Among the tens of thousands who have used this remedy for the grippe, we have yet to learn of a single case having resulted in pneumonia, which is not to be wondered at, for this remedy is a certain preventive of that dread disease. It will effect a permanent cure in less time than any other treatment. The 25 and 50 cent sizes for sale by A. C. Marsters' & Co.

To the Public.

On and after this date, I wish it understood that my terms for all undertakings are cash with the order. I find it impossible to do business on a credit basis, and believe that I can do better by my patrons and myself by selling strictly for cash. P. BERNICE, Undertaker, Roseburg, Ore., April 12, 1895.

Tea is better fresh—if it isn't, what does the grocer mean by telling you that he has some and that you can't get it?

Tea is better fresh—if it isn't, what does the grocer mean by telling you that he has some and that you can't get it? This is a question that every tea drinker should ask himself. The answer is simple: Tea is better fresh because it retains its natural flavor and aroma. Stale tea, on the other hand, has lost its natural qualities and is inferior in every respect. Therefore, when you purchase tea, always choose the freshest quality available. This is especially true of the delicate teas, which are particularly susceptible to loss of flavor and aroma when they are not properly stored. The grocer who tells you that he has some tea that you can't get is likely referring to stale tea that has been sitting on the shelves for a long time. Do not be misled by such statements. Always choose the freshest tea available, and you will be sure to get the best possible results from your tea drinking.

The nomination of Binger Hermann as commissioner of the general land office, will give general satisfaction not only in Oregon, but throughout the West. He is known to be a man of absolute integrity, with special qualifications for the duties of that position.—Astorian. Messrs. Rice and Flint have received more samples of ore from their new tunnel, and on comparing it with specimens from the famous Anacostia mine one can scarcely tell "tother from which." The further in they get the better the ore looks, but the proof of the pudding is the eating thereof, and we hope the feast will not be long delayed. Jim Frater went out to Ollaia last week to attend the funeral of the late K. B. Ireland. He said the roads were worse than they have been any time this winter. The mud varied in depth from six inches to three feet, and sometimes for a hundred yards at a stretch the axle would drag along on top of the mud. It was simply dreadful. Commander Booth Tucker of the Salvation Army, passed through on Friday night's overland en route for Portland, where the Salvationists had a big time last Saturday night and yesterday. The commander is now engaged in working up a colonization scheme for the poor of San Francisco, and will probably undertake to set similar plans on foot for the northwest. The Eugene Guard of Thursday says: The warm winds of the past three days have caused the snow to melt in the mountains and the river at the time of going to press registers at the bridge 14 1/2 feet above low water mark and is still rising. The flouring mill has ceased operations on account of the raise and the electric light plant is compelled to resort to steam as a motive power. The Maccabees had a grand "blowout" at the Opera House last Friday night, on which occasion they were addressed by Special Deputy Supreme Commander Luckenbaugh. After the literary exercises the knights and invited guests repaired to the banquet hall, where they did eat and be merry. The Roseburg Maccabees, both male and female, have large and flourishing tents, and new members are constantly being added. Mr. Thomas Kay, who is at the head of the woolen mills in Salem and in Waterloo, Lin county, has turned out some lines of blue and black serge and worsted cloth for men's clothing which compare favorably with any mills in the world. There was a fairly good attendance at the M. E. Church Friday evening, to witness the oratorical contest for the Demorest gold medal. It was under the auspices of the W. C. T. U. of Edenbow, and the contestants were Jessie Gilvie, Amata Smith, Neal McCall, Willie Armitage and Clyde Faulkner. The medal was awarded to Amata Smith but all of them acquitted themselves splendidly and the ratings were very close. G. W. Kimball, Miss Bushnell and J. B. Eddy were the judges. They made their award and left town. If there were as many medals as contestants there would have been no difficulty. The proceeds of the contest are to go toward the building of a W. C. T. U. hall at Edenbow.

Conductor T. J. Kearney is improving some. He gets around now with but one crutch and a cane. He is using the injured limb a little and thinks he can dispense with the other crutch before long. A large cherry tree in Dayton, three feet in diameter, was blown over by Wednesday's storm. This tree bore a ton of fruit in one season. It was set out 45 years ago, and belonged to J. B. Riley. James Smith, of Junction City, has a goat with three horns. The extra horn is about five inches long, and grows on the jaw under the left ear, and is as much of a horn as the two others, the Junction City Times says. The many friends of Mrs. Sol Abraham will be pleased to learn that she is getting along very nicely. The operation was successfully performed last Thursday and word was received this morning that she is feeling much better. The Imperial Operatic Comedy Company performed before a small audience at the Opera House Saturday night. There was nothing of an operatic nature in the play, and the comedy was strictly English—requiring an interpreter to explain the jokes, if there were any. "La Cigale," the play advertised, was not produced for some reason. There is a little chap in Roseburg who is rapidly acquiring the meaning of words, but he does not know which particular word to use and he coins one. He knew that brain and memory were in some way connected, and the other evening he desired to make complimentary reference to the mental faculties of a lady and pronounced her "membrane" all right. A Word About Pruning. Professor U. P. Hedrick of the Agricultural college at Corvallis, who is at the head of the horticultural department says: "This is the season of the year that the tree butcher gets in his work. The 'expert pruner' with axe, saw, and a pair of hedge shears, and who trims trees down to mere stumps, is about offering his services. Orchardists should give him a wide berth. This is applicable to all parts of Oregon, but the thought has been suggested by institute workers returning from Southern Oregon who report over-pruned orchards as about the worst feature of orcharding in that part of the state. A healthy tree well headed at the start, the head twenty to thirty inches from the ground, needs only to have deformed, crooked, and crossed limbs removed, with now and then a branch taken out to thin up the top. The shape of the tree must be governed by pinching, and removing small twigs with a budding knife. All other pruning is unnecessary, and a wanton destruction that seriously impairs the vitality an usefulness of the tree.

