A traitor is the most contemptible of all human beings.

England admired Arnold's treason but despised the traitor.

Democracy, like an old carpet, cannot be cleaned without being beaten.

Fighting Democracy in these days is a good deal like jabbing at a ghost—it is nothing to oppose the lick.

No Democrat may desire to renominate Cleveland, but he seems to be the only man in his party above the horizon.

The inventor of the McKinley Cabinet lie deserves a monument, but he should be furnished with a grave first.—Call.

Carlie explaining the bond deal to the Senate Investigating Committee is going to be one of the crosses of the season.

We warn our readers against campaigns that will be sprung by the Review just on the eve of election for political effect.

W. E. Yates, candidate for district attorney, went over to the Coquille yesterday. He makes an excellent impression wherever he goes.—Coast Mail.

A. M. Crawford, G. W. Riddle, J. H. Shupe and D. E. Shambrook are in the northern part of the county looking after their political interests among the voters there.

A traitor who conceals his identity from the general public shows that he still has left some sense of shame, but the traitor who advertises his infamy is beyond redemption.

J. H. Shupe, candidate for county clerk, is enduring the kicks hugely because every kick he gets hits him nearer the prize. Johnny appreciates those kicks and the kickers.

W. E. Yates, the nominee for District Attorney in this district, is a very worthy gentleman, a man whose character is above reproach. He is a sound lawyer and will make an excellent public official.

The woman suffrage movement is moving grandly on. Mrs. Susan B. Anthony says "they are still suffering from the ballot," many of whom are suffering by reason of the ballot. This is distinction with a difference.

Senator Vandenberg says the demonization of silver in 1873, was the cause of the present hard times. It is a strange sort of logic, that. It took 20 years to reach us, i. e. from 1873 to 1893 immediately upon Cleveland's inauguration.

Hon. O. C. Brown is doing his canvassing by doing his duty to the rising generation, teaching them how to be good citizens by storing their minds with useful knowledge, instead of gadding around and worrying people with politics.

The results of the Wilson bill have been the stagnation of trade, the indebtedness of the government and the bond issues, with the accompanying scandals. The country has paid heavily for this administration, and the people will vote for a change.

The Review's assertion that "many good men, inveigled into the A. P. A. by misrepresentation of its objects, are deserting the order" is in a measure verified by the publication in Monday's issue of the affidavit of George W. Brown, the carpenter. Just how good a

man may be who by his own words proves himself a traitor we leave our readers to determine.

D. E. Shambrook is a native born citizen, worthy and well qualified and comes recommended by a goodly number of his fellow citizens. He is an exemplary man and if elected sheriff—as he will be—he will strictly attend to business in person.

W. P. Heydon, nominee for county surveyor, is surveying the political field with his theodolite taking bearings and chaining distances between himself and competitors and will land in his field notes next June showing how much they are in the rear.

From our exchanges we gather the fact that Hon. W. E. Yates, republican nominee for district attorney of the 2d judicial district, is making friends wherever he goes. He is a man of commanding presence, a good lawyer and whose character is above reproach.

Late reports from Austria say the people of that country are opposed to McKinley for president, and the subjects of Queen Victoria in "hold Hingland" are also for McKinley. Mac will probably not be able to secure the electoral votes of those two countries.—Yreka Journal.

Even Texas is threatened with a democratic split, which ex-Governor Roberts says presages almost certain defeat. It would be a dull day for the democrats and a bright one for the country when the banner democratic state leaves the Bourbon column. If Texas goes to rest, what hope to save the rest?—Oregonian.

W. S. Britt, nominee for assessor is reported by those who have had business relations with him, as a man of strict integrity, well versed in business, of good judgment, and one who himself a laboring man, is in close touch and sympathy with the laboring men of all classes, and as such is worthy of their support for the office of assessor.

The imperturbable county treasurer, W. A. Frater, says he thinks his best recommendation for the office is "strict attention to the duties of the office." Frater is all right. He is able, cautious, painstaking and reliable. No man can point to a better record. He is the right man in the right place, and will be kept right where he is.

M. D. Thompson, our nominee for County Commissioner, is running along smoothly. His political opponents are not impeding his accelerating movements. He will distance his populist mate by several lengths, and the democratic course will be left far in the rear. Thompson is running like a scared wolf away from his pursuers.

Hon. A. W. Reed, republican candidate for State Senator, is looming up into prominence as leading in the race. He is of mature years, advanced opinions and mature judgment; bold, and independent thought and has the courage of his convictions. He is not bound up in self and local interests only. He is broad minded, liberal and progressive, just such a man as the hour requires to grasp the issues now before the people of this county and state.

Thos. H. Tongue is winning favor as the canvass progresses. His speeches at Drain, Oakland and at Roseburg were more than up to expectations, not so much on account of his eloquence as the unanswerable arguments he presented in support of American Protection and sound money. He showed that the government has coined more than three times as much silver in the 21 years next after 1873, than it did in the 81 years prior to that of 1873.

