A POPULIST VIEW.

Hon. G. F. Schmiedlein, a populist member of the lower house of the Oregon legislature from Jackson county, writes the Mining Journal of Grants Pass, concerning the hold-up of the legislature, not the train, as follows:

The populists have assisted in making a temporary organization which no one doubts is constitutional and legal. But the golden republicans, have refused to assist in making it a permanent organization but are fighting among themselves, and the expenses of the state are being piled up for the tax payers to pay. The people will have to decide at the ballot box who is to blame. The populists and bimetalists have each been ready and anxious to organize with Jonathan Burns as speaker, provided they have a fair division of the chairmanships of the various committees and to get down to business.

This is refreshing, and Mr. Schmiedlein evidently speaks by the card. It is true the populists assisted at the temporary organization but they immediately, took to the woods. Why? According to him, Schmiedlein, because the tail could not wag the dog. In other words because the majority would not agree to accept the terms dictated by the minority. This is a season of unusual things and this populist proposition is so at variance with the usual custom that one is inclined to ask, what next? The populists are "ready and anxious to organize" provided a populist is chosen speaker. Who ever heard of one-third of the members of a legislative body demanding that one of their number shall be chosen to preside? It is cheeky, to say the least.

Further on Mr. Schmiedlein in the course of his communication says:

It is well known here that Mark Hanna is pulling the wires for the gold standard in this senatorial fight while the tax payers pay all the expenses and have their interests disregarded.

If this is true, then the populists and bi-metalists must be in cahoots with Mark, for the fight of the republicans against Senator Mitchell is because he is not as much of a gold bug as they would like. Verily, strange reasons are given for strange proceedings.

SENATOR REED'S BILLS.

Senator Reed has favored the PLAINDEALER with copies of the bills introduced in the senate by him. They are as follows:

Senate Bill, No. 94, is for "an act to authorize the construction and maintenance of a flood-gate on Hudson slough in Douglas County, Oregon." Godfrey Seymour is authorized in the bill to construct said flood-gate.

S. B., No. 139, changes the school law and among other things provides that unexpended balances exceeding \$50 in the hands of the district clerk at the end of the year shall revert to the general school fund.

S. B., No. 146, is an act to protect hotel keepers and boarding house keepers and provides that, any one with intent to defraud shall obtain food or lodging, or surreptitiously remove his baggage, shall be guilty of a misdemeanor and upon conviction shall be fined not less than \$10 nor more than \$50, or be imprisoned for not less than five nor more than twenty-five days.

S. B., No. 167, carries an appropriation of \$8700 for a dormitory, dining room, steam laundry, water supply and woodshed, clearing and fencing at the Soldiers' Home.

S. B., 177, provides for the working of state convicts upon the public roads of the several counties of the state. Under its provisions, when the county has made arrangements for such work the judge holding court in such counties may sentence offenders to hard labor upon the public roads.

A WIDE AWAKE SENATOR.

Mr. Mason the newly elected senator from Illinois is not the shallow politician that some would have the people believe. In his speech before the legislative assembly that promoted him from congressman to senator he showed a grasp of public question equal to the best. Among other things in reference to trusts he said:

"I want to say one word upon the subject of trusts. The constant struggle of corporations against competition has for a long time, and will for many years to come, furnish food for thoughtful minds. The trusts produce cheaper because they produce more; but the great trouble has been that the cheapening of the cost of production has insured to the benefit of the few, while the consumer has been deprived of the benefits that justly should have fallen to his lot. I shall, on behalf of the people of Illinois, favor additional legislation, if necessary, and the enforcement of the laws already passed by our party, to the end that when competition is destroyed the saving in the cost of production shall go to the pockets of the plain people, who consume, and not to the pockets of the few, who grow rich by reason of their combinations and trusts."

Senate Refuses.

SALEM, Or., Feb. 2.—The state senate today, by a vote of 16 to 12, refused to proceed to the election of a United States senator. The Benson house, with 30 members present, at noon took a ballot and cast 29 votes for John H. Mitchell and 1 for Geo. H. Williams. The one vote came from Huntington, of Wasco.

