IN STATU QUO.

SALEM, OR., Jan. 20, 1897.

I believe General McClellan once sent a dispatch to the war department, in answer to a question, that the army of "the Potomac" was in statu quo. This house of representatives is in that condition and no move has been made as far as appears on the surface to relieve the strain. The faithful few are in their seats day after day, Sundays included, wearily answering the roll calls; the speaker pro tem, observes that there is no quorum and after a while adjournment is had and nothing accomplished. In the meantime *tempus fugit*. The second week of the session, or what ought to be the session is half over, and there isn't even a committee to examine the affairs of the asylum. The would-be clerks with dejected mien, perambulate the lobby, hoping for a streak of sunshine, or perhaps might be more aptly described as waiting for the clouds to roll by.

The blame for the look out on both sides with the populists as much as with the anti-Mitchell republicans and a little more to the anti-Mitchell republicans, if they came in, would still be insufficient, but the populists and the republicans present would be sufficient for the purposes of organization and could proceed with necessary legislation. Are they afraid to submit their measures to discussion and action of the whole house in session, that they must attempt to force promises of support before they will agree to organization? This is something new under the sun and it remained for the legislative branch of the nineteenth century populists to evolve such tactics.

The "yes" and "no" on the roll are as follows:

Speaker pro tem Davis, while not present, his sympathies are with the "outs."

Is there no hope? At present, writing the outlook is not bright. From what I can hear the populists are holding out, presumably, for legislation in accord with their peculiar creed, and the anti-Mitchellites, to defeat the senator for election. All sides seem determined and the result is what the boys think of. The people are more interested in relief measures of legislation than in the particular man who shall represent them in the senate of the United States. Meanwhile, men after words should be the policy. Men die but measures live on, and the whole people are affected thereby for good or ill. There are two sides to every question and there are two sides to this unprecedented proceeding. There must be give and take before there will be a coming together. The uncertainties who have no constituents behind them willing to approve their course to the extent of putting up the money for their expenses, are entitled to consideration. This is the case with those who are at their post of duty. Populist Smith of Ohio said his constituents were paying his expenses and approving his course. He may be speaking for his brethren, but did not say so. Well, there is this satisfaction for those who stand to their guns without pay—"When the Lord loveth He chasteneth and scourgeth every son whom He loveth."

Every member of the Douglas county delegation is in his seat, promptly answering the roll calls. This, under the circumstances, is all they can do in the south wing. Senator Reed on the north side is taking an interest in the doings of the senate, which is proceeding in the even tenor of its way; certainly,

It is iron, there being no occasion for haste.

Doorkeeper Blundell carefully guards the portals of the senate chamber against the approach of eavesdroppers and is just as efficient as if he weighed a ton. Simon Cao was here last week looking after his political fences, and secured a splendid endorsement in his candidacy for the re-election of the land office at Roseburg. If push and merit, and backing counts for anything, then Simon ought to win.

Harry McCallen has secured a clerkship if he did not get the particular place he was after. J. B. E.

Rev. I. D. Driver, state senator from Lane county, has introduced a bill into that body, making it a misdemeanor for any member of the legislature to willfully absent himself from the hall of the senate or house to which he may have been elected, and shall refuse to answer to his name and participate in the organization of such body, shall be deemed guilty of a misdemeanor and upon conviction shall be fined not less than \$50, nor more than \$500, and forfeit his right to a seat in the house to which he was elected. Some such a law is a good one and if it becomes a law, as we trust it will, it would put a stop to dead locks, such as we are now humblingly compelled to witness. Hurray for Driver! Give us the Driver act. It is a good one.

A Valuable Prescription

Editor of the Plaindealer, Portland, Ore.: I have been suffering from a severe case of rheumatism, and have tried many remedies, but have not found relief. I have seen your advertisement for Hood's Sarsaparilla, and have purchased a bottle. I have taken it for a few days, and I feel much better. I am sure that your Sarsaparilla is a valuable prescription. I am sure that your Sarsaparilla is a valuable prescription. I am sure that your Sarsaparilla is a valuable prescription.

Manifesto Issued by Populists.

SALEM, OR., Jan. 18.—The populists tonight held a caucus, and issued the following manifesto:
"To the People's Party of Oregon: The undersigned, your members-elect to the legislative assembly, ask your loyal support and that all good citizens in our contest for such an organization of the house as we believe will result in economical and remedial legislation that will make an honest vote and a fair count possible in Oregon. We are contesting for a fair organization of the house, in order to make possible the passage of the Bingham registration bill, the Holt judges-of-election bill, and an amendment to the constitution providing for direct law-making by the people by means of the initiative and referendum in its optional form."
"We are assured by eminent lawyers that the Bingham registration bill is constitutional, and likely to be effective. The Holt bill allows county central committees of each of the three principal political parties to designate a judge of election in each precinct, and committees of the two principal parties to each name one clerk of election in each precinct. The initiative and referendum need no explanation to Oregon populists. These measures we believe to be all-important in obtaining honest elections and control by the people of law-making in Oregon, and thereby preserving our liberties. The situation is this:

"Last June the republican party elected 38 members of the house of representatives. Only 28 of this number have agreed to act together in organizing the house. Part of the remaining 10 republican members support Mr. Bourne and part do not support any candidate. The populist and democratic members are staying out until such time as a republican majority may agree upon a candidate of its own for speaker, or until a sufficient number of their unite with us to assure Bourne's election, which we believe will enable us to obtain the measures herein named. As long as republicans are thus divided, and it is possible that we may, by preventing organization, finally elect Mr. Bourne, and probably obtain the legislation before mentioned, we feel it to be our duty to the people of Oregon to stay out—wages or no wages. We know the knowledge of the facts, we feel that we are entitled to your support for our sides."

The manifesto is signed by two senators and 11 representatives, as follows:

J. E. Smith, J. H. Egan, John Williams, George Ogle, M. J. Wheeler, C. A. Dowd, D. W. Tackman, Thomas Bondman, Jack McCallister, G. J. Whitman, John Galt, W. A. U'Ren, S. Hill, and Will H. King.

It was stated that the remaining populist senator and representative, who are out of the city, fully intended the manifesto.

AN ALARMING STATEMENT CONCERNING WOMEN.

HOW BAD HABITS ARE FORMED.

The New York Tribune says: "The habit of taking headache powders is increasing to an alarming extent among a great number of women throughout the country. These powders as their name indicates, are claimed by the manufacturers to be a positive and speedy cure for any form of headache. In many cases their chief ingredient is morphine, which, when taken in large quantities, has a tendency to render the habit of taking them to be a permanent one, and it is almost impossible to shake it off. Women usually begin taking them to relieve a raging headache, and soon resort to them to alleviate any little pain or ache they have, and in this way they are gradually led to the habit of taking them, and when they are in the habit of taking them, it is almost impossible to get rid of them."

In nine cases out of ten, the trouble is in the stomach and liver. Take a simple laxative and liver tonic and remove the stomach and causes the headache. Dr. Pierce's Pleasant Pellets are composed entirely of the purest, concentrated, vegetable extracts. One Pellet is a good sugar-coated, easily swallowed, once taken, always in force. They positively cure such headache and remove the disposition to it.

Dr. E. C. Cannon of New York writes: "I am extremely glad to hear of the success of your medicine in the case of the headache. I have used it in many cases and it has been found to be a most reliable remedy. I have used it in many cases and it has been found to be a most reliable remedy.
