### COOS BAY RAILROAD.

For the last six or eight years there has been some speculation pro and con of a railroad to the coast from Roseburg or some other point on the O. & C. now the S. P. railroad line in this county. A scheme was worked for a while preposing to build a road from Drain to Scottsburg at the head of tide water on the Umpqua river. That scheme has gone the way of all vagaries. Then a scheme was proposed to build a road from this city down the Umpqua river valley to Scottsburg. But like the proposed road from Drain, that, too, has not materialized. The proposed railroad from Roseburg to Marshfield on Coos bay, offers the most feasible route and offers the greatest inducement for its construction for three reasons: First, the harbor at Marshfield is better at Coos than at Winchester bay. Second, the topography of the country through which it must pass is better, as the construction per mile will be less than that to Scottsburg and Gardiner at the head of Winchester bay. Third, the country tributary to the Coos bay route offers far greater inducements on account of the timber, agricultural advantages and the inexhaustible mineral wealth along the proposed line, via, Coos valley.

With these natural advantages plainly perceptible to even the common observer, a company has been formed and the west end of the proposed road has been completed to Myrtle Point at the head of tide water of the Coquille river, a distance of 30 miles. From the inception of this proposed road till now the Plainealer had but little faith in its construction till the financial condition of the country became more settled. The continual agitation of the financial question for the last eight years has had the effect to make capitalists hesitate to embark in railroad enterprises unless special inducements were in sight. Now that the subject of finance has become so well established on a safe basis by the voice of the people at the polls, the outlook for profitable investment of capital is reasonably assured, and as a consequence we may anticipate that in the near future the various improvements requiring money will be taken up and pushed to a speedy completion. With the advantages named above, viz., the requirements of the people clamoring for it, the natural advantages of the Coos bay route, its comparative cheap construction and the inexhaustible elements of natural wealth of the country tributary to the proposed road, it cannot fail to induce the construction of this road, and in the near future—at least within the next two years, or three at most, THE PLAINEALER now has hopes of this road being built.

### Ballots and Bullets.

Every law in our statute books implies that it is the fruit of the ballot to be preserved by the bullet. There have been several instances in our history which have demonstrated this fact. The whiskey rebellion in Pennsylvania, the Shay and Dorr rebellion of New England; the Homestead riot in Pennsylvania and the Chicago riot in Illinois, and many others, amply illustrate that the bullet is the power behind the law to enforce it when civil measures measures fail.

Law is only a rule of action commanding what is right as indicated by the ballot, and prohibiting what is wrong, with a system of jurisprudence or court practice to settle differences of opinions as to the purposes of the laws in maintaining the right of person and property, with the understanding that the power of the bullet is still behind the law when peaceful means fail. The Pope condemns Cleveland for enforcing law at Chicago just as the distilleries condemned Washington for putting down the whiskey rebellion.

Several days ago the Oregonian roasted California society on the coals for their clannishness in trying to vindicate a woman of that state for theft. Mrs. Castle, the wife of a rich man of California, was arrested in London, England, for shoplifting. She was proven guilty and sentenced to imprisonment. There is no doubt of her guilt, but San Francisco's high-toned wealthy society, by a lavish use of their money and aristocratic influence, succeeded in securing Mrs. Castle's liberation from an English prison. Such a course the Portland thunders condemn, and scores Frisco society folk must unceremoniously. The Examiner retorts with a scorching—gives the Oregonian a Roland for an Oliver. It is d'auond, cut diamond.

### Weyler Has Met Maceo.

JACKSONVILLE, Fla., Nov. 16.—CIPHER dispatches just received report a fierce battle in progress in Pinar del Rio. It is believed that Maceo and Weyler have met. Reports of firearms have been almost incessantly heard for several hours.

The insurgent forces are well located in the hills, and are pouring a hot fire into the Spanish troops, which are repeatedly driven back in their attempts to capture the Cuban stronghold. The insurgents have the advantage of position, being at a great elevation, but the Spaniards are making a most desperate attack. From a distance it looks as if several towns are in flames.

