C W PARKS & CO. Grocers

We have elsewhere in this edition, referred to the grocery trade as one of Reseburg's most important industries. Many reasons may be ascribed for this fact and one of the strongest that may be assigned is perhaps the perfect reliability and business integrity of her merchants. Of the many who are fairly entitled to this distinction, no house keeps shead of the old established house of C. W. Parks & Ca., located on Jackson street. Their stock, which is large and well selected consists of staple and tancy groceries, he leading brands of tobacco and cigars. In conclusion, we may say that they conduct their business on a sound basis and in a liberal manner, and we may add that the business they have built up and now control, speaks in the most expressive language of the confidence and esteem with which they are so widely and justly regarded.

OUR MINERAL RESOURCES.

Gold is the principal mineral product of Southern Oregon and very largely predominates in value over all other minerals combined. The mineral belt or territory extends through Douglas, Josephine and Jackson counties adjacent to the California line. Gold, silver, copper, lead, iron, lime and kaolin have been found in many places, and all are being mined and reduced in more or less quantities. The gold bearing mineral belt throughout which large and valuable ore bodies pounds there were four sealed bids, have been discovered and which are being profitably operated, is quite as extensive as any on the continent.
