Shoes have advanced in price but not with us. We sell you a good grain shoe for \$1.25 and upwards, fine shoes in proportion. If you doubt us, come and see us, convince yourself that we have what we advertise. We don't care to do all the business in town, but want to get a share of it. F. X. SCHOONMAKER'S SPEECH.

Last Monday night, F. X. Schoonmaker addressed a very large audience at the Opera House. The house was crowded to its utmost capacity, to listen to the distinguished gentleman from New Jersey speak upon the political issues now engaging the attention of the American people. Mr. Schoonmaker was introduced to the audience at 8 p. m. He spoke for two hours and thirty minutes, holding his audience spell bound throughout with his masterly logic in an eloquent strain, carrying conviction to all unprejudiced minds. He began his address by request on the silver issue. The speaker exhibited several coins, five's and ten's of gold and one and halves of silver, and pennies of copper.
He began this part of his argument by stating that every voter has a share in the great American stock company—the government, who elect at the general elections, a board of directors, the officers, to do the business for them for the term of four years in our federal government. He then called his hearers attention to the business condition of the government. That, when the directors who manage it on the line of policy indicated in the election, and it proves to work well, they should be retained or a new one elected on the same line of policy. But on the other hand, if the line of policy does not work well, it is best to change the policy.
He then stated that under the republican policy, the government had been more prosperous than under any other policy ever inaugurated; that though the people had been more prosperous than under any democratic policy, they wanted something better and demanded a change of policy. They got it and are not satisfied with it, for the people are complaining bitterly of hard times—the worst times they have ever experienced, and this too under a democratic administration that promised better times than we had under Harrison, a republican president. Times were good then, now they are very hard, the worst ever experienced in the history of the nation; and yet, we are asked to return that party to power, the party that promised us good times, good wages, good prices for what we have to sell and cheap goods that we have to buy. But these promises had not been kept. Labor is unemployed, produce is down, money, though more per capita than ever, has gone out of circulation and a general depression all around, seven million of laboring men idle with thirty-five million dependent upon them for a living—all suffering for the necessities of life, that by enforced idleness the consumers of wheat have been forced to curtail their food expenses, cutting off in the item of bread alone, 180,000,000 bushels of wheat, causing a loss of that amount to the farmers of this country and other food products at a like reduction. The poor of the East are glad to get dry bread now, whereas, prior to 1893 every body was employed at fair wages and every family was having a good living, plenty to eat, drink and to wear.
He disproved the charges of the free silver men, that, "It was not the closing of the factories that brought on hard times, but the closing of the mints in 1873; that it was a conspiracy against silver that knocked silver out of circulation and brought distress upon the people."
He showed the falsity of that assertion by pointing to the fact that the government has coined fifty times more silver in the 23 years since 1873, than it coined in the 81 years prior to that date. Thus from 1792, the date of the first coinage act to 1873, the government coined only \$3,031,238 standard silver dollars and since 1873 it has coined 426,000,000 dollars or in round numbers the government has coined in the last 23 years, 418,000,000 more than in 81 years before "the crime of '73," and that for the present year when closed, the government will have coined 16,000,000 standard dollars, twice as much for the one year 1896, as it coined during the 81 years prior to 1873.
He said one hundred pennies would buy a gold dollar at any time since the coinage laws were first enacted, but that the silver dollar had fluctuated—was at one time worth 104 pennies, when silver was scarce as money for change. On the other hand, gold has maintained an almost absolute uniform price in the markets of the world for time indefinite; that 65 pennies will now buy the silver as bullion required for a standard dollar. The banks owe \$5,000,000,000 to 9,000,000 depositors. If Bryan be elected and a free silver act is passed, the 9,000,000 depositors will rush to the banks to get their 5,000,000,000 of gold. The banks having loaned out the money, would have to foreclose their mortgages to get the money to pay their depositors and the result would be disastrous. Nobody would be doing any business but the sheriff, and the country would be ruined beyond repair for a generation. A vote for Bryan means to swindle the poor man by forcing collections when his property will not pay his debts under forced sales, and the rich would be the gainer.
Gold is the poor man's money because the poor man can take a pick, shovel and pan and go into the mountains, where there is gold and make living wages; but silver is the rich man's money, because none but the rich men can mine silver by a combination of capital for that purpose. It is a fact that all the silver mines are owned by rich men, who can purchase costly machinery and implements, and those in this country are mostly owned by foreign capitalists.
He then took up the tariff and showed by facts that took place of his own knowledge, as samples of all others where protection did protect and that tariff was paid by foreign importers, and that the American manufacturer under the protective policy produced manufactured articles at a cost to the consumer of 50

