You claim you have. We want to know your authority. Of course these are small things, but your columns are full of oaths and secret signs, pass words and grips and we want to know how they came into your possession. Did you manufacture them out of whole cloth? From your incoherence we are sure you have manufactured something. But let me call the attention of the Review to another section of the A. P. A. creeds, and in calling the attention of the Review to this "More Anon," wants its sage opinion, the radiant light of its splendid genius upon this point. Don't kick up a dust and cover the real issue with ambiguous platitudes, and furious threats, and fish-monger abuse, but tell us in plain unadulterated English what you think of it. Hear it:  
Art. 9. "We condemn the support out of the public treasury by direct appropriation or by contract of any sectarian school, reformatory or other institution not owned and controlled by public authority."  
To what do you object in that? Quote it and show the public wherein it is unsound American doctrine, or dangerous to American liberty. Will you?  
MORE ANON.

**RESOLUTIONS.**  
To all the good people of Douglas county who love justice and fair dealing and hate a lie:  
WHEREAS, The editor of the Roseburg Review through the columns of his paper has during the past six months, waged an unjust, unwarranted and wholly unscrupulous war on our organization, known as the American Protective Association, and  
WHEREAS, The said editor has continually misrepresented, and misstated the aims and purposes of our organization, and has maligned, traduced and slandered the individual members thereof; and  
WHEREAS, The editor of the Review is as we know in all reason actuated wholly and entirely by personal and selfish motives, be it  
Resolved, By Roseburg Council No. 22 of the American Protective Association, composed of a very large number of the representative citizens of Roseburg and vicinity, of every honorable business trade and profession, more than thirty-five of whom during the dark days of the civil war, periled their lives to preserve our land and country as founded and builded by the fathers:  
1st. That we most earnestly protest and declare that we have never in any manner, or at any time, sought to injure any man's business nor to influence him in the management thereof.  
2nd. That we are not in any sense a political party and shall not attempt to control or influence the political affiliations of any of our members but we engage them to at all times be independent and conscientious in the discharge of their duties as citizens by assisting in maintaining the purity of the ballot box, and the election of office of men of known integrity and of unswerving fidelity to our country and its flag.  
3d. That we solemnly and sincerely declare that in no event, nor under any circumstance, do we advocate or countenance interference with the right of any one to worship God according to the dictates of his or her own conscience, but we do most earnestly protest against the unwarranted interference with our civil or religious liberties by any one owing allegiance to any foreign power, either civil or ecclesiastical.  
4th. We revere and honor our country and her institutions, her constitution and laws, every line and precept of which, we are pledged to support and defend against every foe, either foreign or domestic.  
5th. That we earnestly desire to live in peace and comity with all men, and more especially with our neighbors and fellow citizens, and we condemn the attempt on the part of the editor of the Review, and those under whose domination he acts, in attempting by unwarranted and unscrupulous attempts, to split a peaceable community into warring factions, to divide political parties, estrange friends to array neighbor against neighbor and to carry dissension into fraternal lodges and church societies.  
6th. That these resolutions be spread on the minutes of this council and furnished to the PLAINDEALER with a request that they be published.  
Adopted March 20, 1896.

#### ENDORSE HERMANN.

The Ashland Republican Club March 19, 1896, unanimously endorsed the following resolutions:  
WHEREAS, The Ashland Republican Club views with displeasure and grave apprehension the organized and persistent effort of a number of men in this state, who have heretofore affiliated with the republican party to commit the party to the advocacy of a financial policy by the government of the United States which shall be based on gold monometalism, measuring all values by the single gold standard, and  
WHEREAS, Stability of prices and industrial prosperity can be secured only by stability in the value of money and by constancy and regularity in the money supply, and  
WHEREAS, These advocates of gold monometalism have insolently arrogated to themselves the right to read out of the republican party of the state of Oregon all those citizens who subscribe to the republican doctrine laid down in the national republican platform of 1892: "That the republican party demand the use of both gold and silver as standard money," including the distinguished and trusted leaders in congress, to wit: United States Senator John H. Mitchell, Hon. Dingier Hermann and Hon. W. R. Ellis, members of the United States of representatives because of their votes in favor of the so-called silver bond bill, said representatives thereby indicating what they believed to be the best legislation at this juncture to restore and preserve the parity of the two metals as required by said national platform, and  
WHEREAS, The doctrinal arrogance and denunciation of the republicans who support protection and independent bimetalism which appears daily in the leading papers of this state claiming and admitted to be the exponent of said gold monometalism is calculated to destroy party harmony and is misleading and untruthful as to the position of the republican party on the financial question as expressed in the aforementioned platform.  
Therefore we, the members of the Ashland Republican Club, assembled in the city hall, resent the undue assumption made by any pretended republican organ or local political organization to "read out of the party" the distinguished gentlemen named, or any other persons favoring bimetalism and protection, and, be it  
Resolved, That we reaffirm our adherence to the principles of the republican party promulgated in 1892, including the declaration that "the American people from tradition and interest favor bimetalism and therefore demand the use of both gold and silver as standard money" and, be it further  
Resolved, That we approve and commend the votes of Hon. J. H. Mitchell and Hon. Dingier Hermann in congress on the pending financial issues as in harmony with the principles of the party platform and accepting their action as evidence of their continued loyalty to the interests of the people and to the republican party, we pledge them our earnest support in the impending campaign, which is to determine the right to continue as our faithful representatives in congress of the United States.  
Resolved, That a copy of these resolutions be furnished to the city press and to our representatives in congress.  
Will it Pay?  
Will it pay to plant more prunes? The amount dried last year on the Pacific coast was sixty or seventy million pounds. Fully one third will be left over to meet this year's crop, and you can judge what the effect will be on the market.  
Now for a few estimates. The number of trees in bearing is less than one-half the number now planted, and those now bearing have not reached their full capacity yet, by one third. The present production is sixty million pounds, add one-third or twenty million more and we have a total of eighty million pounds. Double that amount for trees now planted that will bear in two or three years and you will have a grand total of one hundred and sixty million pounds. Now then, if we have sale for only forty million pounds, what are we to do with the remaining one hundred and twenty million pounds? Can we find a market for that amount? If so, when and at what prices. To those thinking of planting out a prune orchard, it would be well to study the subject and get better estimates than these if you can.