### A Letter From Maceo.

New York, Nov. 16.—Senator Thomas Estrada Palma, the Cuban delegate, has received a letter from General Antonio Maceo under date of November 7:

"You need have no uneasiness about me," says Maceo in his letter. "Even in the case that Weyler could direct against us such an enormous army that I could not meet it in the field in open battle, as I have done with success now, I will resort to guerilla warfare, and dividing my troops into small bodies of 50 men each I will give hard work to even 200,000 soldiers. While Weyler was preparing his troops I was making mine also."

Maceo describes immediately after these words what he means by his troops. It is a narrow passage through the mountains, and the only way, in fact, to reach the strong position where the Cubans have their supplies of ammunition, and the factories for making powder and cartridges. The Spanish troops, Maceo says, confidently, cannot get to the Cuban stronghold. The passage admits only one man at a time in front, and besides that, in the space of half a Spanish league the Cubans have built 400 trenches and sown them with dynamite bombs. If Weyler could force the passage, Maceo says, he would only meet destruction half way.

In the same letter General Maceo gives news that he has captured four cannon and a great quantity of ammunition in the last engagements with the Spanish troops, and especially against the corps of Melgoin.

"I had to store ammunition," he says, "for I captured more than I needed."

With regard to provisions he says that he is well supplied, notwithstanding the fact that the province of Pinar del Rio is not so well provided with cattle as the other parts of the island. But the inactivity of the Spaniards for long months, while they expected to meet Maceo on the line of the trocha, from Mariel to Matanzas, gave time to enable the Cuban general to victual and fortify his army.

### Beet-Sugar Refinery.

LA GRANDE, Or., Nov. 14.—The mass meeting of citizens held in the Commercial Club rooms last evening to consider the beet-sugar refinery proposition was largely attended. There was a fair representation of citizens from adjacent localities. It is proposed to raise a subsidy amounting to 3500 acres of land, or the equivalent thereof in acceptable land and cash donations. The details have not yet been completed, but there are to be several provisions by which no part of the subsidy shall pass from the donors until the factory be completed and in readiness for operation.

M. L. Cassey, of the Eastern Oregon Land & Colonization Company, who is taking a great interest in the sugar-beet industry, has identified himself with this movement, and will take a prominent part in the canvass for the subsidy.

### A Shortage of Sailors.

NEW YORK, N. Y., Nov. 14.—War talk was still rife in the navy-yard yesterday afternoon among the officers and men. Their chief apprehension was that there would be a scarcity of men to man the ships. The last congress added 1000 enlisted men to the naval force, raising the number to 11,000. These extra men have been placed in the new ships in commission, and the ships that are now ready are without recruits.

This state of things has kept the big monitor Puritan out of commission since the beginning of the month. The officers practically have been decided upon, but there are no men for the crew. Neither are there any men in sight for the cruiser Brooklyn, which will be ready for active service next month. Although the ram Katabdin is officially in commission there are no men for her. The new gunboat Helena will soon be ready too, and there will be the same lack of men for her.

Recruiting only to fill vacancies is going on on board the receiving ship Vermont. The department will ask congress for 2000 men, but in the meantime some of the big warships will have to lie at the docks.

### Silver Coinage and Seigniorage.

WASHINGTON, Nov. 17.—The records of the treasury department show that, from February 1, 1896, to November 1, there were coined at the mints of the United States 16,292,922 standard silver dollars, from the balance of silver bullion on hand, purchased under the act of July 14, 1890. The seigniorage upon this amount was \$5,051,430, which has been returned into the treasury. The balance of the silver bullion purchased under the act of 1890, on hand November 1, 1896, was 125,061,293 fine ounces, which cost the government \$112,865,625. The coinage value of this amount is \$161,693,000.

### DeLome is Doubtful.

WASHINGTON, Nov. 17.—Spanish Minister De Lome does not expect to hear of any decisive battle in Cuba unless the Spanish troops should be so fortunate as to corner the Cubans. He says Maceo has no force with which to give battle. The Spanish troops, he thinks,

will have to chase the insurgents from place to place, destroy their supplies and plantations, and prevent their reaching the sea, where they can secure new supplies. He says the fighting must be like the fighting Indians in this country, driving the insurgents from one cover to another. He does not look for important advances from Cuba, except possibly the death of Maceo, which he believes would mean the end of the war. He estimates Maceo's force at between 3000 and 4000.