to 150 per cent cheaper than before the protective policy was adopted. He declared that in every instance where American manufactures had been protected, they had ultimately forced the prices down from the foreign prices and that the foreign traders had to pay the duty for the privilege of trading with us. He stated that the foreign literature taught in our colleges is pernicious to American students. The teachings of Adam Smith was all in the interest of Great Britain and that every college is a hotbed of free trade, poisoning the minds of the American youth. It is also turning the heads of American girls to regard aristocracy and titled nobility as the chief aim of their aspirations for matrimonial alliances, but find too late their error, and live a life of sorrow ever after, as every well informed American well knows to be a fact. He was educated a free trader and for 20 years thought protectionists were fools. He finally got his eyes open to the true merits of protection, through his business relations wherein he was called to study the subject and observe its practical workings. He saw protection exemplified by the peddlers of his country town being compelled to pay a license to sell their goods because they paid no tax to support the city lights, street improvements, schools and other local expenses. The peddlers paid the license but did not "mark up" the prices of the goods. They had to sell as cheap as local traders or not sell at all. So with foreigners who want to trade with our people, must sell their goods as cheap as domestic traders or leave.
He also elucidated the doctrine of reciprocity and its practical benefits to the United States. He eulogized James G. Blaine for his masterly statesmanship in conceiving that measure and carrying it into practical effect, and then pointed to the fact that W. J. Bryan was largely instrumental in having the reciprocity repealed.
Mr. Schoonmaker closed his 150 minutes speech with a grand eulogy of the progress of the nation under republican policies and the great men who were instrumental in achieving our unparalleled achievements.

JUST COME TO LIGHT.

An Ashland Witness of Dr. Darrin's Cures.

MR. EDITOR: For the benefit of the afflicted in Roseburg and vicinity I wish to state what I know of Dr. Darrin.
Five years ago, Mrs. G. W. Applegate of Yoncalla, Or., was induced by my wife to visit Dr. Darrin for almost total deafness, that had troubled her several years. She was cured in a few months and remains permanent to this day. My wife visited Dr. Darrin for an ovarian tumor. He pronounced the case incurable and would not take the case. I reside at Ashland now, and formerly in Yoncalla, Ore., and can be referred to any time. While in Portland I saw an old lady carried to the doctor's office, being crippled with chronic rheumatism. In a few days she was walking about a cured woman.
H. J. Maroon.

Dr. Darrin's Cure.

(Medford Mail.)
Dr. Darrin's visit in Medford has been marked with good results. Not only has he been crowded with patients, but his marvelous results achieved in the new treatment by electricity and medicine is almost beyond belief. Some of his former cures are coming to light and cards are pouring in for publication. We publish the following card from Mr. Morris, he being well and favorably known to all. The art of curing diseases by electricity can be classed with the other discoveries of the day and who knows but what all diseases and ills of the flesh will be conquered by this subtle force. It is a theme for study and reflection. The afflicted in this vicinity will do well to consult Dr. Darrin while in our midst, a trip to Portland to see him will be an expensive journey.
MR. C. MORRIS' CARD.

MR. EDITOR—I feel it my duty to say that Dr. Darrin cured my wife in Seattle twenty years ago. She had been afflicted for twenty years with diabetes and pain in the back; many physicians had given her up and I had paid out over \$1000 for her treatment. We only saw Dr. Darrin one time. He gave her medicine and advice and from that day to this her symptoms have never appeared, and I am so pleased with his treatment that I have placed her under his care for deafness. I reside in Medford and will be glad to answer any questions.
C. MORRIS.

LETTER FROM J. A. EGGERS.

