The Roseland Boom.

SPokane, May 9th, 1897. EDITOR PLAINDEALER:—The rush to the British Columbia mines seems almost a specie of insanity. Daily the trains of the Spokane & Great Northern for Roseland are crowded. The fare is \$9.25, or at the rate of five cents a mile. A freight of 15 to 30 cars daily carries supplies and machinery to the same point. The travel from Roseland is not a bit less lively, in fact, people are coming and going in flocks and herds. Many of them have no capital but their hands, and the result is that both Spokane and Roseland are overcrowded with men looking for work. The railroad and the hotel keepers are literally being money by the thousands. Before the craze began, the road was financially shaky. Wagon for common labor are as low here as they can possibly be. During the cold weather penniless men by the dozen would steal their night's sleep on the chairs in the big saloons. But in Roseland it's even worse. There in one night 400 men were counted holding down free lodgings in the bar rooms. The rush is still growing and is likely to keep on all summer. Men are like a flock of sheep. My advice to a poor man is, stay where you are, even if you have to work for four bits a day, which is as much as is paid here to livery stable hands.

But the picture is not entirely gloomy. I met an old gentleman this morning who two years ago could not raise a bean. He had a quart's ledge, but he could not sell stock in it at even a nickel a share. No one would take it as a gift. He had to keep it and became a millionaire in spite of himself. I could cite other similar incidences. But the signal success of the lucky ones does not demonstrate that rich gold mines cannot be found outside of this section. Even if that were true, its population is far ahead of its development and large numbers will be forced to seek other pastures. The two miners that bucked fare here one night this week and came out \$5000 winner are by all odds the luckiest chaps I have met since I struck the town. They didn't have to go hungry a single meal time to make a comfortable stake. However, the chap that threw flour into the face of a Spokane jeweler and ran off with \$3,000 worth of diamonds made his pile a little quicker. Bug.

Resignation of Benj. F. Rider as supervisor of District No. 63 (Olalla), accepted and M. D. Parmenter appointed in his stead. Endorsed the Resolutions. EDITOR PLAINDEALER: Acting as spokesman for the G. A. R. Post at Yoncalla, I have to inform you of the action taken by the Post in relation to the Soldiers' Home controversy. Having received a copy of the resolutions passed by Reno Post No. 29, of Roseburg, accompanied by a circular letter, I placed the same before the Post at a regular meeting on April 24th, and after due discussion, Post 65 voted unanimously to endorse the resolutions of Reno Post in regard to rules 13 and 14, recently promulgated by the board of trustees, also the copperhead and unpatriotic utterances of the Oregonian and its cowardly thrusts at the ex-Union soldiers of this country. If we are thought to have acted hastily or in an ill-advised manner, let them remember what we as a class have borne during the last four years of Clevelandism and "my policy," and wonder if our patience is nearly worn out and that we are disposed to fight anything that works of that policy or looks like the avers of the adherent of one Grover.

Council Proceedings.

The common council met Thursday evening, May 6, 1897, and transacted the following business: On calling the roll the following members were found present: Mayor Marsters; Councilmen Parks, Moore, Stanton, Perry, Fletcher, Aiken and Bloum. Marshal Cannon and Recorder Zigler. Councilman Dillard, absent. The minutes of the previous meeting were read and approved. M. C. Ruckles appeared before the council in regard to the approach at the ford at the foot of Oak street, stating that when work was commenced on the bridge that it would be impossible to get to the river. The matter was referred to the committee on city improvements for investigation. The committee to whom was referred the matter of placing a sewer in Chadwick addition on Fowler street reported unfavorable, and the report of the committee was accepted. The quarterly reports of the treasurer and recorder were returned and reported on as having been examined and found correct.

The marshals and recorder's reports were read and accepted and ordered filed. The following bills were allowed: J. A. Perkins, interest on city hall and sewer bonds \$875 00 B. F. Page, street work 15 00 Fred V. Laugh, hauling gravel 19 50 Roseburg Electric Light Co., city hall and street lights 149 85 J. B. Cannon, marshal's salary 50 00 J. M. Fletcher, hauling 3 00 B. Cannon, sundries 3 60 Brown & Tustin, attorney's fees 10 00 Brown & Tustin were appointed as city attorneys at a salary of ten dollars a month, and the time of their services to begin on April 1st.

There being no further business the council adjourned to meet on Thursday evening, June 10, 1897, at 8 o'clock. Gold Hunting With Spirits. Last summer two prospectors from Portland were guided into the mountains to the east by a medium whose familiar spirits are noble red men, chasing phantasmal elk and soft-eyed deer in the happy hunting ground on the other side of the Styx. The objective point was a fabled placer mine whose surface glitters in the sunlight with bright nuggets. Almost had the party reached it, when the spirits got their back up, that is, they would have got it up if they had had that convenient physical encumbrance, when there is no "crick" in it. The "control" it seems, provoked a row with the spirits of the white men who had been murdered by the Siwash and the jig was up. Straightway the Indian spirit almost killed the medium with poison oak, and they were obliged to bring him as speedily as possible to the settlements for medical attendance and rest. Two Roseburg mediums have been in training all winter with the spirit of the famous chief, Wo-To-Wo, and they are confident that the old thief will faithfully take them to the treasure-trove. The chief had in earth-life a weakness for his neighbor's horses, and they have bribed him with the promise that they will send their ponies to him in the fall.

Wheel Talk. There are a great many wheels on the market of all prices and all grades. Many people buy wheels simply on the recommendation of the seller, who, of course, always has the best wheel, and will show you a few of its good points, leaving out its weak or defective points. Why not buy a wheel that has an old and established reputation for durability and easy running qualities, like the Imperial which has the best reputation of any wheel in Southern Oregon, a wheel which no one can dispute its qualities, and when taken into consideration is the cheapest wheel on the market for the price which is at the present time only \$75. T. K. RICHARDSON, Agent, Roseburg, Oregon.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by DRUGGISTS, 75c.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by DRUGGISTS, 75c.

Mr. D. P. Davis, a prominent liveryman merchant of Goshop, Va., has this to say on the subject of rheumatism: "I take pleasure in recommending Chamberlain's Pain Balm for rheumatism. The first application of Chamberlain's Pain Balm eased the pain and the use of one bottle completely cured him. For sale by A. C. Marsters & Co.

On Saturday it was reported that some one in the Olalla country had discovered a fabulously rich quartz ledge, the rock, it was said, assaying as high as \$80,000 per ton. This, of course, created quite an excitement in mining circles for a few hours, but the news was too good to be fully believed, and the excitement soon subsided. This morning, however, on learning that Major E. F. Walsh of Olalla was in town, he was run down by a PLAINDEALER representative and the facts in the case obtained. The ledge was discovered by the major himself, on his own ranch, and instead of assaying \$80,000 to the ton, as reported, goes only \$200 or thereabouts. But as there is a vast quantity of it, the ledge being 50 feet in width, the major is not kicking so any one can notice it. Indeed, he seems to be very much pleased over his find, as well he may be if it only proves half as good as he now believes it to be.