The subject of hostilities between the United States and Spain being mentioned, the minister with decision declared that it was sensationalism. He said that in this country there were no one who wanted to make Uncle Sam out a bully, whereas he was a peaceful and good-natured gentleman. There were in Spain anxious of the same kind, always anxious to stir up trouble. He said Spain's position was to take care of her own and defend herself, and that she was going to do. The Spanish minister is well pleased with the success of the Spanish loan. He received a cable message today saying that more than 100,000,000 peetas had been subscribed, which, he says, refutes the assertion that Spain is a poor and bankrupt nation.

### From the Seat of War.

HAVANA, Nov. 17.—No news, official or otherwise, is obtainable here concerning the movements of General Weyler and his army, supposed to be pursuing the insurgent forces under Maceo in the province of Pinar del Rio. No news from the Spanish forces in the field as a rule means bad news, and the insurgents are circulating reports of Spanish defeats. In truth, there seems ground for the belief that the captain-general has not met with the success he anticipated. While he is reported as moving along the northern part of Pinar del Rio, Maceo is said to be south of him, not far from the trocha, or military line, which would indicate the possibility that the insurgents are turning the Spanish flank and making it difficult for the captain-general to return to Havana.

This, however, is conjecture, no news being allowed to leak out from the offices of the headquarters of the staff in the palace. From private sources this afternoon it was said that Maceo, who had been occupying a position between Candelaria and Arimama, had moved south of the former town, going westward towards the mountains in Guanay. Another rumor has it that he is pushing a strong force through the swamps south of the trocha.

It is no longer denied that the insurgents captured the two quite important towns of Cascorra and Guimara, in Puerto Principe, and that the insurgent army of about 10,000 men is advancing upon the city of Puerto Principe.

### What Does This Mean?

NEW YORK, Nov. 17.—Through the authorities at the Brooklyn navy-yard refused to give any explanation of the great activity there, it is believed that instructions have been received from Washington to have every available vessel ready for sea.

The experienced commanders at the yard believe there will not be any conflict with Spain. They laugh at the idea of Spain, with her ancient fleet, going to war with this country. It is said the present activity simply presages the evolutions of the winter cruise. In any case the men in the mechanical department are working night and day to put the ships in perfect condition. In the navy-yard more than 200 men are at work on the monitor Puritan, which will go into commission at the end of the month and join Admiral Bunce's fleet.

The battleship Texas is now being repaired in the dock. The inquiry into the accident may be completed by Thursday.

### What Senor De Lome Says.

WASHINGTON, Nov. 17.—Senator Dupuy de Lome, the Spanish minister, was asked the direct question last night: "Do you believe there is any danger of war between the United States and Spain?" "It is possible," the minister answered. "It would be a terrible one. One can foresee its beginning, but not its end."

### Gold Reserve at Closing.

WASHINGTON, Nov. 17.—The treasury today lost \$34,200 in gold coin and \$29,700 in bars, which leaves the true amount of the gold reserve \$126,151,088. Owing to the fact that the state of the gold reserve is no longer a matter of public concern, the assistant treasurer at New York has been directed to discontinue the practice of sending this information to the department each day by telegraph.

### Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to take this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with Pneumonia succeeding a Gripe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at A. C. Marsters' Drug Store. Regular size 50 c. and \$1.00.

LA GRANDE, Or., Nov. 17.—Considerable wool changed hands here today. About 200,000 pounds was sold at an advance of about 1 cent per pound more than it could have been sold for before election. The price today ranged from 5 1/2 to 8 cents. Business is considerably brisker since election in all branches, and all seem to have a more hopeful and better feeling.

### ROSEBURG'S OPPORTUNITY

To Secure the Encyclopædic Dictionary.

The Pacific Coast Newspaper Syndicate extends to the people of Roseburg and vicinity an opportunity to secure a limited number of sets of the great Encyclopædic Dictionary, upon the same easy terms as were recently offered in Portland and at the low introductory prices.