The senate had a long discussion over the resolution introduced by Brownell, of Clackamas, that it should proceed upon a viva voce vote to name a senator in congress. The resolution "was immediately ruled out of order by President Simon, on the ground that it proposed an act contrary to law, in that the house was not organized and no vote for senator could be taken until the second Tuesday thereafter.

An appeal was immediately taken from the decision.

A vote was taken, and the chair was sustained, the vote being 16 ayes to 12 noes. The vote to sustain was as follows:

Ayes—Bater, Calbreath, Dawson, Gower, Hobson, Holt, King, Mackay, McClung, Mitchell, Mulkey, Patterson of Washington, Reed, Selling, Smith, Wade—16.

Noes—Brownell, Daly, Driver, Dufar, Gowan, Harmon, Hasselbine, Hughes, Johnson, Patterson of Marion, Price, Taylor—12.

Absent—Carter.

Not voting—President.

Result of Tariff Reductions.

Congressman Dulliver, in a letter to the American Economist said:

"The chief fact brought out by the tariff hearings was that a reduction of duties below the protective rate always injures labor in its wages and often entirely kills the industry affected. The most impressive scenes in the committee room were those in which workmen, speaking for their fellow craftsmen, told the story of idleness and want brought into their homes by falling wages and falling employment. Nor did it take a statistician to see in the universal shrinkage of wages and the general prostration of industries, once prosperous and in depression, the secret of the agricultural depression which has nearly cut in two the home consumption of corn and reduced the consumption of wheat a bushel and a half for every man, woman and child in the United States."

The Final Act.

WASHINGTON, Feb. 2.—A treaty of arbitration between Great Britain and Venezuela will be signed at 5 o'clock this afternoon. The delay was caused by difficulty in making up the personnel of the arbitration commission, not so much from objections to persons nominated by either side as from the trouble experienced in arranging a tribunal so as to interfere as little as possible with the important routine work of the supreme courts of the United States and Great Britain, from which body the four arbitrators are drawn. Notice, however, was received by cable this morning from London that the privy council had finally confirmed the selections made.

The four arbitrators, it is understood, will be Chief Justice Fuller and Justice Brewer, of the United States supreme court, and Lord Henschell and Sir Richard Henn Collins, knight justices of her majesty's supreme court judiciary. The fifth arbitrator in case of need will be named by King Oscar.

By the terms of the treaty the agents of Great Britain and Venezuela must hold private complete cases at Paris, where the arbitration tribunal will meet within eight months of the ratification of the treaty, with three months additional allowed for submission of counter claims, so that the entire arbitration will probably occupy a year and a half.

LaGrande Beet-Sugar Factory.

LA GRANDE, Or., Feb. 2.—Two letters have been received from beet-sugar factory people in relation to the proposed factory in this valley. One is from E. Salich, civil engineer, who had charge of the construction of a factory at Eddy, New Mexico, and the other from Alfred Mosy, president of the Pecos valley sugar factory at Eddy, Messrs. Salich and Mosy are associated with French and English capitalists, who are ready to construct and operate beet-sugar factories whenever suitable opportunities are offered. The letters state that both Mr. Salich and Mr. Mosy will be in La Grande late in February or early in March to look over the situation, if at that time there is a reasonable expectation that the subsidy will be raised. This will set at rest all doubts in regard to the question as to whether a factory can be secured if a subsidy is forthcoming. All that remains to be done is to secure a subsidy, and that will doubtless be completed in a few weeks.

A Big Fire.

HARRISBURG, Pa., Feb. 2.—Fire broke out in the senate wing of the state capitol this afternoon, and at 1:30 the building seems to be doomed, as the fire department is unable to control the flames. The fire originated in the rooms of Lieutenant-Governor Lyon, over the senate chamber. It burned several minutes before it was discovered. It had soon made such headway that little could be saved in the costly apartments of the lieutenant-governor.

