THE CANDIDATES.
Republicans should bear in mind that
a United States senator is to be chosen
by the next legislature, and that, as the
means of securing a republican United
States senator, the legislative ticket of
this county should be unanimously
supported, even though the voter has
some personal objections to this, that or
the other candidate for the legislature.
The men named for the legislature are
all good representative men.

A. W. Reed for State Senator, is a
man of acknowledged ability, largely
identified with the material interest of
the county, a man who understands the
wants and needs of the country. He is
thus well fitted for the position he will
no doubt fill in the next legislature and
who may be relied on to vote for a good
and able republican for the United
States senate.

Hon. J. T. Bridges of Drain is also a
representative man, whose interests are
involved in the material welfare of
Douglas county. He is a reliable man,
as well as a responsible one, and with all
an able man of some legislative experi-
ence. He is deserving of every republi-
can's support.

Hon. G. W. Riddle is also a staunch
republican, and a man whose interest as
a business man of long experience both
as a farmer and fruit grower and of con-
siderable experience as a legislator,
peculiarly fit him for a representative.

A. M. Crawford of Roseburg, for rep-
resentative, is a prominent attorney of
this city, a man of ability, honesty and
integrity, just such as fills the Jefferson-
ian standard for office. No republican
will regret supporting him. He will
also win votes from the opposition.

D. R. Shambrook, republican nominee
for sheriff, is gaining political strength
every day. The Review's "gag" on him
is proving a boomerang. Mr. Shambrook
is a young man, born, reared and
educated in Douglas county. He is active,
energetic and persevering, and if
elected—as he will be—Le will make an
efficient sheriff who will conduct the
business to the satisfaction of all. No
good republican will refuse to vote for
Dave.

J. H. Shupe, nominee on the republi-
can ticket for county clerk, is conceded
by all to be competent for the position,
and his standing as a man, whose
known—and nearly everybody knows
his—is an assurance of his fitness for the
place. He will be next county clerk if
republicans will do their duty. His
competitors concede this much, and are
trying to capture republican votes. In
that they will fail, however.

THE POPULIST PARTY.
The members of this party, we will al-
low, are as good men and as honest as
are those who belong to other parties.
We will admit, too, that there is some
reasonable excuse for their existence.
These men observe certain facts, relative
to currency, existing under the republi-
can and democratic administrations of
the government. Observing this they
attribute the cause to those parties' man-
agement.

TELEGRAPH NEWS

A Treasury Deficit.
WASHINGTON, April 26.—The treasury
deficit for the fiscal year ending June 30,
1896, will be approximately \$25,000,000.
This is the opinion of officials and others
best qualified to make an intelligent es-
timate of the result of the fiscal operations
of the year.

In his annual estimate sent to congress
at the beginning of the present session,
the secretary of the treasury estimated
the receipts from the customs during the
fiscal year at \$172,000,000. So far, with
nearly 10 months of the year gone, the
customs receipts have reached about
\$137,000,000, with a fair prospect of in-
creasing to \$165,000,000 by the close of
the year.

The estimate of the receipts from in-
ternal revenue sources was \$158,000,000.
Up to this time they have reached \$120,-
000,000, and it is expected the figures for
the completed year will be about \$146,-
000,000. The receipts from miscellane-
ous sources are expected to exceed the
estimates of \$15,000,000, making the
total receipts for the year about \$327,000,-
000.

The secretary's estimate for the year's
expenditure was \$302,000,000, which, ac-
cording to his figures, would leave a de-
ficiency of \$17,000,000. The actual ex-
penditures, however, it is now thought,
will aggregate about \$352,000,000, or \$10,
000,000 less than Mr. Carlisle's estimate
in December last, so the deficit at the
close of the year, it is believed, will not
show any very material change from
Saturday's figures, \$25,162,423. This
makes the total deficit for the three
fiscal years, ending June 30, 1896, \$130,-
891,812.

The secretary's estimates at the time
they were made were believed by those
of long experience in the department to
be extremely conservative. The receipts
from both customs and internal revenue
sources, however, have been surprisingly
low, and there does not seem to be any
immediate prospect of material improve-
ment.

Kansas' Last Cyclone.
COSUMONGA, Kan., April 27.—The cy-
clone which swept through this section
of the state Saturday evening, was prob-
ably one of the most severe that Kansas
has ever experienced. Its path was
about 400 feet wide and extended fully
20 miles. It formed about 7 o'clock
Saturday evening near the little town of
St. Joseph, in the eastern part of Clou-
dy county, and passed in a northeasterly
direction through the northern part of
Clay and probably into the southern
end of Washington county. Fortunate-
ly it struck no towns, but its course
was through a thickly settled portion of
the Republican valley. Houses and
barns were lifted into the air and dashed
back to the earth. Trees were uprooted
and broken, and everything in its track
destroyed.

The first victims were Eli Belthazar
and his wife, living about a mile east of
St. Joseph. The family were just pre-
paring to seek refuge in the cellar when
the storm struck. The six children were
all more or less seriously injured and it
is thought two of them will die. About
a mile further east the home of Julian
Trombly was destroyed and he was
killed.

