The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

The premium list for the State fair, printed by the state printer, is out. The fair will open on Sept. 30 and close Oct. 8. About \$20,000 in cash premiums are offered. The admission will be 25 cents, with 10 cents for grand stand, except for women. Parsons orchestra will furnish music.

Company A, 2d regiment O. N. G., to the number of about fifty, will leave on Sunday night to take part in the militia encampment at Hood River. The boys have been drilling about four nights a week lately and it is expected that they will give a good account of themselves at the encampment.

Cottage Grove Leader: Mrs. J. R. Hayes of Harriburg was here during the week, looking for a location upon which to build a large brick hotel. She is well satisfied with the outlook and will commence work on the building, which will be located near the depot, soon if the deal is consummated.

A good accident occurred the other day when there arrived in Oakland a carload of Bain wagons, hacks and buggies, and when a carload of binders, mowers and twine came. It was all for Stearns & Chenoweth, and will be sold at the lowest prices. Repairs on hand for several kinds of machines, and agents for all kinds of machinery.

Rev. F. G. Strange of Ashland came in on the local Monday evening and stayed over for the overland visiting his brother, Dr. J. W. Rev. Strange was on his way home from the Presbyterian general assembly that met at Winona, Ind., and while East he visited the scenes of his boyhood in Illinois, spending about two months on the trip.

Investigation of the assessments as they are being arranged by the assessor reveal the fact that some of the people reported to be quite well off are really poor. One man gave in \$500 of money notes and accounts, who was supposed to have \$25,000 of that class of property, and the records, it is said, would bear out the latter figure. Surely no man would perjure himself to avoid the payment of a tax.

When the dead body of Ed. Schieffelin was found in his cabin on the South Umpqua, a couple of weeks ago, a number of rich specimens of ore and \$4 in gold were found in a pan near it. It is supposed that he had just found the ledge for which he had been searching so long. Acting on this suspicion, A. J. Barlow, Dr. E. Mings and E. C. Cornelius left Grants Pass for the scene of Mr. S.'s death, last week, to look for the place where the specimens came from.—Times.

The Blair house near Eugene was destroyed by fire Sunday night. The Guard says the loss was a complete one, not a vestige of the old building remaining and the chimney which remained standing during the night, crumbled and fell to earth this morning. The house was built in '54 and in early days was probably the best known house in the valley. The upper story of the house was used as a dance hall then, and it is said 140 couples have danced on the floor at once, which was 26x40 feet in size.

Regular meeting of the B. P. O. Elks tonight. Visiting brothers cordially invited.

As far as can be ascertained no damage of consequence resulted from Monday's hailstorm.

The student who receives the least notice on graduation may be the hero of the day in ten years.—Ex.

Klamath Falls is preparing to fight the electric light and water company of that place, to restrain the company from collecting interest on \$10,000 bonds.

Hon. G. W. Riddle of this county will deliver an address before the state horticultural society at Newberg on the 30th inst., subject, practical evaporation.

The Pacific Coast Mining Co. have commenced piping on a bar in Rogue river, near Woodville. Their pump has a force equal to a pressure of 200 feet.

Our band made a bid to play at the State fair, but Parsons orchestra of Portland got the job. Our boys would have furnished better music, and don't you forget it.

The W. C. T. U. will hold its regular meetings on the second and fourth Thursday of every month at 7:30 p. m. in the Epworth League room of the M. E. church.

Edwin Stone, general manager of the O. C. & E. railroad, was in the city Tuesday night. Mr. Stone is an enthusiastic Elk and was here looking up the matter of Sunday's excursion.

A resident of Roseburg was engaged in watering some cabbage plants that he had just set out. The shower that came suddenly nearly wet him through before he could get to the house.

The "foreign" members of the Soldiers' Home board have gone home. J. P. Robertson left on the overland last night and Cap. Ormsby and Col. Alley went by way of the local this morning.

Monday afternoon's rainstorm was the heaviest in several weeks. It wetted the ground thoroughly. Gradients will now be all right and late grain a fair crop. The fall was nearly half an inch.

