The farmers of Sherman county are getting ready to harvest the largest crop ever known in the history of that county. The Sheridan property on Oak street has been improved by the construction of a new sidewalk from Main to Jackson.

Cornelius Roberts, a former resident of Umatilla county, is in the city. He is looking about with the view of purchasing a house. From the looks of the McClain register there are lots of folks in town from Klondyke. But then the railroad boys are such "jokers."

Dr. H. R. Littlefield, who is interested in Ollala diggings, has left for the gold fields of the Clondyke, together with other Portlanders. Mrs. Ross Wilcox, nee Buffington, formerly of Oakland, is quite sick at Portland, where she is attending the Portland Business College.

Travel southward has materially slackened up. Passengers from this point find no difficulty in securing Pullman accommodations, but northward there is still a rush. The prune orchards in and around Riddle are in a flourishing condition and will yield enormously. It is estimated that 20 carloads will be shipped from that point this season.

Hon. Tom Vaughan horsewhipped a paragon named Matthews at Coburg the other day. The subject of discussion that led up to this climax was the late session of the legislature. Jackson of Melrose, came up Friday with a load of apples which he disposed of in the city. They were good and the big ones were in the bottom of the boxes, not on top to deceive purchasers.

G. W. Bashford & Co. "Lift up your eyes and look upon the fields, for behold they are white already to harvest." And the harvest in Douglas county this year will be better than for some years past. The next thing is the price. Grain will bring a good price. That is conceded, but about fruit, it is still a question. There is one thing that is, however, it is better to have a big crop and a small price than no crop and a big price.

The good citizens of Marefield, Myrtle Point and other towns in this county have complained somewhat of a sugar famine. It came at a serious time with them, and should not have been at all. But Coquille had been much worse off. We were out of flour, sugar, butter, eggs and fruit jars, and steamers and trains would come and go without replenishing to stocks of the first two named till our people were much discommoded.—Coquille Herald.

The premium lists for the fair of the Second Southern Oregon District Agricultural Society have been received and can be had at the store of H. C. Stanton. This fair will begin on August 31st and continue five days. The management is putting forth every effort to make this a success, and the improved conditions and good crops will enable the farmers to make a good showing. Let everyone take an interest therein. Those annual gatherings may be made occasions of both pleasure and profit, for thereat exchanges can be exchanged concerning methods and results.

Richards, sup't. of moral contest work; Mrs. Buzele and Mrs. Ferguson, treasurer of Edenbowet W. C. T. U., left for Myrtle Creek by private conveyance early Saturday morning to visit the Myrtle Union and also to attend the Dunsmuir Medal contest, which took place Saturday evening. The trip was most enjoyable and was made in about three hours. The ladies report having been highly entertained by their Myrtle Creek sisters.

A. B. Hanna Jr., of Elkton is assisting in the assessors' office. J. B. Farnsworth of Willbur was a guest at the McClain Tuesday. It is said the orchestra will give a dance at the armory Saturday night. Miss Lela Bradley left on Sunday for a visit with friends in Lane county.

The Walter L. Main circus with "Hollywood" attachment is at Eugene today. W. W. Bretherton, representing the Southern Pacific, was interviewing the assessor Tuesday. Mrs. McKenzie, whose life was almost despaired of on Tuesday is now doing nicely and will recover.

About all the extra men of the Southern Pacific have been kept fully employed handling the specials lately. The Sugar Pine Door & Lumber Company of Grants Pass, have bought a large sawmill plant four miles north of Cottage Grove. Hodson & Hamlin have added to their bicycle repair outfit a turning lathe. They will be able to make bicycles soon, if they keep on.

The Rice Flint-Aiken-Graves carpet party has returned from their outing at Dodson's butte, and the remaining brewster campers are looked for daily. Some exceedingly rich rock from the Elk creek country has been assayed in Ashland, showing up to better advantage, it is said, than any previous assays from that section.

Mr. John Stearns, formerly clerk of the St. Charles hotel, left last night for Douglas county, to put in the summer hop-picking, to raise a stake for Clondyke.—Oregonian. Mr. David Bunch of Looking Glass, who is quite sick, has come to the city for medical treatment and is domiciled for the present in rooms at the residence of W. F. Benjamin, 405 Washington street.

Don't allow yourself to be caught by any bunco game at the circus grounds tomorrow. It is said the managers of the coming show do not allow anything of that kind, but somehow they usually are on hand. There has been lots of Clondyke talk here lately but so far F. Brundage, J. E. B. Cartwright and Henry Bark are the only ones that have started. Dr. Bradley will go tonight, but may go no farther than Junction and then return.

The Williams Valley Chautauqua Association closed a successful season at Gladstone Park, near Oregon City, Saturday. The Southern Oregon Association at Ashland also closed a most successful gathering since its organization, on Friday last.

There seems to be no abatement of the Alaska fever and many a poor creature will leave his bones to bleach in that inhospitable clime before next summer; that is, if he remains do not freeze so solid that the bleaching process cannot reach the bones. We are in receipt of a well written communication from James Inman of Looking Glass. It is rather too long for publication in a country paper. It would make a good article for a magazine devoted to the discussion of theological subjects.