The greatest loss of life occurred south
of Clifton some six miles. Two farmers,
E. R. Larson and J. S. Haines, were
killed as were a number of others,
whose names could not be learned. At
one place a woman and a child were
killed, and at another a 5-year-old boy.
The body of the latter has not yet been
found.

The number of killed and of those
who have died from their injuries, is
reported to be five, but the list will
doubtless be increased. About 25 per-
sons are said to have sustained serious
injuries. Over 20 families were ren-
dered homeless by the storm. The suffer-
ing of those injured was rendered
greater by the severe hail and rain that
closely followed the cyclone.

in the east is increasing daily and that
General Maceo's heroic position in the
western hills is part of a great strategic
campaign.

General Weyler looks upon the trocha
as the key to the war. He has made this
belief very plain.
It has been said, and it is generally
believed by the Spanish leaders, that
General Gomez and other commanders
would make terms for peace, but for
General Maceo and his fierce negro fol-
lowers, who will consent to nothing but
complete and unconditional independ-
ence. The captain-general believes that
if General Maceo is conquered now the
war will end in a few months.

Melquizo's Butcheries.
KEY WEST, Fla., April 27.—A letter
from Havana, dated April 25, says:
While Delgado, the American, is slowly
convalescing from the wounds inflicted
on him by Spanish soldiers under
General Melquizo's bidding several
weeks ago, the brutal Spanish officer is
still butchering people in Havana prov-
ince. Although official investigation
shows that Melquizo is guilty of all the
charges against him, he has not been
suspended from his command. He is
said to possess enough influence in Mad-
rid to make it exceedingly uncomfortable
for any superior officer who might
endeavor to bring him to punishment.

News received here tells of his conduct
during the past two weeks. Near
Campeo, Florida, so the information
runs, Melquizo arrested nine peaceable
countrymen and by his orders they were
killed. At Minas, 19 "paciferos" fell in-
to his clutches and were shot. Near
Baibo he razed 10 farms and gathered in
40 laborers who were killed in cold blood.
The most horrible phase of the last
butchery is the fact that women and
children were among those massacred.
In the vicinity of Juaraco, Melquizo
ordered the slaughter of 47 persons who
were taken from fields where they were
at work.

In Melquizo's territory the people are
flocking to Havana to escape him.

An Informal Proposal.
CHICAGO, April 26.—The Times-Her-
ald's Washington special says:
Lord Salisbury now has before him for
consideration an informal proposition
from President Cleveland for a treaty of
general arbitration of all matters in dis-
pute between the United States and
Great Britain, and of all disputes between
either of these powers and any power in
which the good offices of the other gov-
ernment has been tendered. The mean-
ing of this is that the president has
offered to the British premier a general
scheme of arbitration designed to em-
brace the Venezuela question, but with-
out reference thereto by name, thus
affording a method in which Lord Salis-
bury may easily reach a settle of that
vexing dispute without too directly bum-
bling his pride.

To this proposal, made some time ago,
after a series of fruitless negotiations
along other lines, no reply has as yet
been received.

Sand is Healthful.
Some time ago when an item went the
rounds of the press about the large num-
ber of bow-legged children in Cincinnati,
it was suggested that sand piles should
be provided for the children to play in.
The sand pile idea has been adopted, not
only for the bow-legged children but for
all the little tots, and promises to be
carried to a novel extent. Many of the
school yards have now in one corner
large piles of sand in which the little
tots roll and play to their heart's con-
tent.

Care is taken to provide clean sand
secured from one of the bars in the Ohio
river, and it is changed often enough to
make it perfectly healthful. It is declared
to be the healthiest thing possible for
children to play in, and some doctors
have advised the making of mud pies as
a regular prescription for puny young-
sters. They say there is nothing like
contact with Mother Earth, that if the
children do not get healthful sand or dirt
to play in they will wallow in the gutter
or yards and be contaminated with all
sorts of disease germs.

The Great American Market.
We consume more in this country
than any 63 million people anywhere
else in the world consume. We spend
more money than any other 63 million
people and we spend more because we
have got more money to spend; because
under our favoring legislation we pay
more for labor than is paid anywhere
else on the face of the earth. Just
think what a market we have got! We
are 3 per cent. of the population of the
population of the world and yet we con-
sume 20 per cent. of all the cotton that
is produced in the wide, wide world; we
consume 20 per cent. of all the wool that
is produced in the wide, wide world, 30
per cent. of all the iron and steel that is
made in the wide, wide world, and we
consume 50 per cent. of all the tin plate
that is made in the world. And we in-
sist upon it that this market shall be
ours.—Hon. Wm. McKinley.

Spain's army of 180,000 men in Cuba
is now engaged in throwing up fresh fort-
ifications at the supports and the few in-
terior cities they hold. It is understood
that those nomads are treating that dead
line with more respect than ever.