Graduating exercises of the public schools will be held at the school house tomorrow afternoon at 2 o'clock. Parents of the children and friends of the school are cordially invited to be present.

Ed Scott, who is in the Benton county jail, has hardly eaten anything for two weeks, and is said to be acting strangely. About his only remark is: "I'm all right." It is thought he is feigning insanity.

Mrs. Mary Oglesby left for Myrtle Creek on Saturday night to arrange for moving her household effects to her home near Jacksonville, where she will take up her residence with her family.—Tidings.

Central Point has been almost depopulated since the Elk creek mining excitement broke out. Most of the gold-seekers are returning, however, wiser and some of them sadder than when they went.

It seems a little odd now to think that only a week ago everybody and his cousins and aunts were praying for rain, and we can get along very nicely, perhaps till harvest.

To dispel the fear of any one not a resident of Lake county, that we do not raise strawberries, we refer him to the fact that Vince Snelling picked a berry in his patch this week that measured 4 1/2 inches in circumference.—Lakeview Examiner.

An enterprising young business man who has no doubt been along the line, says that it takes a rich man to draw a check, a pretty girl to draw attention, a toper to draw a cork, a free lunch to draw a crowd, and an advertisement to draw trade.

The rain which fell at intervals during the past fortnight has been of great benefit to all kinds of crops. Fruit has been helped materially, and a large yield is assured. The cereal crops will also be much better than anticipated a short time since.—Jacksonville Times.

Junction City Times: A young man is in this section with the ostensible purpose of buying cows. He is a blik and should be run off the place. He has already insulted several young girls and a number of kicks forcibly and centrally delivered, would have been mild punishment.

Miss Rose Parrott entertained a few friends last evening in honor of her cousins, Mrs. Howard and Miss Howard of Albany, and Mr. Morrison of Missouri. Mr. Morrison left this morning on the local for Oakland, where he will visit relatives for a few days before returning to his home.

A phenomenon in the shape of a calf was born to one of Mart Walters' cows last week. Twins were born and one of them without a vestige of a tail. In fact, in the place where that useful appendage ought to be, several of the vertebrae are missing, which gives the calf a very ludicrous appearance.—Lakeview Examiner.

Mr. McDonald, who lives across the river about one mile north of Skinner's butte says two cougars are in the woods near his place. His son shot at one of them after dark last night but missed the animals. Some cougar dogs have been sent for by our local sportsmen who will chase the varmints tomorrow.—Eugene Guard.

Rev. F. L. Moore returned Tuesday morning from the Methodist district conference at Grants Pass. He and Mr. Brown, a lay member, went on their bicycle and returned the same way as far as Myrtle Creek, where Monday's storm overtook them and they waited for the train. The trip over was made in two days, and it was intended to return in one, which they would have done very easily but for the weather. In descending mountain grades they tied a fir bough of about 15 or 20 pounds weight behind their wheels with an eight foot rope and by this means rode down the hills very nicely.

There will be a mass meeting of the Young Peoples' Society of Christian Endeavor at the Christian church on Monday evening, June 28th, 1897, at 7:30 p. m., at which will be present Mr. H. S. Gile, state president of the Oregon C. E. Union. Mr. Gile will deliver a lecture relative to the international convention soon to be held at San Francisco and what it means to the Pacific coast, and is a pleasant speaker whom all should hear. All are cordially invited to attend.

THE ELK CREEK MINES.

The Ore is Not Rich but Abundant. The following is taken from an article on the Elk Creek mines in the Medford Monitor-Miner:

The Pearl Mining company, consisting of Peter Applegate, Mark Applegate, J. W. Merritt, W. C. Leever, J. D. McKinnon, H. McKenzie, Mr. Dalberg, Henry Applegate, Samuel Geary and John Gruble have located twenty claims there together with a tunnel and a water right. The first location the company made was the Pearl claim on the Umpqua side of the divide.