The loss is placed at \$1,000,000; insurance, \$400,000. The loss of valuable records is great. They can never be replaced.

A Position for McKenna.

St. Louis, Feb. 3.—A special to the Globe-Democrat from Canton says: Judge McKenna, of San Francisco, has accepted the portfolio of secretary of the interior in President McKinley's cabinet.

Judge McKenna's first assistant will probably be Major Warner, of Kansas City.

This information has given by the president-elect to a delegation who called to urge the appointment of Judge William Warner.

Will Veto Immigration Bill.

St. Louis, Feb. 1.—A News Washington special says President Cleveland has decided to veto the immigration bill passed by congress. He told Senator Palmer his intentions today. The chief executive will accompany the veto with a strong message pointing out the alleged eccentricities of the bill. The president is very bitter in denunciation of the immigration bill.

The Bachelors' Club of Edenbower will reproduce their sidesplitting programme in Dilworth's Academy Hall, Tuesday evening, Feb. 9th. Come and have a good laugh for a good cause. Admission 10 cents.

SHERMAN'S OPPORTUNITY.

One of the first official acts of President Cleveland, in assuming the presidential office in 1885, was to withdraw from the senate the treaty negotiated by President Arthur and his counselors to provide for the building by the Maritime Canal Company of the canal by way of Lake Nicaragua from the Atlantic to the Pacific across the Isthmus of Panama. It is longer than the route of the proposed De Lesseps canal but it takes advantage of river and lake to such an extent that the actual work required will be less, and then a brief stay in fresh water will be a big help in cleaning the bottoms of the vessels on long voyages. The time allowed under that treaty has expired and the concessions are withdrawn, but it does not follow that the governments interested are not in the humor to enter into a new treaty with their big northern neighbor equally as advantageous to us as that which Mr. Cleveland withdrew and soothered. This question is now being agitated vigorously on the eve of the change of administration and of policies at Washington and it is hoped some good will result. The Pacific states, especially, and the whole country incidentally, is interested in this enterprise and nothing congress can undertake will receive a more cordial public support than steps in this direction. We want our water route to the Atlantic seaboard shortened by several thousand miles, thereby enhancing the price of every bushel of our grain, reducing the price of our import commodities and enlarging the market for our lumber. Every member of the Pacific states delegations in congress should make this matter their first concern, and labor to that end early and late. This accomplished a grateful constituency will help upon their heads thankful benedictions. If Mr. Sherman can negotiate a new treaty and be the means of building that "cut off" he will go down in history as the greatest of the Shermans.

SUCH IS FAME.

The following "fairly tale," telegraphed from Portland to the San Francisco Chronicle, will doubtless prove intensely interesting to ex-sheriff Cathcart and Sheriff Agee, also to the friends of those gentlemen. Here it is:

PORTLAND, Or., Jan. 31.—Sheriff Cathcart of Douglas county, who has been in the mountains ever since Friday morning with three well-organized parties, expiating the trails of the robbers who held up the Southern Pacific train Thursday night, sent a messenger back today with instructions to secure a number of bloodhounds as quickly as possible, as he had secured a number of valuable clues, together with several garments that lead him to think that he is on the right trail. The wilds of an African jungle could not be worse in which to pursue a man hunt than the wild region in which the robbers are hiding. The country is sparsely inhabited, and the few ranchers are not only cowed into submission by the men suspected of committing this robbery, but are forced to afford them every possible protection in order to save their property, as well as their lives.

This Sheriff Cathcart save, makes his work doubly hard. It has already turned out that he has been thrown off the scent on two special occasions by men and women in that region who dare not do otherwise. The sheriff, however, is a stayer, and hopes are entertained that he will not return until he makes a number of arrests. Important developments are looked for in the next twenty-four hours.

