NOTE AND COMMENT.
Look out! That Salem hog is liable to gobble up the "Webfoot Queen."—Eugene Register.
Boston preachers devoted much of their discourses Sunday to football, generally defending the game.
By the time the year 1900 arrives, when a new president is to be chosen, it will be found that the country is again upon a substantial footing and no party that attempts to demand further tinkering with the tariff will get a hearing.—Wilmington (Del.) "News."
Governor Budd is inclined to be an optimist. For some reason not clear to people in general he seems to think that after a while Durrant will be hanged. It is worth while noting that Durrant not only does not share this belief, but has lawyers and court to command to sustain any view he may take of the case.—Call.
Men should be elected to office who possess enough of the spirit of self-sacrifice to think at least twice for the people and the community to every time they think for themselves. Men who seek office solely to advance their self-interest cannot add to the strength of a government of the people nor improve conditions.—East Oregonian.
The payment of so much mortgage indebtedness has made a decided change in the real estate market. Last year there were so many heavily mortgaged estates that nearly everybody wanted to sell, and as a consequence there was a depreciation of values. The large crops and general prosperity have changed the conditions and there is a decided advance in the value of real estate.—News.

Countries which are operating upon a silver basis have been bordering on panic during the last year. Silver has decreased twenty per cent or one-fifth of its value during that time. Thus, if a man loaned \$500 he would receive but \$400 in payment; he would receive five hundred silver dollars in payment for the five hundred silver dollars which he loaned, but they would be worth in the market of the world but four-fifths of the value loaned. This is a condition which would exactly suit the people to pay their debts in depreciated money.
The new tariff comes in as a steady, potent regulator of prices and production, throwing work to our own factories instead of foreign ones, and every million of workers to find work and secure wages. A nation of 70,000,000 cannot afford to be dependent upon other nations for steel rails, tin plates and other metal wares, for textiles, for pottery, for chemicals, for sugar, for fruit, for cotton, for tobacco or for any other standard materials. The Republican party thoroughly believes in the doctrine, and the republican belief is embodied and made potential in the republican tariff.—March "Gazette."
A republican protective tariff, now just two months old, has in its practical operation more than fulfilled every prediction of its friends of this historic American policy, and confounded every prediction of its enemies. It has brought back prosperity to business; it has reopened the idle mills and given new and powerful impetus to manufacturing; it has already increased the national revenues, and it has done all this, not only without an impairment but actually with an improvement of our foreign trade—for our exports for the month of August, the first full month of the Dingley law, were the heaviest of which there is any record.—Boston, Mass. Journal.
Oregon is rapidly recovering her old reputation for the unrivaled excellence of her apples. The new orchards planted after the old ones were allowed to run down are producing even finer fruit than of the older time. Oregon's apples are simply incomparable, and create astonishment both East and in Europe—the more when it is found that flavor corresponds fully with beauty, color and size. Owing to the presence of orchard pests it takes more work to grow fine apples than formerly, but work, directed by intelligence, will produce the result. Oregon is unapproachable for apples, and since the new orchards are now fairly coming into bearing, the reputation of the state for apples will steadily grow.—Oregonian.

The supreme court is no doubt correct in its interpretation of the fine point of law upon which appeal was taken from the decision of the lower court in the case of Daniel Magone, who has been indicted and convicted of the unlawful distillation of a human body. But the result is a little hard on the taxpayers of Multnomah county, who have paid once for the just conviction of this ghoulish robber, upon evidence of his guilt that was not only indisputable, but practically undisputed. The technicality having been submitted to that body, the supreme court could do nothing less than render a decision in accordance with the law in this instance. It is the lumping up of such technicalities, the object of which is merely to make business for an army of surplus lawyers, that causes the taxpayers to become restive at times under the ill-fitting or ill-adjusted collar called justice.—Oregonian.
That great business improvement has come to the country since last July is conceded by all intelligent observers; and that this is due largely to the passage of the Dingley tariff must also be conceded. Whatever may be the operations of the new tariff, the restoration of confidence brought about by its passage put into operation millions of dollars which had theretofore been lying idle, and gave employment to hundreds of thousands of hands. It caused the country to undergo a change such as had never before been witnessed by many of the present generation, idle factories and furnaces to start into new life, and the hum of industry to sound from state to state. The new tariff is likely to warrant the confidence placed in it, as its revenues are satisfactorily increasing month by month, and it will be but a short time when the treasury will have a monthly surplus instead of a deficit, as has been the case for the last four years.

