TELEGRAPH NEWS

Dr. Delagoa Interviewed.
CINCINNATI, April 21.—The Commercial Gazette's special correspondence from Mrs. Woodward, dated Havana, April 15, contains an interview with Dr. Jose Manuel Delagoa, the American citizen who was shot and hacked and left for dead by Spanish troops on March 4, when they raided the plantation of Dolores in Mainoa. Delagoa said he was an American, neutral in this contest and attending to his farm. When captured he presented his passport as an American citizen. General Malguzo answered by striking him three times with his sword. Delagoa and his seven plowmen were tied together with ropes and placed in line. A detail of Spanish troops fired at them by command.
Macao that day had fired the Dolores plantation and retired before the Spanish troops. A Spanish captain came to Delagoa's house with 20 men, and told the doctor and his seven field hands to follow. Delagoa showed his passport as an American, and so did his men. The captain said he had nothing to do with the matter; he was simply obeying orders, but it was his opinion that the worst thing they could do would be to show that they were Americans.
Arriving at General Malguzo's headquarters, Delagoa said they were neutral and then showed their passports. Malguzo became furious. It was then that he struck Delagoa with his machete, exclaiming, "I will shoot you, just as I would the consul general if he were here." The eight were taken out and tied together with a rope and placed against a stone wall. The order was to cut the prisoners down with machetes. The rope broke and the soldiers were ordered to fire. At the first volley Delagoa fell forward and feigned death. The second volley sent a bullet into his thigh. All the others except one were killed.
The doctor was left for dead and lost consciousness. When he recovered he found himself in his dwelling. There his old father took care of him. Shortly afterward Spanish soldiers came searching for the two that had escaped. Delagoa's father hid him in a cane field exposed to the inclement weather. Meantime the old father communicated with Consul-General Williams and obtained a safe conduct to Havana, where Delagoa now lies under the protection of the United States.
Dr. Delagoa graduated at Columbia college, New York, and at a medical college in that city. He was in New York from 1865 to 1877, when he left to take charge of the Dolores plantation in Cuba.
Olney and Bayard.
CHICAGO, April 21.—A special to the Tribune from Washington says:
"There has been serious friction between Secretary Olney and Ambassador Bayard on the Venezuela boundary controversy, which now comes to light. This, it is said, is of so grave a nature that it has strained the personal relations between the two. Ambassador Bayard held that the Monroe doctrine did not apply to the Venezuela boundary dispute, and Secretary Olney's attempt to give it that application was an untenable position. This view of Mr. Bayard was communicated to this government in one of his dispatches. This dispatch set forth Ambassador Bayard's opinion that Secretary Olney's memorable letter to Lord Salisbury, of July last, was based on untenable grounds, and that it took a position from which the United States would inevitably be forced to retreat, so far as an attempt to apply the Monroe doctrine to the Venezuela dispute was concerned."
"The dispatch went into the matter with considerable detail, and was emphatic in character. This, it is thought, explains why Lord Salisbury's reply to Secretary Olney's note was almost entirely devoted to a refutation of the latter's position that the Venezuela boundary dispute came within the scope of the Monroe doctrine. But for the extremely belligerent tone of the president's message to congress, and had it not been the British premier felt that a complicated European and Asiatic situation compelled moderation on his part an equally bellicose rejoinder might have come from across the water."
"As the relations between Secretary Olney and Senators Sherman and Lodge, and Chairman Hitt, of the house foreign affairs committee, are of an intimate nature, it is the general opinion that if the secretary had used his influence he could have headed off the resolutions passed by the house censuring Ambassador Bayard."

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Rev. Black Replies.
EDITOR PLAINDEALER: I seek no controversy with the Review, but I must be permitted to correct the falsehood it published, ignorantly perhaps, in Monday's issue. The Review is just as correct in that editorial as it was when it said that Rev. Ray Palmer had given up his pulpit to go into the lecture field; that he was brought here and imposed on a Christian public in the interest of a secret organization. But let the following attest the falsity of the insinuations in its editorial columns of Monday. I am an American, and, as such, I have a right to preach my convictions, which I will do to the best of my ability. Personalities I shall avoid. I recognize the principles of religious and civil liberty, and whoever made the statement that I said at Cleveland that the Review was owned by Sheridan and Brothers, told a falsehood as the following will attest:
"This is to certify that I heard Rev. G. W. Black preach at Cleveland on Friday night, April 17th, and most positively he did not assail the Review, or say that it was owned by Sheridan & Co. He delivered a sermon in favor of the public schools, and against the appropriation of public monies for sectarian purposes."
(Signed,) Sam Tooley, C. W. Hatfield, George Churchill, Wm. Jackson, D. C. Churchill, F. M. Good, J. K. Tooley, A. E. Clayton, Ashford Clayton, F. Lewis, L. Nelson, F. O. Good.
Let the Review say what it may, I have no other reply to make through the press to its insinuations and misrepresentations. Respectfully,
GEO. W. BLACK.

