The South Dakota Blizzard.

YANKTON, S. D., Jan. 4 .- The blizzard which began Sunday night rages with unabated fury. Only one railroad is reported to have moved a train in South Dakota and this was the local on the Milwaukee line, between Yankton and Sioux City. All other trains were worst known for drifting snow, but is not so blinding nor cold as the storm of 1885 when more than 100 people were free. No casualities of this nature

have been reported, although a great deal of stock is known to have perished. The legislature, which was to convene at Pierre tomorrow, and the banquet to Governor Lee, which was to have followed, will of necessity be postponed, as about 80 of the 126 members are snowbound, and some of them will not reach the capital for several days.

AN ALARMING STATEMENT

CONCERNING WOMEN. HOW BAD HABITS ARE FORMED.

The New York Tribume says. The habit of taking 'headache powders' is increasing to an alarming extent among a great number of women throughout the country. These powders as their name indicates, are claimed by the manufacturers to be a positive and speedy cure for any form of headache. In many cases their chief ingredient is morphine, opium, cocains or some other equally injurious drug having a tendency to deaden pain. The habit of taking them is easily formed, but almost impossible to shake off. Women usually begin taking them to relieve a raging headache and soon resort to the powder to alleviate any little pain or ache they may be subjected to, and finally like the morphine or opaum fiend, get into the habit of taking them regularly, imagining that they are in pain if they happen to miss their regular dose.

In nine cases out of ten, the trouble is in the stomach and liver. Take a simple laxative and liver tonic and remove the offending matter which deranges the stomach and causes the headache.