For Over Fifty Years.
AN OLD AND WELL-TRIED REMEDY.—Mrs Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children when teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Beware and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

NEWS NOTES.
Sweden has sent out an expedition to hunt for the lost Andree.
The immigration dispute between Italy and Japan is nearly ready for arbitration.
The average duration of human life has doubled since the days of the Roman empire, says Facts and Fiction.
Our foreign commerce this year is \$300,000,000 ahead of 1896. If the new tariff is disturbing the markets of the world it must be favorably.
The Ohio counties in which Mr. Bryan spoke in the late campaign increased their republican majorities 997 votes over those of last year.
Independence West Side: Hops at 13 cents a pound are not bad but our hop men say they will get more than that by not selling until later.
The October statement of the national banks of the country showed that the individual deposits in the national banks were \$233,000,000 in excess of those of one year ago.
A revolutionary club has been formed at Havana and named the "Public Salvation Club." Its object is to avenge all Cubans who have been murdered, as Maceo, Castillo and Zayas.
The republican strength in the South continues to grow year by year and congress by congress. The 56th congress will have the largest Southern republican representation in history.
Texas has a blind woman who actually clears about \$200 yearly from a little farm where she raises vegetables. The woman's exquisite sense of touch tells her the ripeness of a vegetable or berry.
Secretary Alger has requested the secretary of the interior to instruct Alaskan officials to gather about 800 head of reindeer from the government herds for use in an expedition for the relief of the ice-bound whalers in the Arctic.
The Goodell Refrigerator Company of Eugene has dried about 20 tons of apples in the company's drier. The company expects to continue the work as long as apples can be procured which will probably for some weeks yet.
The secretary of war has approved General Miles' estimate of \$600,000 for the fortification of the Columbia river; of \$1,140,000 for the defenses of Puget sound; of \$1,330,000 for San Francisco, and of \$725,000 for San Diego.
General Valdemaras was attacked yesterday by the forces under Juan Belgado, at Peas Seco, says a Key West dispatch. The battle lasted several hours and the Spanish were defeated with heavy loss, losing 29 killed and many wounded.
The number of business failures in the last week of October, in the first year of McKinley's administration, was 218, while the average number of the last week of October for the past four years of Cleveland's administration was 28.
The town of Jacksonville is likely to be turned upside down. Some recent discoveries indicate that there are rich gravel deposits under the houses and the townsites may be more valuable as a placer mine than for the buildings thereon.
Andrew Johnson, an old pioneer of Coos county, tried to commit suicide yesterday by taking strychnine, says the Peas Seco Recorder. The dose proved so small, and he slashed his throat several times with a knife. Domestic trouble was the probable cause.
A fruit pest bill has been introduced in the New South Wales assembly in order to keep out fruit infested with pests. A shipment of American apples affected by certain insects was recently landed at Sydney, and legislation to prevent future shipments will be enacted.
A postal card comes to The Oregonian containing the inquiry: "Why doesn't Mayor Penney convert his idle sawmill into a dancehouse, so that 'ladies who have no opportunity to go into society' may enjoy dancing?" Here is a suggestion for "the friend of the people."
Chicago is much interested just now in "Ann the kisser." This mysterious woman's victims are policemen. She catches one dosing and immediately impresses several swift and noisy salutes on his bleaching cheek. Ann is fairly young and quite handsome and the chances for her arrest are poor.
Something over a year ago Mr. Bryan was stating that the only way to increase the circulating medium of the country was by the adoption of the free coinage of silver, and yet the treasury figures show that today there are millions and millions more money in circulation than when this statement was made.
Harrisburg is entertaining one of the biggest revivals ever held in the city. The meeting commenced on the 11th of October and has continued ever since. The church would not accommodate the large crowds in attendance and the city hall was secured for Sunday services. About fifty have professed religion.—Guard.
The combined ages of six men who acted as pallbearers at the funeral of James Grigsby (himself 95 years old), at Grace Methodist Episcopal church, Indianapolis, was 493 years. The men and their ages are as follows: T. M. Child, 81; J. F. Daugherty, 85; G. W. Ryan, 84; D. G. Kern, 79; D. Shearer, 77; J. L. Avery, 82.
His health permitting, Mr. Gladstone meditates an important biographical work embracing the lives of most of the distinguished modern divines, but there are disquieting rumors in circulation as to the manner in which old age and infirmities are growing upon the "grand old man." He seems to be developing facial weakness similar to Prince Bismarck's.
The children of James G. Fair will file a contest of the trust will, the original of which was stolen from the county clerk's office after being put on file. The object of this contest is to divide the estate and have it freed from the conditions of the trust imposed by the late senator. This will make a harder contest than that by Mrs. Craven, which was recently disposed of.
Theodore Roosevelt, assistant secretary of the navy, says: "The Congressional Record will show that, notwithstanding all the war talk that has been indulged by certain members of the senate and house, those who daily declare war against Spain, Germany, Japan and the rest of creation generally, are found

