Competition never worries us, because we "buy right" hence "sell right." The facts are these: every move in our business is only made after the most careful consideration, nothing left to chance. Shoes have advanced in price but not with us. We sell you a good oil grain shoe for \$1.25 and upwards, fine shoes in proportion. If you doubt us, come and see us, convince yourself that we have what we advertise. We don't care to do all the business in town, but want to get a share of it. We firmly believe that a concern that gives its customers exceptionally good values in every instance is bound to go ahead year by year. This idea prevails throughout our entire business. Every dollar worth of goods must give the wearer satisfaction, even the all wool absolutely last color \$3.00 suits.

The latest version we have heard of on the 16 to 1 question is that when we get free coinage of silver, Uncle Sam will coin the silver bullion and divide out among the people sixteen dollars to the man, and the silver mine owners will become generous and sow their silver dollars broadcast for the working people to pick up. This, we are told, is why so many people are endorsing the free silver movement. The word free is charming, and captivates the hearers of the ardent speakers, if there are those present that are capable of being charmed by the free silver jingo. The above version is surely very absurd and if there be any that think that such will be the case we would advise them to stop and think soberly on the matter and ask themselves have the time ever been that I have not had to work for what I have got, and we can rest assured that it will ever be that money is paid for a value received.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

HON. C. H. DODD'S SPEECH.

Thursday night, Hon. C. H. Dodd of Portland spoke at the court house to a large and intelligent audience, many of which were ladies. Mr. Dodd was introduced to the audience at 8:15, and for one hour and forty-five minutes he held his audience in breathless attention, while he gave them a plain business-like talk, "not as a politician," he said "but as a business man and I understand what I am talking about."

Mr. Dodd discussed briefly the subject of tariff for protection and "for revenue only." He referred to the present tariff saying: "The party which secured its passage does not claim for it a protective measure; and as to producing revenue, it has proven a complete failure. It has caused a deficit which the president made up by the sale of bonds at a time of profound peace." He then referred to the republican party policy, and asked, What means its restoration to power? In answer, he said: "I'll tell you what it means. It means a stable government; it means protection to American labor industries; it means sound money, a money each dollar which it coins promises to pay shall be as good as the best; it means a defense of law and order; it means loyalty to Americanism. American ideas and the American flag. He said all questions of governmental policy must be settled by investigation sooner or later, and that intelligence must win in the end or a republican form of government will prove a failure. In the light of experience the republican policy of protection stands firm and unshaken and our opponents, the p. p. c. s, dare not discuss it. They seek to evade it by a persistent play upon the crime of 1873 and clamor for unlimited coinage of silver, 16 to 1, as a panacea to cure the evil of what they falsely term demoralization of that metal, when as a fact, there is no more connection between the act of 1873 and the present depression in finance than there is between the moon and a cheese.

He showed that the claims of the opposition, that the price of wheat goes down with the price of silver bullion are false because wheat has advanced the last few weeks 11 cents a bushel, while silver has gone down 4 cents per ounce. The depreciation in the price of silver bullion and wheat in the past, are simple coincidences. The depreciation of both being the result of like causes, viz., the supply and demand for each in its own sphere. He said silver was not demoralized in 1873. That act only embraced the same provisions of the act of 1853, limited the legal tender power of halves, quarters and dimes to five dollars at any single payment. The act of 1873 does not name the 42 2/3 grains dollar at all, but substitutes the "trade dollar of 420 grains instead." The act of 1873 restored the dollar to legal tender for all sums both public and private, except where otherwise specified by contract, and has coined 50 times more silver dollars in the 23 years since 1873 than in the 84 years prior to that date. He also stated that in practice the government never was on a double standard money basis. "There is not, he said, an enlightened country on earth having a silver standard basis, China, India and Mexico, silver standard countries, circulate no gold, while all the gold standard countries circulate both gold and silver."

CANYONVILLE.

McKinley buttons are very conspicuous in this locality.
The most prominent democrats in this locality are for sound money and protection. They have no use for Bryan and free silver.
Ed. W. H. Stalle, late of the Douglas County Journal, is now enjoying a much needed vacation at Redding, California.
B. F. Nichols has had carpenters at work remodeling and rearranging his drugstore room. Making a decided improvement in both appearance and convenience.
Hon. Chas. H. Dodd, of Portland, was at this place last week and addressed a large audience at Lett's hall on the political issues. He spoke admirably of our standard bearers, McKinley and Hobart. He reviewed the career of President Cleveland, saying that Wall street was the seat of the democratic government. He made amusing references to the Wilson, Goran and company tariff bill, and closed his speech with a rousing appeal to all citizens to perpetuate the glory and stability of the government by voting for the party that represents American principles.
A McKinley and Hobart club was organized last Saturday afternoon in Lett's hall. B. F. Nichols was elected president, and G. Sherman Easter, secretary. The club now has sixty-five members, and will meet every Friday night.