Officers Elected. March 25th the W. C. T. U. met at the home of Mrs. S. Parks and elected the following officers and superintendents for the ensuing year: President Mrs. Ida Marsters, corresponding secretary Mrs. Stearns, recording secretary Inez Metzger, treasurer Mrs. Clara Berry elected and resigned. Lee; supt. of scientific temperance instruction, Mrs. Hamlin; supt. of Sabbath observance and Sabbath school work, Mrs. L. A. Walker; supt. of mothers' meetings, Mrs. Clara Berry. Dangerous Sport. A number of boys, some of them big enough to know better, are in the habit of jumping on the local train as it pulls into the depot every evening, and of getting on the outgoing trains and jumping off when the train is running at a high rate of speed. This is not only contrary to the ordinance but it is dangerous sport and some of these days a broken limb, or perhaps a broken neck may result. It should be stopped. Two or three years ago the boys at Wilbur were given to that sort of thing, till one day a boy undertook to jump from a running train and as a result he broke his neck. "The pitcher that goeth off to the fountain is finally broken." You may get on and off without difficulty one hundred times, but at last a mistake, or a miscalculation, suddenly terminates what might otherwise prove to be a useful life. Boys, as you value the peace of mind of loving parents, quit it.

The Elks. Thursday evening of last week the Elks held their annual election and installation of officers. Following are the new officers: Fred Page-Tustin, E. R.; F. M. Zigler, E. L. Riddle, inner guard. Exalted Ruler Fred Page-Tustin was chosen representative to the grand lodge with D. Solis Cohen as alternate.

Shoes, Shoes. Late arrival of men's and woman's stout and cheap shoes. Also a supply of reasonable staples at Stanton's. New designs in wall paper at Marsters'. Attention Farmers! An adjourned meeting of those interested in the sugar beet industry in the vicinity of Myrtle Creek will be held at that place, on Saturday afternoon, April 3, for the purpose of receiving the report of the committees appointed to ascertain the amount of available land, suitable to the culture of the sugar beet, and that will be pledged for that purpose, provided a sugar plant can be established at or near Myrtle Creek. If the report is favorable, as it doubtless will be, it is probable a permanent organization will be effected, to be known as the Umpqua Valley Sugar Grower's Association. It is very desirable that there should be a full attendance, as it is probable that the future of this movement will depend largely on the interest then shown. This should be a popular demonstration, and one in which the farmers should act in full accord; disproving the aspersion so commonly heard, that all vocations can unite for mutual benefit, except the farmers. Remember that two crops of beets successfully raised and marketed, will double the value of your land and also increase its fertility. Two hundred thousand dollars disbursed annually in your midst, will bring you prosperity and comfort, and give you the supreme satisfaction of allowing you to jingle a few dollars in your pocket, a luxury you have been a stranger to for some years past. ROBT. ECCLESTON.

Exercises at School. A representative of the PLAINEALER spent a pleasant hour on Friday at the exercises at the public school. A very nice program, which is given below, was rendered and the young auditors showed their appreciation by generous applause. Dr. and Mrs. Littlefield, we are sorry to say, have left the camp for Portland; although their stay was short on Ollaia they both have many warm friends here. The pugilistic encounter at the Paradise Camp a few days ago did not attract the attention of the "Island" as did the one at Carson, nor did the railroads reduce their fare. Gee Sam is cooking and Jake Fisher is hash slinger at the camp. Dan Fisher is doing the carpenter act. Wm. Whipple assisted by Dan Parmenter and Mr. Lovell Jr. is surveying. Sam Bollsinger of Brockway and W. L. Short of Ollaia returned Saturday from the "Mass Ranch" whether they went to chase the cougar and the bear for a few days. Don't like to mention the result. W. G. Lovell is now general superintendent and John Rush is book keeper. They were making a "clean up" when we left. The camp is beginning to loom up. The company has just about completed two commodious buildings, each 20x40 feet, one to be used as a tool and general store room, the other as a bunk room, with a stove in the center, and other buildings will be erected soon. We are informed that the shooting took place 18 miles northeast of here in the above named valley, also that a heavy pair of suspenders that crossed in the back with heavy leather on each side is the only thing that saved his life. The charge of shot striking that place, some of them passing into the body. From what we have heard of the case it is one that should receive prompt attention by the authorities. TAILBY.