This offer will hold good, at most, for a few days only, as the purpose of the Syndicate at the present is confined to distributing a limited number of sets at various points in the state for the purpose of comparison with other works of reference. This distribution is rapidly approaching its end, after which it will be impossible to obtain the work except at the advanced prices.

As far as Roseburg and vicinity is concerned this is the final opportunity. The payment of \$1 secures the delivery of the entire set, four massive volumes, (5375 pages, 250,000 words, of which 50,000 are treated encyclopædically) at your home or office. The balance due to be paid in twelve monthly payments of \$1.25 each.

You will never again have such a chance. Send your name and address at once to the Pacific Newspaper Syndicate in care of THE PLAINEALER and you will be supplied with sample sheets for examination, free of charge. See advertisement in another column.

### Notice To Contractors.

Sealed plans and specifications and bids will be received at the office of the county clerk of Douglas county, Oregon, on or before January 14th, 1897, at 1 o'clock p. m., for the repairing of the entire bridge and approach across the South Umpqua river at Roseburg, Oregon, by replacing all timbers, floor and woodwork, extending cement piers to prevent height of bridge, and to widen the entire bridge four feet. All joints to be laid in white lead, and timbers above floor to be painted. All old timbers, in existing stringers, to be carefully taken down and piled in road on either side of river. Bridge to be completed by August 1st, 1897.

Also at the same time and in the same manner, specifications and bids will be received for making the county jail of Douglas county, Oregon, more secure in manner following: By lining the entire inner wall with No. 11 steel plate and that to be secured with an eight inch additional brick wall laid in cement mortar. Present plastered ceiling to be taken off and timbers exposed with No. 10 plate. Old window frames to be repaired and all five windows to have additional new grates put in cement laid wall and fastened to the steel lining. The court reserves the right to reject any and all bids.

Dated this 12th day of November, 1896.  
A. F. STARKES,  
County Judge.

### TAXES.

Notice to Delinquent Tax Payers.

All taxes not paid by Nov. 25, 1896, extra costs will be added. Sheriff will commence to levy on all property for the delinquent taxes on Nov. 26, 1896.

A. F. STARKES, Judge.  
W. L. WILSON,  
M. D. THOMPSON, Commissioners.

### Strayed.

Light bay mare, weight 1050 pounds, has no brand and no saddle marks, no spots of any kind except the left hind foot is white. The mare is about six years old. The animal came to my place in the early part of last winter. I have inquired but no one knows the animal. She is in my enclosure, one mile north of Canyonville.

H. BILLENBACH.

### "Liverine."

"Liverine," manufactured by the Anchor S Chemical Co., the great Liver, Kidney and Constipation cure. An infallible remedy for all curable forms of diseases of the stomach. The greatest known remedy for indigestion. Try it. For sale at M. F. Rapp's drug store, Roseburg, Oregon.

This Is Your Opportunity.

On receipt of ten cents, cash or stamps, a generous sample will be mailed of the most popular Catarrh and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate the great merits of the remedy.

ELLY BROTHERS,

55 Warren St., New York City.  
Rev. John Reid, Jr., of Great Falls, Mont., recommended Ely's Cream Balm to me. I can emphasize his statement, "It is a positive cure for catarrh if used as directed."—Rev. Francis W. Poole, Pastor Central Presb. Church, Helena, Mont.

Ely's Cream Balm is the acknowledged cure for catarrh and contains no mercury nor any injurious drug. Free, 50 cents.

**Good Blood**

Is essential to health. Every nook and corner of the system is reached by the blood, and on its quality the condition of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember,

**Hood's Sarsaparilla**

Is the best—In fact the One True Blood Purifier.  
Pure Liver Pills, easy to take, easy to operate. See

**Catarrh Means Danger.**  
Because if unchecked it may lead directly to consumption. Catarrh is caused by impure blood. This fact is fully established. Therefore, it is useless to try to cure catarrh by outward applications or inhalants. The true way to cure catarrh is to purify the blood. Hood's Sarsaparilla, the great blood purifier, cures catarrh by its power to drive out all impurities from the blood. Thousands of people testify that they have been perfectly and permanently cured of catarrh by Hood's Sarsaparilla.