It is understood that the Pinkerton detectives have taken a hand in the chase, and are working on a clue that involves a crook now on the coast who was recently concerned in a hold-up in Montana. Messrs. Hume and Tracker are said to be working in conjunction with the Pinkertons. There is one thing that all the officers concede, that this gag of robbers is known to be made up of some of the most desperate men that ever handled a revolver, and with that knowledge firmly fixed in their minds the officers are taking no chances, so that if the robbers' roost is reached a bloody battle may be looked for, in which no quarter will be given on either side. The officers all have instructions to shoot to kill "on sight," and as every man has been chosen for his known nerve, the result must necessarily be interesting.

Moody Waxed Exceeding Wrath.

Boston, Feb. 3.—Evangelist Dwight L. Moody was perceptibly angered by the statement of President Jordan, of Stanford university, that "a revival of religion is simply a form of drunkenness, no more worthy of respect than the drunkenness, that lies in the gutter."

After reading Dr. Jordan's statements at the Tremont Temple revival meeting, Mr. Moody proceeded to exhortate the California instructor, and at the same time got in a thrust at the Golden state. Among other things he said:

"The president of Stanford university has set up a man of straw and I see no necessity for the knocking of it down. I suppose Mr. Jordan would say that Paul was beside himself, but the letters of Paul are read long after the works of college presidents are forgotten. If men and women would lose their reason and their self-control during their revival seasons in Boston I rather guess the newspapers would have made it known to the general public long before this."

"I can criticize my work better than Mr. Jordan can. I know the faults and short-comings better than he. I do not think any such statements coming from California—if it be correctly reported—is worthy of serious comment."

Hermann's bill to provide for a final settlement with the Nebulemy band of Tillamook Indians is likely to pass the house. It appropriates \$10,500 as settlement in full.

Bully for Sickers.

New York, Feb. 3.—In an address on the Cuban question last night before the Brooklyn democratic club, in historical hall, General Daniel E. Sickers made the announcement that he was ready to personally take charge of a consignment of arms for the Cuban insurgents.

"I will personally dispatch them," he said, "and I will consign them to General Guines. I will defy all interference. I would be ready to accept all the consequences of my action. I make this statement, not in defiance of law and of the authorities, but because I know that such an act would be perfectly lawful and in line with the uniform decisions of our courts."

During the course of his address General Sickers declared that because of our traditional position of not allowing any foreign rule in Cuba this country has assumed the responsibility for whatever relief shall be given to Cuba from the oppression under which it is now suffering. He insisted that the United States owes it to civilization to interfere. He was in favor of recognizing the belligerency of the insurgents and ridiculed the idea that a war with Spain might result therefrom.

The smallest grain of aniline will color a ton of wine. A grain of permanganate of potash will red- den seven thousand times its weight of water. The most trifling disorder will disarrange every organ of the body and cause eventual disease and death. It is the little ailments neglected that make the big diseases. Most serious diseases have their origin in a disordered digestion and faulty nutrition. This is true of that most deadly of diseases—consumption. It is also true of nervous prostration and exhaustion and also of all forms of wasting disease. All ailments of this description may not only be prevented but cured by a resort to the right remedy.

An infallible cure for all diseases that have their origin in disorders of the digestion and faulty nutrition is found in Dr. Pierce's Golden Medical Discovery. It cures digestive disorders, restores the appetite, invigorates the liver, purifies and enriches the blood, builds healthy flesh and muscle and drives out disease germs. It cures 98 per cent of all cases of consumption. Thousands have testified to these facts. Druggists who suggest substitutes are dishonest.

Mrs. Ursula Dunham, of Sistersville, Tyler Co., W. Va., writes: "I should have been dead had it not been for your medicine. I was nearly dead when I began taking Dr. Pierce's Golden Medical Discovery. I had a pain in my side all the time and but little appetite, and grew very thin. The Golden Medical Discovery promptly cured the pain, restored my appetite, and increased my weight."

Dr. Pierce's wonderful free book, "The People's Common Sense Medical Adviser," will be sent paper-bound, for twenty-one cents in one-cent stamps to pay the cost of mailing. Address Dr. R. V.