Populism and Free Silver.
Mr. Harry Watkins of McMinnville, one of the electors on the people's party ticket for presidential elector, spoke on the political issues now before the people, in the court house last night to a tolerable fair sized audience. Mr. Watkins is a very good stump speaker.
He confined himself chiefly to a discussion of the free coinage of silver question. He attributed all our financial trouble to the alleged demonetization of silver in 1873.
Open the mints, he said, to the free and unlimited coinage of silver the same as of gold and all the depression of business would vanish. He said all the difficulty is the result of unjust legislation in the interest of the "goldbugs." Here he treated his audience to a joke on bugs, the point to which was that of all the bugs the ted bug, the potato bug, the chintz bug, et. al., the worst is the gold bug.
The value of money, he said, is determined by the government stamp, the fiat of the nation. He wanted "gold money, silver money and paper money," the more the better. He wanted not less than \$50 per capita. Without the adjustment of the money question, the tariff will be a failure. His speech was in substance what we get from populist literature. He offered nothing new. He closed his speech by a grand hand-shake.
Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

They Don't Like It.
At Roseburg there is a big hobo camp, which furnishes a sort of general headquarters for the "Weary Willies." They usually stop there and "rest" often for a week at a time in their journeys north and south. In this camp there is a sign board posted bearing the following inscription: "Look out for Eugene! Bum town! Rock pile." This probably explains why so few of this degenerated class of human beings have frequented our streets of late, and why the few that do venture to come here get out of town so quickly when invited to "move on" by the police.—Eugene Guard.

Two Lives Saved.
Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had Consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching Consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at A. C. Marsters' Drug Store. Regular size 50c. and \$1.00.

OBITUARY.
Mrs. E. A. Watson was born near Central Lake, New York, March 26, 1818, and emigrated with her parents while a child to Iowa, where she was reared and educated and married to James Watson. She, with her husband, crossed the plains in 1853 and settled on the East Umpqua, this county. Here they resided till a few years ago. Her companion died in 1874. She still resided on the old homestead till her youngest daughter, now Mrs. A. M. Crawford, was married. Since then she has made her home with her.
Mrs. Watson was the mother of a large family, nine of whom survive her: [Hon. J. F. Watson and E. B. Watson, ex-supreme judge of this state, who now reside in Portland; ex-Judge L. D. Watson of Marshfield, Coos county, Chas. Watson, still residing on part of the old homestead, John Watson of this city and Robert Watson of Palouse, Wash. and Mrs. S. Hamilton of Roseburg. Mrs. J. A. Floyd of Los Angeles, Cal., and Mrs. A. M. Crawford of this city.
Mrs. Watson was an exemplary member of the Presbyterian church, was a kind mother and was esteemed by all who knew her. She was also a woman of marked ability and an etasped her character upon sons and daughters to that degree that they have and are holding positions in the higher walks of life, as all know who are acquainted with the history of Douglas county. All of which we take pleasure in referring to in this connection.
But the hand of Death, that fell destroyer of all life, has laid his blighting touch upon her and she has gone to her reward. All that was mortal of Mrs. E. A. Watson now rests beneath the sod, but her many virtues of head and heart will long survive her.
Her remains were given burial in the Masonic cemetery Tuesday, followed by a large number of sorrowing friends and neighbors.
OBITUARY.
Stephen Minard, the subject of this notice, was born at Saratoga, New York, October 7, 1826. At an early day he went to Ripley, Michigan, and there married Miss Louisa A. Butler. From Michigan he came to Oregon, crossing the plains in 1851, and first settled in the Willamette valley. From there he came to Douglas county in the spring of '52 and has resided in this county continuously till the time of his death, which was the result of an injury he received on board the steamer Queen on its way from Portland to San Francisco a few months ago.
Mr. Minard was one of the active and enterprising men of this county, engaging in agricultural pursuits not far from this city, and helped materially to make Douglas county what it is. Mr. Minard's companion passed over but a few years ago, from the effects of a runaway on the Coast mountain. Mr. Minard was the father of six children, five of whom survive him: Junieta, John Harvey, Frederick, Zetta, and Lee, Stephen J. The funeral was largely attended by friends and neighbors, who were acquainted with him during his long years. He has been a prominent citizen of Douglas County. So one by one these old pioneers pass away, leaving their good offices behind them coupled with hallowed recollections.
In Lane County.
EUGENE, Or., April 20.—The interest in mining is greater than ever before in this county, and on the first sign of fair weather several prospecting parties are preparing to go to the Bohemia and Blue River districts. Probably several hundred prospectors will work over the entire territory from the Bohemia mines to the Willamette river, about 15 miles. Cottage Grove people are raising subscriptions and expect to build a road to the mines so that machinery can be carried. At present everything has to be taken in by pack animals up a very steep and hard trail. In the Blue River district development will be pushed on two or three claims, and several prospectors have already gone in.