### Treasurer's Notice.

Notice is hereby given to all parties holding Douglas county warrants endorsed prior to June 1, 1892, to present the same at the treasurer's office in the court house for payment, as interest will cease thereon after the date of this notice.

Dated this 22d day of October, 1896, at the City of Roseburg, Douglas county, Oregon.  
WM. A. FRATER,  
County Treasurer.

### Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chills, Corns, and all skin eruptions, and positively cures Piles, or No pain required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale at A. C. Marsters & Co.

### For Over Fifty Years.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures colic and is the best remedy for Diarrhoea. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

### To the Public.

On and after this date, I wish it understood that my terms for all undertakers's goods are cash with the order. I find it impossible to do business on a credit basis, and believe that I can do better by my patrons and myself by selling strictly for cash. P. BENCKEN, Undertaker, Roseburg, Ore., April 12, 1895.

### To Rent.

Five-room cottage on Jackson street. Office—two rooms on Jackson street, opposite post office.

Large house and plenty of out buildings, 20 acres of land with orchard, in West Roseburg.

Large house and acres at Edgewater one mile from town. Call on or address T. K. RICHMOND, Roseburg.

### To Bowlers.

At the new Bowling Alley, corner Main and Washington streets, we are still doing business, but commencing today, Nov. 8, bowling will be at half rates until further notice.  
MOON & LAMMEN.

**Great Encyclopædic Dictionary**

A limited number of sets of this great work will be distributed in Roseburg and vicinity at the low introductory prices.

At once a Dictionary and an Encyclopædia.

250,000 Words—50,000 Encyclopædic Subject—Produced at a cost of \$750,000. Four Massive Volumes, weight 40 pounds.

One dollar secures the delivery of the entire work; balance to be paid at the rate of \$1.25 per month for one year. Send your name and address to the Pacific Coast Newspaper Syndicate, care of THE PLAINEALER, and you will be supplied with sample pages for examination.

### How to Prevent Croup

Some reading that will prove interesting to young mothers. How to guard against the disease.

Croup is a terror to young mothers and to post them concerning the cause, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear. Even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy for it contains nothing injurious. For sale by A. C. Marsters & Co.

Call and see the new line of ladies' shoes, just received at Parrott Bros.

**A Bank Failure.**

AN INVESTIGATION DEMANDED.

A general banking business is done by the human system, because the blood deposits in its veins whatever wealth we may gain from day to day. This wealth is laid up against "a rainy day" as a reserve fund—we're in a condition of healthy prosperity if we have laid away sufficient capital to draw upon in the hour of our greatest need. There is danger in getting this, because it is a sign of letting down in health. To gain in blood is nearly always to gain in whole, some flesh. The odds are in favor of the terms of consumption, grip, or pneumonia, if our liver be inactive and our blood impure, or if our flesh be reduced below a healthy standard. What is required is an increase in our germ-fighting strength. Dr. Pierce's Golden Medical Discovery enriches the blood and makes it wholesome, stops the waste of tissue and at the same time builds up the strength. A medicine which will rid the blood of its poisons, cleanse and invigorate the great organs of the body, vitalize the system, thrill the whole being with new energy and make permanent work of it, is surely a remedy of great value. But when we make a positive statement that 98 per cent. of all cases of consumption can, if taken in the early stages of the disease, be cured with the "Discovery," it seems like a bold assertion. All Dr. Pierce asks is that you make a thorough investigation and satisfy yourself of the truth of his assertion. By sending to the World's Dispensary Medical Association, Buffalo, N. Y., you can get a free book with the names, addresses and photographs of a large number of those cured of throat, bronchial and lung diseases, as well as of skin and scrofulous affections by the "Golden Medical Discovery." They also publish a book of 160 pages, being a medical treatise on consumption, bronchitis, asthma, catarrh, which will be mailed on receipt of address and six cents in stamps.
