PROTECTION.

Under protection the production of borax in the United States has increased from 3,692,443 pounds in 1880 to 13,380,000 pounds in 1891 or 116.66 per cent.

Under protection our imports of hay averaged 79,330 tons. Under the Wilson-Gorman tariff the imports of hay averaged 242,801 tons, showing that our farmers were deprived of the difference—163,471 tons, while the cost of hay to the consumer was not materially lessened.

One of the worst features of free trade or "tariff for revenue only" is the withdrawing from our circulation, the money of the country that should be kept in circulation at home.

We say that down as a proposition and defy successful contradiction. But it is claimed by the free traders, that, to extend our foreign trade, to create an increase demand for our surplus we must offer increased facilities to foreign traders.

To illustrate: England will not purchase one bushel of American wheat more under any conditions than that from India.

The supply and demand regulates the price of every commodity of human use. If India with her cheap labor can produce wheat cheaper than the United States, India will control the market.

The organization of the lower house of the legislature is delayed by a few silly obstructionists and a few silly republicans as we gather from the reports of the proceedings or failure to proceed.

The vote on the Pacific funding bill showed, as reported in the dispatches, that 80 republicans and 16 democrats voted for the bill, and that 99 republicans, 56 democrats and 6 populists voted against it.

Senator Mills of Texas, while commenting upon the position of President Cleveland and Secretary Olney on the Cuban question, drew a comparison between President Monroe and President Cleveland.

A good beginning. The Oregon senate has decided to reduce the number of clerks and their compensation was fixed as follows: Chief clerk \$5, and all others \$3 per day.

The Pacific railroad funding bill has been defeated in the house by 65 majority and the California delegation rejoices over Huntington's defeat thereby.

We note that L. S. Shipley of Youca has been elected sergeant-at-arms of the House.

Politics makes strange bedfellows. The Oregonian has now crawled into bed with Jo Simon, the pope and Jo as the Bourne, for the sake of downing Mitchell.

HINMAN AGAIN.

That Mite version of the Hinman story in its issue of January 6th, is too improbable and inconsistent to merit serious consideration. The idea of Hinman coming to Roseburg to begin a journey to rob a bank to get money to defend him here is too silly to receive a moment's consideration.

Never was more profound disgust felt or expressed than prevailed among the citizens of Oregon who have watched the proceedings in the house of representatives the past two days. The spectacle of a majority of a committee on credentials, in connivance with political manipulators, holding up a legislative body, a majority of whom are on hand and ready for business, is one that is sickening in the corruptness of its aspect and the brazenness of its efforts.

The Review says that if Benjamin gives up the PLAINEALER management, that paper will be anti-Hermann, the same faction that carried the republican primaries last spring. Here is another false statement of that paper.

The Oregonian has sworn to the wind in its mad effort to defeat Mitchell and will, no doubt, reap the whirlwind. The Oregonian is now patting the populists on the back because they are arrayed against Mitchell for, as it says, deserting free silver.

Senator Mills of Texas, in his speech in the senate last Monday said in reference to Signor Crispi, the Italian representative of the vatican in the United States. "Who is Signor Crispi? The symbol of the power of Italy is a monkey and an organ grinder."

Denies It.

New York, Jan. 12.—A Herald special from Havana says: Consul-General Lee has authorized your correspondent to deny the truth of the statement telegraphed him by the Herald as follows: "Money reports that on leaving Havana you gave him the following message: 'See Olney; tell him I am more firmly convinced than ever that Spain cannot put down the insurrection, and that every day it continues it means loss of life and property without the remotest encouragement for Spanish success. I long since told him the insurrection would succeed, and my judgment receives daily confirmation.' Will you kindly cable the Herald whether this is so."

The general seized a pen and wrote in vigorous characters: "I gave Mr. Money no message to Mr. Olney of any nature," said the general, as he signed the message. "Do you believe that Senator-elect Money is the correspondent of a New York newspaper, as alleged by La Lucha today?" "Most certainly I do."

Scene of Conflict.

New York, Jan. 12.—A World City West special says: Consul-General Lee went to Guanabacoa, hearing that an American had been shot there. It was ascertained that a Cuban named Spiros had been shot in the night at his own door by the patrol as he was going home.

Havana reports that General Weyler is going to take the field in Havana and Matanzas provinces this week. Firing was heard about five miles west of Havana today. It is supposed that there was an insurgent raid. Such things are so common now that little attention is paid to them.

The House Hold Up.

From private, but reliable sources from parties who are on the ground, we learn that Jo Simon, in league with Bourne and his henchmen, are responsible for the delay in organizing the house. The populists and this bastard republican, Bourne, with his tool, Davis of Umattila, temporary chairman, playing into Jo Simon's hands by his arbitrary rulings, are at the bottom of the scheme to dead lock the organization for ulterior personal advantage to Jo Simon and Jonathan Bourne. Such is an outrage upon justice and deserves the everlasting execration of all decent people.

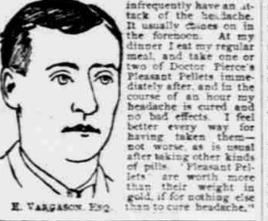

Call It a Craze.

AN ALARMING STATEMENT CONCERNING WOMEN.

HOW BAD HABITS ARE FORMED.

The New York Tribune says: "The habit of taking 'headache powders' is increasing to an alarming extent among a great number of women throughout the country. These powders, their name indicates, are claimed by the manufacturers to be a positive and speedy cure for any form of headache. In many cases their chief ingredient is morphia, opium, cocaine or some other equally injurious drug having a tendency to deaden pain. The habit of taking them is easily formed, but almost impossible to shake off. Women usually begin taking them to relieve a raging headache and soon resort to the powder to alleviate any little pain or ache they may be subjected to, and finally like the morphia or opium fiend, get into the habit of taking them regularly, imagining that they are in pain if they happen to miss their regular dose."

In nine cases out of ten, the trouble is in the stomach and liver. Take a simple laxative and liver tonic and remove the offending matter which deranges the stomach and causes the headache. Dr. Pierce's Pleasant Pellets are composed entirely of the purest, concentrated, vegetable extracts. One Pellet is a dose; sugar-coated, easily swallowed; does not soil, always in favor. They positively cure sick headache and remove the disposition to it.

Dr. E. V. Vargason, of Our Lake, Lager Co., Wis., writes: "I do not frequently have an attack of the headache. It usually comes on in the forenoon. At my dinner I eat my regular meal, and take one or two of Dr. Pierce's Pleasant Pellets immediately after, and in the course of an hour my headache is cured and no bad effects are felt. I feel better, every way, for having taken them—not worse, as is usual with the taking of other kinds of pills. 'Pleasant Pellets' are worth more than their weight in gold, if for nothing else than to cure headache."
