DEMANDS OF THE HOUR.

The Oregon Daily Statesman commenting upon an editorial of the PLAINDEALER under the above heading says: "We are sure the editor of our vigorous Southern Oregon contemporary will not be disappointed as to the fulfillment of the republican promises by the general government."

An Illustration of Woman Suffrage. It is in Utah that we encounter the most remarkable effect of full woman suffrage. In that brand commonwealth, and in the very city of Salt Lake, Mrs. Mattie Hughes Cannon, who possesses a one-sixth matrimonial interest in Mr. Angus M. Cannon, not only ran against her "better sixth" for the state senate, but, as our dispatches put it, "kicked him out of his boots."

Mr. Montgomery Gets Judgment. In the case of J. B. Montgomery vs. the Northern Pacific Railroad Company, Judge Bellinger Thursday denied the motion for a new trial, and ordered judgment on the verdict.

This Is Your Opportunity. On receipt of ten cents, cash or stamps, a generous sample will be mailed of the most popular Cathartic and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate the great merits of the remedy.

the wool." He believes in protection of American labor, both by taxing foreign labor products that come in competition with our laborers and those who come here to compete with native born laborers. The PLAINDEALER believes in "going the whole hog." It does not believe in closing the spigot while leaving the bung hole open.

MCKINLEY'S POPULAR MAJORITY. Not since the organization of the government has a president been elected by a popular vote so overwhelming as that which on Tuesday was rolled up for William McKinley, the candidate of the people.

Insane Talk About War. WASHINGTON, Nov. 12.—One of the alarming reports, told with much detail by pessimistic naval officers, is that the administration has now become thoroughly convinced that Spain's extensive naval preparations at home and the recent large augmentations of the military forces in Cuba are in anticipation of a conflict with this country to be provoked by the former for the purpose of preserving her dignity in the loss of Cuba.

Massing Her Troops. SAN FRANCISCO, Nov. 12.—The Bulletin says: "A letter containing a duplicate of mail advices sent by the regular correspondent of the Hong Kong Press, at Vladivostok, was received by the last China steamer, and was turned over to the Bulletin today. The communication shows that the czar is massing troops in the Vladivostok district, and has a large number of naval vessels in northern waters. The principal details of the situation are contained in the following paragraphs:

Cubans Recognized. LIMA, Peru, Nov. 13.—Something of a sensation has been caused here by the news received yesterday from Sucre, Bolivia, of a favorable report made by the committee on foreign affairs of the Bolivian chamber of deputies on a decision to recognize the Cuban insurgents as belligerents.

The Southern Fortification. WASHINGTON, Nov. 12.—While the navy is being placed on a war footing in anticipation of possible trouble with Spain, growing out of the Cuban rebellion, the army is equally active in its warlike preparations, especially along the South Atlantic coast. General Craigbill, chief of engineers of the army, has just returned from a hurried inspection of the fortifications now in course of construction at Galveston, Fort San Philippe, on the Mississippi river below New Orleans, Mobile, Pensacola, Key West and further inland.

New Steel Plant. LOS ANGELES, Cal., Nov. 13.—The stimulus given to manufacturing and building interests in this city as a result of Major McKinley's election has been very pronounced and is constantly becoming more perceptible. The machine shops and mills in the manufacturing district have in many instances doubled their output, while glowing fires have been started under many a furnace which had been a long time dull, dead and cold.

Can't Eat. This is the complaint of thousands at this season. They have no appetite; food does not relish. They need the toning up of the stomach and digestive organs, which a course of Hood's Sarsaparilla will give them. It also purifies and enriches the blood, cures that distress after eating and internal misery only a dyspeptic can know, creates an appetite, overcomes that tired feeling and builds up and sustains the whole physical system.

minute detail, and embraces such questions as, "If you are requested to move 500 troops over your lines with necessary equipment and supplies, how long after notification will you require to perform the service?" Caution as to secrecy is imposed on all roads called on for information.

Further advices received today from Sucre show that the congress had an exciting and stormy session to consider the resolution. The president of the chamber declared the resolution adopted, and the senate proceeded to approve it in the midst of loud protests from excited senators and great confusion in the senate chamber, so that the session finally had to be suspended.

There is no justification for this insane talk about war at this time. Secretary Herbert is not unmindful of the possibilities of the Cuban war, but he has not changed his naval policy by reason of any recent developments. Both the military and naval establishments have been unusually active during the last year in the way of military preparations, and orders have been issued by the secretaries of both departments to expedite work in various branches, not because of any certainty of any immediate trouble with Spain or any other country, but solely for the purpose of being prepared for any emergency.

The coming of Admiral Bunce to Washington to consult Secretary Herbert respecting the arrangement of the winter programme for the fleet exercises of the North Atlantic squadron has no bearing whatever upon any foreign relations of the United States, according to Secretary Herbert. It was the intention last spring, when the squadron was placed under Admiral Bunce's command, to follow the summer drills on the northern coast by a series of winter evolutions that would necessarily take place in warmer waters. Had there been no impending issues, such as the Venezuela boundary dispute and the Cuban revolt, that might cause the movements of the fleet to be given a warlike significance, the secretary would have dispatched the squadron to its old winter training grounds in the West Indian waters, or even farther south, but it is probable that a cruise will be abandoned, just as was the contemplated cruise of the squadron to the splendid naval drill waters of the Bay of Paris, on the coast of Venezuela, which was not ordered last winter solely on the ground that the appearance of a big fleet in the West Indies would be misconstrued. Therefore, it is probable the programme to be yet arranged will limit the vessels to exercises off the Chesapeake capes and the Carolina coast.

How to Prevent Croup. Some reading that will prove interesting to young mothers. How to guard against the disease. Croup is a terror to young mothers and to post them concerning the cause, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear. Even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy for it contains nothing injurious. For sale by A. C. Marsters & Co.
