At Cordray's theater in Portland there is a little book in front of each seat and a card attached thereto inviting the ladies to remove their hats and hang them on the hook, and this is pretty generally done. A Roseburg lady being informed of this said there ought to be hooks to fasten to the coat-tails of the men to keep them in their seats till the play was over. Cordray, by the way, has made a wonderful change in the old Washington street theater, and it is now quite a comfortable play house.

Someone who has taken pains to look into the matter, has stated that out of 22 towns of Western Oregon, Roseburg is the only one where bicyclists are forbidden to use the sidewalks. Roseburg may as well drop into line and permit sidewalk riding. It would be quite a favor to many people and inconvenience to none. Of course, Jackson street, from Cass street to Douglas, should be excepted. When the streets are dry the sidewalks are not needed, but at times like the present the cyclist must take the sidewalk or leave his wheel at home or go afoot.

E. Carpenter climbed up by the back way into a hophouse near Newberg, Friday afternoon, and shot himself with a pistol, death resulting immediately. His people thought that he meditated some rash act, and were keeping a close watch on him, and some of them went up the stairs of the hophouse, but arrived in the dry room just as the shot was fired. The verdict of the coroner's jury was in accordance with the above facts.

One of the oldest residents, who is weather wise beyond all the science of weather bureaus, called attention yesterday to the fact that the moon passed her "last quarter" today, and proclaimed that if it did not rain before Wednesday morning the weather would continue fine until March 29. Music will be interspersed between the addresses. Everybody is invited. A dispatch from Speaker Benson this afternoon says there'll be about 20 members here.

Twenty Years of March Weather.

The following data, for March, covering a period of 19 years, have been compiled from the weather bureau records at Roseburg, Oregon, and furnished this office by Observer Thos. Gibson:

Temperature—Mean or normal temperature, 45 deg. The warmest month was that of 1889, with an average of 53 deg. The coldest month was that of 1882, with an average of 44 deg. The highest temperature was 81 deg. on 22d, 1887. The lowest temperature was 18 deg. on 3d, 1896. Average date on which first "killing" frost occurred in autumn, October 14. Average date on which last "killing" frost occurred in spring, May 3.

Precipitation (rain and melted snow)—Average for the month, 3.58 inches. Average number of days with .01 of an inch or more, 15. The greatest monthly precipitation was 8.61 inches in 1894. The least monthly precipitation was 0.28 inches in 1885. The greatest amount of precipitation recorded in any 24 consecutive hours was 1.90 inches on 4th, 1897. The greatest amount of snowfall recorded in any 25 consecutive hours (record extending to winter of 1884-5 only) was 5.7 inches on 19th, 1894.

Average number of clear days, 6; partly cloudy days, 10; cloudy days, 15. The prevailing winds have been from the southwest. The highest velocity of the wind was 36 miles from the southwest on 27th, 1895, also 1st 19th, 1879.

A Good Lecture.

The lecture of Mrs. Clara Hoffman at the M. E. church on Monday under the auspices of the W. C. T. U., was largely attended, and those present were privileged to hear one of the most entertaining and convincing lectures on the temperance, or rather prohibition, question ever delivered in this city. The speaker refrained from the customary abuse of those who are engaged in the liquor traffic, saying the saloon keeper was no worse than the license under which he kept open, the license was no worse than the authorities which granted it, the law was no worse than the legislature that made it, and the legislators were no worse than the people who elected them. It is public sentiment that needs reforming. Incidentally the Oregon legislature and the hold up tactics pursued there came to for a "roast." Altogether, it was an exceptionally good lecture.

Serious Accident.

Mrs. Fred Page-Tustin met with quite a serious accident on Monday, resulting in the breaking of the thigh bone of the right leg. She went to the woodshed to get a little stove wood, and in reaching up knocked down a small round stick. She then reached for a larger piece and stepped back, stepping on the round stick which rolled and threw her down with the consequences about set forth. She was there alone for about an hour and a half in a helpless condition, when her plight was discovered by her little son. He of course, was powerless to help, but he hastened for his father who lost no time in getting home. Mr. Tustin secured assistance and his wife was placed in a chair and carried to the house. Dr. Bradley was summoned and placed the limb in plaster of paris. At this writing the patient is doing as well as could be expected.

Getting Ready.

Indications thicken which go to show the probability of the prosecution of the work of continuing the Coos Bay road to this city. The Marshfield Sun of the 18th says: The steam shovel is being repaired at the round house, as well as being supplied with trucks so that it can be moved about from place to place on the regular track. Heretofore it has been necessary to use flat cars in transporting the shovel and by lessening the gauge of the shovel a great convenience will thus be afforded. This looks like construction work will go ahead in the spring, and if the report is authentic as coming from Mr. Graham there will be no doubt about it. In all the history of the road Mr. Graham has always fulfilled what he said he would do. He is "close-mouthed" but when he lets it out you can rest assured he means business.

To Night.

Grand presentation and gift carnival at the Roseburg Opera House Thursday, Friday and Saturday, and Saturday matinee at 2 p. m. Every child receives a present. General admission, 25 cents. Children, 15 cents. Reserved seats, 35 cents. On sale at the Rose Leaf. The Roseburg orchestra will play at all the performances.
