THE SOUTH AND PROTECTION.

Flow Sentiment is Changing on the Revenue Question.

There is only one way to explain the dense misunderstanding of the democratic tariff position on the part of intelligent men in the South, namely, the radical position assumed in congress by such men as Morrison, who the party was in a hopeless minority.

The change that has been brought about is not, we fear, the result of any study of democratic history, but the outcome of the pressure brought to bear by various local interests—the rice planters, the sugar and cotton planters, the lumbermen.

Now we sincerely hope that those who have been moved to tuck their free trade doctrines under the bed will be led to examine and inform the real democratic position—tariff for revenue.

Senator Turpie, of Indiana, raised a new and pertinent point in favor of the election of United States senators by popular vote in his discussion of that question in the senate.

Major Baldwin, agent for the Kiowa and Comanche Indians, with a number of senators from the East will build a \$75,000 industrial school for the Indians at the foot of Mount Scott, on the Wichita mountains.

A Chicago girl while riding a bicycle took a header and was rendered unconscious. She was picked up by a young doctor, and the acquaintance that followed ripened into love and he married her.

At a meeting of the faculty of the Union Theological seminary, held a few days ago in New York, the second place in the graduating class of 1917 was awarded to Miss Emilia Grace Briggs, the daughter of Professor Charles Briggs.

What Senator Turpie said of the influence of various kinds in the election of senators under the present system has been said before, but it can't be repeated too frequently or with too much emphasis.

The president cannot appoint all the sons of his predecessors to office, but he will send Colonel Fred Grant back to his old post at Vienna.

A "Tariff for Revenue Only." At the close of January the Gorman-Wilson "tariff for revenue only" of the democratic party has been in operation for 20 months.

Consider that the Almighty made man in his own image and likeness, it is astonishing how little respect people have for their bodies.

The Quill river is cutting away the sand between the south jetty at Bandon, and will in time, if left alone, cut a channel clear through to the ocean, leaving the breakwater in the river, says a correspondent of a Coquille City paper.

A San Jose brick company has been awarded the contract to furnish 3,000,000 bricks to be used in the construction of the Spreckels sugar refinery at Salinas, Cal., which is to be the largest institution of its kind in the world.

The proposal to establish the state of Manhattan, including within its boundaries the Hawaiian Islands, the Territory of Greater New York, is now before the legislature.

Among the ancestors of Dr. Nansen was Hans Nansen, born in 1518, who was the first to explore the coast of Greenland.

Terrors of the Flood.
