

THE 'CRIME OF 1873'

The Co'd Dollar Made The Unit of Value.

1872-73 Chapter CXXXI. An act revising and amending the laws relative to the mints, assay offices and coinage of the United States.

Sec. 13. That the standard for both gold and silver coins of the United States shall be such that of 1000 parts by weight 900 shall be of pure metal and 100 of alloy, and the alloy of the silver coins shall be of copper and the alloy of the gold coins shall be of copper, or of copper and silver; but the silver shall in no case exceed one-tenth of the whole alloy.

Sec. 14. That the gold coins of the United States shall be a \$1 piece, which, at the standard weight of 25.8 grains shall be the unit of value; a quarter-eagle, or \$2.50 piece; a half-eagle, or \$5 piece; an eagle, or \$10 piece, and a double eagle, or \$20 piece. And the standard weight of the gold dollar shall be 25.8 grains; of the quarter-eagle, or \$2.50 piece, 64 1/2 grains; of the \$3 piece, 74.4 grains; of the half-eagle, or \$5 piece, 129 grains; of the eagle, or \$10 piece, 258 grains; of the double eagle, or \$20 piece, 516 grains, which coins shall be a legal tender in all payments, at their nominal value, when not below the standard weight and limit of tolerance provided in this act for the single piece, and when reduced in weight, below said standard and tolerance, shall be a legal tender at a valuation in proportion to their actual weight; and any gold coin of the United States, if reduced in weight by natural abrasion for more than one-half of one per centum below the standard weight prescribed by law after a circulation of 20 years, as shown by its date of coinage, and at a rateable proportion for any period less than 20 years, shall be received at their nominal value by the United States treasury and its offices, under such regulations as the secretary of the treasury may prescribe for the protection of the government against fraudulent abrasion or other practices; and any gold coins in the treasury of the United States reduced in weight below this limit of abrasion shall be received.

Sec. 15. That the silver coins of the United States shall be a trade dollar, a half-dollar, or 50-cent piece, a quarter-dollar, or 25-cent piece, a dime or 10-cent piece, and the weight of the trade dollar shall be 420 grains Troy; the weight of the half-dollar shall be 12 1/2 grams; the quarter-dollar and the dime shall be, respectively, one-half and one-fifth of the weight of said half-dollar; and said coins shall be a legal tender at their nominal value for any amount not exceeding \$5 in any one payment.

Sec. 16. That the minor coins of the United States shall be a 5-cent piece, a 3-cent piece and a 1-cent piece, and the alloy for the 5- and 3-cent pieces shall be of copper and nickel, to be composed of three-fourths copper and one-fourth nickel, and the alloy of the 1-cent piece shall be 95 percentum of tin and zinc, in such proportion as shall be determined by the director of the mint. The weight of the piece of 5 cents shall be 77.16 grains Troy; of the 3-cent piece, 48 grains, which coins shall be a legal tender at their nominal value for any amount not exceeding 25 cents in any one payment.

Sec. 17. That no coin, either of gold, silver, or minor coinage shall hereafter be issued from the mint other than those of the denominations, standards and weights herein set forth.

The standard silver dollar was omitted from the list given in section 15. It was claimed that this was done by fraud. This was the so-called crime of 1873.

Sec. 21. That any owner of silver bullion may deposit the same at any mint, to be formed into bars or into dollars of the weight of 420 grains, Troy, designated in this act as trade dollars; and no deposit of silver for other coinage shall be received; but silver bullion contained in gold deposits, and separated therefrom, may be paid for in silver coin, at such valuation as may be, from time to time, established by the director of the mint.

Sec. 23. That the charge for converting standard gold bullion into coin shall be one-fifth of 1 percentum; and the charges for converting standard silver into trade dollars, for melting and refining when bullion is below standard, for touching when metals are contained in it which render it unfit for coinage, for copper used for alloy when the bullion is above standard, for separating the gold and silver when these metals exist together in the bullion, and for the preparation of bars, shall be fixed from time to time by the director, with the concurrence of the secretary of the treasury, so as to equal but not exceed, in their judgment, the actual average cost to each mint, and every office of the material, labor wastage and use of machinery employed in each of the cases mentioned.