The different members of this company have been at work on these locations for over a year. Tracings were first made by Peter and Mark Applegate last summer. Becoming satisfied that the tracings were leading up to something good, they worked at it till late in the fall, and then returning there again in January of this year they followed the trace up to the snow line, where they were compelled to abandon it. As soon as the snow was out of the way, however, they were on the ground again and have been engaged in prospecting and locating their claims for the past two months.

The report that the Brobst Bros., discovered the mines is a mistake. They do not belong to the company, and were not connected with the first discovery, although they have since taken two claims. The Buzzard group of claims runs 6000 feet north and south and 2000 or 3000 feet east and west. A backbone runs north and south the entire length of the claims, and towers 800 or 900 feet above the waters of Elk creek, from which the company has located water rights.

To show the immense amount of ore deposit, an estimate was made on a draw running from Lick Log creek on the west to the top of the crest—about 1500 feet, taking in 50 feet on either side of the draw and cutting to a depth of five feet, which shows upwards of 60,000 tons of ore. So it is easy to understand that there are millions of tons of ore, which can be easily taken out and milled for less than \$1.25 per ton.

Several assays have been made, running from \$5 to \$8 per ton. The company has prospected and had assays made, besides milling tests, and they are satisfied that it is a good low grade ore. This is all they claim. Two or three of the company are old mill men and one especially is a practical chemist and is considered one of the best assayers in Oregon.

A travelling man put in an appearance in the city Tuesday morning with a pattern of bicycle that was altogether new in these parts. So much so that its presence on the streets was sufficient to attract almost as much of a crowd as a circus parade. It is known as the "companion" bicycle, and while it has but two wheels, fore and aft same as an ordinary, it has two seats arranged side by side. There are two sets of pedals, and two chains, but they are connected with the rear axle. Several persons had the courage to mount the thing and ride it around, in pairs of course. The beauty of it is said to be, that if a man wants to take his best girl, or some other fellow's girl for a ride and she doesn't know how, it doesn't matter, the one who does know can manage the thing all right if the novice does not get scared and take too tight a hold on the handle bars. The handle bars are connected so that whichever way one moves the other follows suit and there is no danger of one rider trying to turn one way and the other another. It might do first rate for level bicycle paths, but how would it work on a rough road with a 200-pound man on one side and a 110 pound bundle of sweetness on the other? The agent, however, says the difference in weight would cut no material figure. A few of the more courageous of our cyclists tried it and pronounced it out of sight.

The Clam Bake. There is to be a big excursion of the Elks to Yaquina bay next Sunday. Excursion tickets will be good Saturday, Sunday and Monday. Persons desiring to go from here who could not get away Saturday night go on the early morning overland Sunday and be in Albany in time to catch the excursion train. Elks will be there from all parts of the state and on Sunday evening the Newporters will have a monster clam bake in honor of the visitors. This excursion has been talked of for two or three years and now it is determined upon the "best people on earth" are resolved that it shall be a howling success. The fare from Roseburg to Newport and return is \$6.25. If there is one thing more than another that the Elks are noted for it is their capacity to extract all the enjoyment possible out of life, not only for themselves but for their friends and they do not propose to be behind hand on this occasion. Further, if Roseburg should provide a good delegation on this occasion it might have the effect of securing for us a little better seaside excursion route to Yaquina for the summer season.

Class Meeting. There will be a mass meeting of the Young Peoples' Society of Christian Endeavor at the Christian church on Monday evening, June 28th, 1897, at 7:30 p. m., at which will be present Mr. H. S. Gile, state president of the Oregon C. E. Union. Mr. Gile will deliver a lecture relative to the international convention soon to be held at San Francisco and what it means to the Pacific coast, and is a pleasant speaker whom all should hear. All are cordially invited to attend.

Examination of Poole.

Albert Poole, who was arrested at Weiser, was taken before Justice Hamilton this morning for examination. Mr. Hamilton, who appeared for the state with Deputy District Attorney Riddle, asked for a continuance to tomorrow on the ground that a material witness was not here and thought by that time the state would know whether he would be here and when. Mr. Crawford, on behalf of the defendant objected. The court denied the application.