The PLAINEALER is republican in every fiber. It will stand firm and unyielding for republican principles, believing them, as a whole, to be the best measures of governmental policy now before the people. We will favor the election of every candidate named on the ticket, as they are, aside from republican principles, good, able and honest American citizens worthy the support of any man. Our county convention did a good job. Not a man on the ticket can be accused of any misconduct.

One G. W. Brown, who had by his own admission joined the American Protective Association in Roseburg, and who had been expelled the order for unfriendly conduct, is blinding about his shame by publishing his own dissonance, by giving the Review a list of names of those he says are members of that order, and who are also candidates on the republican and populist tickets, evidently with the view of defeating them. In this, however, he will fail, just as the treason of Arnold did not destroy the United States.

The democrats endorsed Beckley, the populist for State senator, four years ago, and elected their man. We fancy they do not feel specially proud of the bargain.

A like scheme is now on foot—the democrats having no candidate of their own, they are being coquetted with to vote for J. F. Gazley Jr., the populist candidate for State Senator. To what extent they will be coquetted is problematical. Many of them, however, are known to favor A. W. Reed. It is generally believed and to understand that the democrat leaders are trying to swap votes for either Gazley or Reed to vote for Agee, for sheriff in return.

We do not believe either Gazley or Reed will give countenance to such unprincipled trading. But the bosses and ruling leaders here in Roseburg will trade if they can. They will not scruple at anything to elect the sheriff.

So we give our readers warning of the scheming now on foot to elect their man, even at the sacrifice of every other man on the ticket. It is Agee or bust with them. We trust that the voters throughout the county will stand in against this Roseburg ring which is spending money freely to elect Mr. Agee, and which will trade every other office for that one—the sheriff. Their propositions have been known to have been

made to that effect already. So voters beware. We believe there is yet manhood enough amongst the people at large to indignantly frown down upon all scheming of this sort. Our advice is: Go to the polls and vote your choice. That is your duty as well as your privilege. We believe you will do it. Let us not be deceived.

Democracy has shown its incapacity to govern this great nation. Since Cleveland's election in 1892, the country has experienced the most depressing times since 1837. The people have had a grand object lesson which we opine they will not want to have again presented. A national election is now approaching when the people will try to amend the mistake they made 4 years ago. The election next June will be an indication of their sentiments, and republicans cannot afford to temporize with local matters at this juncture. We appeal to you republicans, and democrats, too, who have had your fill of Clevelandism, to stand by the party that has stood by you in the past—the party under whose administration you enjoyed better times than under any other administration in the history of this government. Let no side issues divert you from supporting the friends of good government. Restore the republican party to manage this government and better times will surely follow, as day succeeds the night. Democracy is vacillating and unreliable except for failures, and cannot be trusted. The people are impatient for an opportunity to throw off the incubus that has been choking the very life of the nation for the last three years, with no prospect of relief while Cleveland occupies the presidential chair. Let the June election stamp its condemnation upon the party in power, by a decisive vote against it. The election of a single candidate on the democratic ticket will be a partial endorsement of democratic measure. It is the duty of republicans to present a solid front to the common foe as a prelude to the presidential contest next November. Remember democracy has traduced you as the enemies of good government while you "stood up for Uncle Sam" in the dark days of the rebellion; and ever since democracy has clogged the wheels of government with its impracticable and un-American measures and methods. Will you now give it encouragement by supporting even one of these, your old-time enemies? We trust not. You have nothing to gain by such a course but loss to lose. We conjure republicans to stand firm and waver not.

At the court house Wednesday evening, Hon. Thos. H. Tongue having been asked to speak, the citizens of Roseburg and from the country for miles around, began to pour in till the large court room was filled to its utmost capacity with men and women anxious to hear this noted orator speak upon the questions which so much concern them now.

F. W. Benson, chairman of the republican county central committee, at 8:10 named Hon. Fred. Page-Tustin, chairman, who, in a few appropriate words, introduced M. Tongue to one of the most enthusiastic audiences that has greeted any speaker since Congressman Hermann's reception on his return from Washington last fall.

Mr. Tongue began his address without needless circumlocution. He opened his batteries upon the incubus, free trade, showing it up in fine style, elucidating the protective idea most lucidly. This protective policy of the republican party Mr. Tongue regarded as the question of questions now before the people, and showed in a masterly manner the advantages and benefits of American protection and the disadvantages of free trade or tariff for revenue only. He then turned to the consideration of currency and free coinage of silver. This subject he handled with consummate ability. During the discussion of this question Mr. Tongue expressed the opinion that to circulate silver all small denominations of gold and paper should be called in and retired from circulation. This would create a vacuum that silver would rush in to fill. Mr. Tongue, after speaking two hours and twenty minutes, closed with an eloquent peroration, picturing the beauties of the policy of protection and the grandeur of this government under the management of the republican party.

River and Harbor Improvements.