WILDERVILLE, Sept. 23, 1896.
DR. DARRIN—The ear that has been discharging every day for five years, is, I think, entirely cured, as there has been no discharge since September 13, the time I began your treatment in Grants Pass. My hearing is much better and I think in a short time I will hear as good as ever. Also my catarrh is better than it has been for ten years. I am under lasting obligations to you for the treatment you have given me. Very truly and fraternally J. A. EGGERS.

AN EYE CURED.

W. H. Cole, ex-assessor of Douglas county, writes as follows concerning Dr. Darrin:

OAKLAND, Or., Sept. 26, 1896.
DEAR DOCTOR—Yours of the 17th received. In reply I will say that my eyes got all right in a few days and my deafness is improving. Yours truly,
W. H. COLE.

ABSOLUTELY PURE

GLENDALE.

After an absence of one month, which we have passed very pleasantly indeed in Jacksonville and the various mines in that vicinity, we are again at our post of duty. Time and space will not permit us to give a detailed account of our wanderings, so a brief mention is in order. As we were en route, our first stoppage was at Grants Pass where we heard a very intelligent political discussion by our esteemed friends, Hon. A. J. Barlow and Hon. W. M. Colvig, who are earnest but mistaken advocates of the erratic principles of populistic-democracy. Both gentlemen are worthy of a better fate than they will receive in following the leadership of W. J. Bryan. At Jacksonville we heard several speeches by enthusiastic and popular republicans, who could not fail to be interesting while they enunciated the grand principles of the republican party as set forth in our national platform. At Medford we listened to a learned discourse by Hon. Ben Butterworth of Ohio, which was at once so reasonable and clothed in language so plain and unpretentious that we noticed that many times a greater part of his audience were in tears. After he had finished his speech he held an informal reception, when we had the honor of a presentation to the grand old veteran and statesman which was made by Dr. J. W. Robinson of Jacksonville. In Jackson county we met with several ladies who are taking an active part in the campaign for McKinley and Hobart, and we regretted to note that in some instances the faithful work of the women was accredited to the stronger sex, presumably because it was shamed for ancient authority. "That it is a shame for women to speak in the church, etc." But in the eternal fitness of things, the time is drawing near when women will stand by the side of her brethren and take her place in the adjustment of our national affairs. While we labored unceasingly for one grand and glorious cause, which we found to be in the ascendancy everywhere, we worked silently because our central committee deem that work only suited to stronger hands. This portion of Douglas county we found upon our return to have been quite neglected by republican speakers. Several gentlemen who were billed to have spoken here having failed to keep their dates. On Monday of this week quite a crowd gathered here to hear the Hon. J. C. Lesure. They were again disappointed. The Hon. Allen B. Joy is billed to speak here next Friday, and we trust there will be no "preventing providence" this time.

Mrs. K. Clarke of Hotel Glendale is visiting friends in Ashland.
Miss Mary Pymale of Jacksonville is the guest of Miss Jennie Roberts for a month.
Mrs. Adelia Redfield and her accomplished daughter, Miss Nettie, are making arrangements to spend the winter at Glendale.
Mrs. A. P. Langenberg is the guest of Mrs. F. O. Plotner at the White House.
Mr. and Mrs. A. Marshall of Tunnel 6 are at Kelso, Wash., where they went to visit relatives and are detained there by the critical condition of their little 5 year old boy, Frank, who was dangerously burned by falling into a boiler of hot water shortly after they arrived there. The many friends of Mr. and Mrs. Marshall deeply sympathize with them in their affliction, which is particularly severe from the fact that one year ago they lost their oldest boy, Harry, who died at this place and are thus afflicted by the terrible accident to Frank, who is now their only son.
Mrs. Jones and Miss Hamilton are entertaining relatives from San Jose, Cal., at their cozy home, Hamilton Heights.

Condensed Testimony.

Chas. B. Hood, Broker and Manufacturer's Agent, Columbus, Ohio, certifies that Dr. King's New Discovery has no equal as a Cough Remedy. J. D. Brown, Prop. St. James Hotel, Ft. Merrill, Baldwinville, Mass., says that he has used and recommended it and never knew it to fail and would rather have it than any doctor, because it always cures. Mrs. Hemming, 222 E. 25th, St., Chicago, always keeps it at hand and has no fear of Croup, because it instantly relieves. Free Trials Bottles at Marsters' Drug Store.