R. M. Dunham, express messenger, was the first witness, who told the story of the hold up in Cow creek and said the defendant resembled the short robber.

W. H. Reed, of Tacoma, a passenger, who put his head out of the window and drew it back again when peremptorily ordered to do so by a voice behind a pistol, was next called. The defendant resembled the man with the pistol.

Walter Rotenburg was in the smoking car, saw a man resembling defendant look in at the back door. Robert Pentlow, of Canyonville, was going hunting the day after the robbery, about 3 o'clock in the morning; saw a man horseback and two on foot. The one on horseback resembled the defendant.

Frank Plotner was in the train riding in the day coach. The night was a dark one. I only saw the short man's back. As the defendant sat, saw no resemblance. Here the state rested its case and the defendant's counsel moved to be discharged. Motion overruled, and after argument by counsel the defendant was held to appear before the grand jury and bail fixed at \$1000.

Soldiers' Home Board. The board of trustees of the Soldiers' Home were in session Tuesday and yesterday. Present: S. B. Ormsby, president; J. P. Robertson, B. F. Alley, T. R. Sheridan, S. Abraham; George Carpy, secretary.

Considerable routine business was disposed of. The surgeon was instructed to examine all inmates of the home who came there sick, and if they had sufficiently recovered to be able to care for themselves that they be discharged. E. F. Connor came in from Umatilla some time ago, and had so far recovered as to be deemed by the surgeon able, with the aid of his pension, to rustle for himself.

The commandant reported the Home as requiring 200 cords of wood, a woodshed for the hospital and a laundry. These matters were referred to the executive committee with authority to act, also to continue the insurance on the buildings and place \$2000 on the hospital.

Miss Viola Mann, a trained nurse, was employed as matron of the hospital. Rules 13 and 14, that apply to the pensions of the inmates were discussed, but no action was taken except to instruct the commandant to observe the rules, but to keep the funds in his possession until the further order of the board.

Absence of Body. An Irishman was once asked what was the best substitute for presence of mind in a time of imminent peril. He replied "absence of body." The other day in the yard at Roseburg a freight crew were engaged in the making up of a train. One brakeman was on top of a car to handle the brakes in the making of a "flying switch." The track was slippery and the wheels would slide. It was evident that there was to be a collision of no small force between the moving car and a number of others that were standing on the sidetrack. The brakeman watched his opportunity, and a fraction of a second before the coming together of the cars he jumped into the air, and when he came down the collision was over. He escaped a good shaking up. There was both presence of mind and absence of body.

The man and his wife who are passing through the country giving "write ups" of the towns and who came to this office well recommended, seems to have fallen upon hard lines. The Yreka Journal of Tuesday says: "G. B. Anderson, who was charged with defrauding the proprietor of the Yreka Hotel out of a board bill, was brought back from Sisson last Saturday, and placed on trial at the court house before Justice of the Peace Thomas, on the afternoon of that day. J. P. Wetzel appeared for the defendant, and District Attorney Raynes conducted the prosecution. The defendant demanded a jury trial, and after securing a jury of six, consented to try the case with that number. The jury was out only a short time, and rendered a verdict of guilty. Justice Thomas sentenced the man yesterday morning to pay a fine of \$30, or serve in the county jail for a period of 30 days. In default of the fine, the defendant was taken to jail. The woman who was traveling with him, will be tried today upon a similar charge."

"Young people for the 20th century" will be the subject of an address to the young people at the M. E. church next Sunday evening by the pastor, Frank L. Moore.

Work is begun on the Columbia and Southern railway. This runs from Biggs, about 20 miles east of The Dalles, California toward Prineville.

California experienced quite an earthquake shock last Sunday. It was general throughout the state but heaviest in the vicinity of Salinas.

There will be mass at 10 a. m. Sunday at the Catholic church, and vesper at 7:30 p. m. All denominations are invited to attend.

Owen and T. C. Attorney and Thomas Day of Mount Scott, were at the McClallum yesterday.

W. R. Wells, postmaster at Ollala, is in town today.

J. G. Hefty of Drain was in the city yesterday.