James A. Armstrong, who was temporarily in charge of the residence of A. W. Stanton at Brockway, was found dead on the kitchen floor last Thursday by some campers who called to purchase hay. The deceased was subject to apoplexy, and aged about 55 years.

The New Era Flour Mills have been thoroughly overhauled by the new owners and they solicit patronage, guaranteeing first-class work. One grade of flour for all. Forty pounds of flour per bushel given for wheat. Cash paid for wheat, rye, corn, buckwheat, etc.

G. W. Bashford & Co. "Lift up your eyes and look upon the fields, for behold they are white already to harvest." And the harvest in Douglas county this year will be better than for some years past. The next thing is the price. Grain will bring a good price. That is conceded, but about fruit, it is still a question. An enormous beetle affords the counter of the McClain. J. G. Day, Sr., came up from Portland this morning and went on to Ollala. The ice cream social given by the militia boys last night at the armory was quite an enjoyable affair.

The lobo who was shot while entering a cabin on Cow Creek about six weeks ago, is in the hospital at Salem. Judge Stearns reports the hop yards about Oakland as infected with lice, but the yield will be heavy, just the same.

A disease supposed to be black rot has destroyed the peaches in an orchard belonging to Zierolf Bros. south of Corvallis. The proper way to build health is to make the blood rich and pure by taking Hood's Sarsaparilla, the one true blood purifier.

There will be preaching at the Pine Grove church on Sunday, August 1, at 3 o'clock, by Rev. White of North Yamhill, Or. All are cordially invited to attend. Joe Farnsworth desired to have H. L. Roadman bound over to keep the peace, but Justice Hamlin did not deem the evidence sufficient and let the young man go.

L. R. Fields, superintendent of the S. P. Co's. lines in Oregon, was in the city last evening. He was accompanied by his brother-in-law, Professor Groat, of Portland. F. M. Ziegler, for twelve years past a trusted employe of the PLAIN DEALER, has severed his connection herewith to devote his attention to the business of Ziegler Bros., proprietors of the Depot Grocery.

C. W. Johnson, once Mr. Cleveland's carpet bag register of the land office here, has got himself into trouble in New Orleans. He represented himself as connected with the treasury department, and a further charge of dealing in Chl. use certificates, is lodged against him. The freight war between the S. P. railroad and the O. R. & N. Co., will cease August 1, when a revised freight schedule will go into effect between San Francisco and Portland. A cessation of the present low passenger rates between the two points may also be looked for as a result of this understanding.

The twelfth annual catalogue and guide book of the state normal school at Drain for the year 1897-8 is on our table. This school is one of the institutions of Douglas county of which we are justly proud. Its management and its record is such as to commend it. It is entitled to and should receive a liberal patronage from this part of the state.

J. G. Day Jr., of the Ollala mines, was in the city last week. He came down for the purpose of earning the right to wear the antlers of an "Elk," but while here, speaking of the excitement concerning the gold fields of the Clondyke, he said there was some pretty good "Clondykes" in Douglas county, and he ought to know.

The contract for the completion of the road from Oakland to the Bohemia district has been signed by the parties in interest. Mr. Fay of Salem being the contractor. A number of men will be employed forthwith at \$1.50 per day, but they will be required to pay 60 cents a day for board. The contractor will employ local labor if he can get it.

P. J. Jennings of Cottage Grove recently received \$4000 in gold from the United States mint at Philadelphia, the result of the March cleanup from his mine near Riddle, accompanied by a letter from the department stating that it was the finest gold he had received in many years—within 3 per cent of pure gold—and inquiring where it came from. This is the mine P. B. Sherwood made such a rich strike in last February.

Mr. Mills, who a few days ago was reported lost at Gold Mountain, came in yesterday very much alive. He says there is plenty of gold bearing quartz at Gold Mountain but it is a low grade proposition, free milling, however. What is needed to determine the value and extent is a tunnel in the hillsides that will tap the vein 300 feet below the surface. If it continues in quantity and richness that far down as at the surface then it would justify the putting in of mills, as quartz could be quarried out and there would be little waste. There is plenty of water for operating machinery.

A little girl of J. Fielder's was drowned recently in Rogue river, near the mouth of Jump-Off-Joe creek. It seems the mother and two smaller children were sitting in the back of the boat while she held the two little ones in by holding one on either side of her, when the current whirled the boat around and tipped the mother and both children out into the water. Chas. Van Dorn, who was rowing them across, and an elder daughter of Mrs. Fielder's was occupying the front of the skiff, and they succeeded in getting Mrs. Fielder and the eldest child out, but were unable to save the baby.

Teachers Elected.

At a special meeting of the board of directors of district No. 4, Roseburg, Wednesday afternoon, the following named teachers were elected for the ensuing school year which will commence Monday, September 29, 1897: Professor F. Brown, grade 3; Miss Sarah Wimberly, grade 2; Miss Lela Parrott, grade 1; Miss Elmira Bailey, to teach the Edenbowet school; Miss Lena Hodson, superintendary. Grant Singleton being the lowest bidder, \$15 per month, was awarded the place as janitor.

