ARBOR DAY.

Appropriately Celebrated by the Roseburg School.

Arbor day was observed with appropriate exercises by the Roseburg school last Friday. It was a very pleasing sight to witness the flag salute by the pupils at the opening exercises, when over 300 children in unison with accompanying gestures said: "We give our heads and our hearts to our country. One country, one language and one flag."

The program of exercises in detail was as follows: Song, America, school. Prayer, Rev. Jones. Flag Salute, school. Recitation, Arbor Day, Bertha Sehlbrede.

Recitation, Invocation, Vera Haynes. Instrumental duet, violin and piano, Alta Smith and Ethel Parrott.

Recitation, Thianopsis, Chas. Stratford. Recitation, Blessing on Tree Planters, Emma Britt.

Song, Ben Bolt, Ruby Gordon. Recitation, Flowers of Liberty, Della Cole.

Trees replanted in honor of the teachers of the 3d and 4th grades, Mrs. Brown and Miss Willis. Exercises conducted by pupils of the respective grades.

Of the speakers, Hon. F. Page-Tustin was first introduced. He gave a very interesting address, appropriate and suitable to the occasion. He gave a brief account of the origin and the significance of the day; and the lessons it was designed should be drawn from it. It was fine. Mr. F. A. Faulkenberg, lecturer for the Woodmen of the World, was presented by Principal Hamlin, to the audience. He gave a very pretty and interesting address of about ten minutes. His remarks were very appropriate to the occasion—Arbor day and Woodmen of the World are members of the same happy family, benevolence and fraternity. W. F. Benjamin was the next speaker, occupying about five minutes, in which he compared the privileges which children now enjoy amongst enlightened people and the savage—each are human beings, but the former by and through the means of education and general intellectual training are by far superior to the latter. He appealed to the pupils to make good use of their time while young. It is the golden opportunity of life.

Hon. E. D. Steadford was next introduced, who spoke very interestingly of a tree common to all countries and climates, which, he said, is symbolized by the planting of a tree on Arbor day. That tree is the "home tree," the sacred tree "neath whose benign shelter the nations of the earth are reared. Mr. Stratford, under this figure, painted several beautiful word pictures illustrative of the sacredness of home and social enjoyments. The next speaker was Hon. C. A. Sehlbrede, who spoke briefly of the lessons desired to be taught and the principles inculcated by Arbor day tree planting. He referred to the fact that there were two exotic arbor plants now growing upon the school grounds which he brought from Indiana, his native state. He also made some interesting comment upon the subject of tree planting generally and the benefits derived therefrom.

The whole exercises from commencement to finish were listened to by a large and attentive audience of citizens, patrons of the school.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