PORTLAND, May 14, 1896. Hon. F. W. Benson, Chairman County Central Committee, Roseburg, Or.: Senator Mitchell telegraphs that the river and harbor bill which passed the senate yesterday is by all odds the best which ever passed for Oregon in any previous year. It contains appropriations of \$6,000 for Umpqua river, \$20,000 for Coquille, \$12,000 for upper Coquille, \$5,000 for Coos River, \$14,300 for Coos harbor, \$95,000 for Coos Bay entrance and contains provisions for additional surveys for Umpqua river. The aggregate of the bill is over four million dollars. Please let our friends know about this. Sol. HERR.

A Gentle Corrective is what you need when your liver becomes inactive. It's what you get when you take Dr. Pierce's Pleasant Pellets; they're free from the violence of cathartics, and the griping that come with the ordinary pills. The best medical authorities agree that in regulating the bowels, mild methods are preferable. For every derangement of the liver, stomach and bowels, these tiny, sugar coated pills are most effective. They go about their work in an easy and natural way, and their good effects are unequalled. "Pellets" are unequalled. As a "dinner pill," to promote digestion, take one each day after dinner. To relieve the distress arising from over-eating, nothing equals one of these little "Pellets." They are tiny, sugar coated, anti-bilious granules. Any child readily takes them. Accept no substitute that may be recommended to be "just as good." It may be better for the dealer, because of paying him a better profit, but he is not the one who needs help. A free sample (4 to 7 doses) on trial, mailed to any address, post-paid, on receipt of name and address on postal card. Address: THE WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

Pleasant Pellets "cure biliousness, sick and bloated heads, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, heart-burn, pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in sealed glass vials, therefore always fresh and reliable. Whether as a laxative, or in larger doses, as a gently acting but searching cathartic, these little "Pellets" are unequalled.

Catarrh is a local, not a blood disease, caused by sudden change to cold or damp weather. It starts in the nasal passages, affecting eyes, ears and throat. Cold in the head causes excessive flow of mucus, and, if repeatedly neglected, the results of catarrh will follow; severe pain in the head, a roaring sound in the ears, bad breath, and sometimes an offensive discharge. The remedy should be quick to kill inflammation and lead the membrane, Ely's Cream Balm is the acknowledged cure for these troubles and contains no mercury nor any injurious drug. Price, 50 cents.

Democracy has shown its incapacity to govern this great nation. Since Cleveland's election in 1892, the country has experienced the most depressing times since 1837. The people have had a grand object lesson which we opine they will not want to have again presented. A national election is now approaching when the people will try to amend the mistake they made 4 years ago. The election next June will be an indication of their sentiments, and republicans cannot afford to temporize with local matters at this juncture. We appeal to you republicans, and democrats, too, who have had your fill of Clevelandism, to stand by the party that has stood by you in the past—the party under whose administration you enjoyed better times than under any other administration in the history of this government. Let no side issues divert you from supporting the friends of good government. Restore the republican party to manage this government and better times will surely follow, as day succeeds the night. Democracy is vacillating and unreliable except for failures, and cannot be trusted. The people are impatient for an opportunity to throw off the incubus that has been choking the very life of the nation for the last three years, with no prospect of relief while Cleveland occupies the presidential chair. Let the June election stamp its condemnation upon the party in power, by a decisive vote against it. The election of a single candidate on the democratic ticket will be a partial endorsement of democratic measure. It is the duty of republicans to present a solid front to the common foe as a prelude to the presidential contest next November. Remember democracy has traduced you as the enemies of good government while you "stood up for Uncle Sam" in the dark days of the rebellion; and ever since democracy has clogged the wheels of government with its impracticable and un-American measures and methods. Will you now give it encouragement by supporting even one of these, your old-time enemies? We trust not. You have nothing to gain by such a course but loss to lose. We conjure republicans to stand firm and waver not.

At the court house Wednesday evening, Hon. Thos. H. Tongue having been asked to speak, the citizens of Roseburg and from the country for miles around, began to pour in till the large court room was filled to its utmost capacity with men and women anxious to hear this noted orator speak upon the questions which so much concern them now.

F. W. Benson, chairman of the republican county central committee, at 8:10 named Hon. Fred. Page-Tustin, chairman, who, in a few appropriate words, introduced M. Tongue to one of the most enthusiastic audiences that has greeted any speaker since Congressman Hermann's reception on his return from Washington last fall.

Mr. Tongue began his address without needless circumlocution. He opened his batteries upon the incubus, free trade, showing it up in fine style, elucidating the protective idea most lucidly. This protective policy of the republican party Mr. Tongue regarded as the question of questions now before the people, and showed in a masterly manner the advantages and benefits of American protection and the disadvantages of free trade or tariff for revenue only. He then turned to the consideration of currency and free coinage of silver. This subject he handled with consummate ability. During the discussion of this question Mr. Tongue expressed the opinion that to circulate silver all small denominations of gold and paper should be called in and retired from circulation. This would create a vacuum that silver would rush in to fill. Mr. Tongue, after speaking two hours and twenty minutes, closed with an eloquent peroration, picturing the beauties of the policy of protection and the grandeur of this government under the management of the republican party.