among those who vote against liberal appropriations for the army and navy. Which no doubt is just so.
While England is fighting on the Afghan frontier, Russia is building military roads in the Pamir region close to the boundary of India. One has just been completed over the Ak Baital pass, at a height of over 15,000 feet. It can only be used by carts, and was begun in July. Another has been made near the Karne Tata boundary, and it was intended to complete another before the cold weather set in at the Bordoba boundary, in the Alal valley.
The two occupants in the county jail at Eugene—a man and a woman—have revived a childhood acquaintance, says the Register. The woman is confined in the women's cell, but by going into the corridors the two prisoners are enabled to converse with each other by talking pretty loud. It seems that both of them went to the same school in childhood long ago, and this is the first time they have met since that time.
Senator Perkins of California declared that he is opposed to the granting of a territorial form of government to Alaska at present. When congress convenes he proposes to introduce a joint resolution providing for the appointment of a commission to prepare civil and criminal codes for the government of Alaska.
The senator favors the plan of Louis Slone to divide Alaska into convenient districts, each to have a United States commissioner empowered to enforce the laws.
It is understood that, if samples which have been submitted to examination at the Smithsonian institution stand the required test, the customs building soon to be erected in Portland will be constructed of Oregon stone. This is gratifying, not only as tending to advertise and create a market for this product, and the value of which has been practically unrecognized heretofore, mainly through lack of development, but as encouraging proper pride in the substantial resources of the state.

Witty Rejoinder.
Judge Pipes, having been informed that he and Judge Fenton had been barred out of the democratic party, said in a letter for publication: "It has set me to thinking. I was at a loss how to express my unconcern at this complicity. Nothing in literature seemed adequate. I thought of what Iecitus said of the absence of the statues of Brutus and Cassius from the general of Janus—'They shone by being absent.' But that seemed conceited. Then I thought of the old song about the gentleman and the pretty maid:
"I won't marry you, my pretty maid,
" 'Nobody asked you, sir,' she said."
But that wouldn't do. We aren't pretty maids, and the others are not—but why pursue the subject?
At last I chanced this evening to be reading of Marjorie Fleming, Walter Scott's wonderful little friend, and her poem on the turkeys. I found the lines that fit the case:
"She was more than usual calm,
"She did not give a single dam."

Catarrh Cannot be Cured
with Local Applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

The wise doctor when he is called in to attend a pain-tortured woman, knows that she could avoid the agony that she endures by taking proper care of her womanly self. No woman can long retain her general health who neglects the health of the organs that constitute her womanhood. She may suffer only locally for a time. Eventually the nerves are ruined by the constant near and long pain. They cease to impart the necessary nervous activity to the various organs of the body. A general and serious break-down follows.
A wonderful medicine for weak, nervous women, who through local troubles are threatened with a general break-down is Dr. Pierce's Favorite Prescription. It acts directly on the delicate organs that are distinctly feminine. It restores them to vigor and health. It allays inflammation and soothes pain. It gives the tortured nerves a rest and permits them to resume their natural function of directing a healthy activity of all the organs. It prepares a woman for wifehood and motherhood. It makes baby's advent easy and almost painless and insures the child's health. It is the best woman's medicine and more than 30,000 women have said so over their signatures. Druggists sell it.
"I cannot say too much for Dr. Pierce's Favorite Prescription," writes Miss Clara Baird, of Bridgeport, Montgomery Co., Pa. "I feel it my duty to say to all women who may be suffering from any weakness or disease of the distinctly feminine organism that it is the best medicine on earth for them to use. I cannot praise it too highly for the good it did me. If any one doubts this give them my name and address."
Dr. Pierce's Pleasant Pellets are a sure, safe, speedy and permanent cure for constipation, flatulency, headache, indigestion, a gentle laxative, and two a mild cathartic.