BEEF SUGAR.

A Prize Within Our Grasp.

Ed. Plaindealer: Not with undue haste, but with deep earnestness should we consider this problem, now fairly before us. Let us remember that farmers generally, unused to the ordinary business changes and opportunities of active life, reach conclusions on important matters more slowly than those engaged in more stirring operations. But we believe when fairly understood the change in part from grain to beet culture presents less difficulties and promises greater benefits than almost any other change that might offer.

The beet sugar business has grown from an invested capital of \$900,000 in seven years to \$6,500,000, and the output of sugar from 1,600,000 pounds to 120,000,000 pounds; the acreage of 2,100 to 25,000 in the same time, and the projected increase for the coming year will be in even greater ratio. Has not this business passed the experimental stage? The pioneers have opened the way; the government is encouraging the business; the capital of the country is seeking investment in this line, and yet Oregon, endowed with every resource for the successful "consummation so devoutly to be wished" is timid and fearful, while her sister Pacific Coast state, goes forward with leaps and bounds in the magnificent enterprise. The present season the output of sugar in the four factories of California will be 65,000,000 pounds as against 20,000,000 for Nebraska, Utah, New Mexico and Wisconsin. There is no danger in overdoing this thing. It would take 250 factories with an annual output of ten million pounds each to supply the place of our imported sugar; and as Secretary Wilson of the department of agriculture says, we are paying one hundred million dollars for imported sunshine annually, when our own fair land has it in abundance. His idea being that sunshine and moisture, with proper labor, makes the sugar. Don't be afraid you cannot find labor to raise the beets. Your land will be quickly taken by renters, if you cannot work it yourself, and experience proves that in other places renters are more plenty than land. Set the great army of the unemployed at work, then when everyone is profitably employed prosperity will visit you, your land will be multiplied in value, and the worth of every article of property increased.

I will now try and answer in a short space a few of the objections offered: "We cannot afford to plant beets unless we have a guarantee that we can sell them at a good price." The answer is: that there are two parties to the contract and while you are obligated to plant so many acres (not more to tone up the factory men are obligated to take them at the contract price. Again, it will only take you five or six months from the time you plant until you deliver at the factory, although previous preparation of your land may be advisable, while the owners of the plant will be a year, or nearly so, in building, etc., and will expend a large sum of money before you plant a beet.

Another objection: It takes too much land, if I can use the same piece only once in three or four years. Generally it is good farming to rotate crops; but we do not consider it necessary in the comparatively rich lands of the Pacific Coast, and you can be your own judge of the capability of your own land.

Third objection: Some want to know exactly what the railroad company will charge for freight. The company will not, in advance of the knowledge of details, make rates, but experience goes to show that the Southern Pacific and other companies have made liberal rates elsewhere, and will do the same here. I understand the company has intimated that it will make the same rates here as in California, which are low. It is their interest to encourage the enterprise, for the reason that not alone in the matter of hauling the beets and sugar would be their reward, but sharing in the general prosperity that would come.

Come up like men, pledge your land to this worthy enterprise, and every man, woman and child in Douglas county will be benefited.

Henderer.

Eliza Henderer (nee Carmichael) was born in Tennessee in 1825 and died at her home near Elkton, Or., July 19th, 1897. In 1858 she was married to Chas. G. Henderer in Missouri. To them were born four children, three of whom survive her, and together with the husband mourn the loss of a loving wife and mother while the community mourn the loss of a kind neighbor and a Christian mother, who has gone to rest with her Saviour whom she has faithfully served for more than half a century. Mother Henderer united with the Baptist church in early womanhood, living a consistent Christian life, and in 1890 she united with the Christian church and died in full faith in the promises of God.

A large concourse of people followed her remains to the family cemetery near where she had lived for nearly forty years, and where her oldest daughter, Mrs. Saviour, was buried in 1863. Elder Huddleston conducted the funeral services in a quiet and very impressive manner. The aged husband and children have the sympathy of the entire community in their sad bereavement. G. W. B.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the Liver and Kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle at A. C. Marsters' Drug Store.

The Road to Bohemia.

Oakland Gazette: The city council, at its Wednesday evening meeting, granted the prayer of the petition of the citizens of Oakland making an appropriation of \$1,000 for the completion of the Bohemia road. The money is now available, and the contract will probably be let Monday. This action is in line with the suggestion made by the Gazette a month ago, and as the money will be derived from license on the road, will be built without an extra tax levy.

The completion of this road means much for Oakland. It means an expansion of every branch of her business. It means that Oakland will become the gateway to the Bohemia mines and the point from which supplies will be distributed to this extensive mining field. The road will terminate at the Musick mine or Bohemia city, and can be easily reached from all points. The route is the shortest, no heavy grades, no swamps, no "hard scrambles," and is in every way the most practical, and its completion will give an impetus to Oakland that will be felt by every inhabitant thereof.
