FUSION DIDN'T WORK.

The Attempt to Swallow the Populists of Polk, Failed.

A Dallas dispatch of the 9th inst. to the Nation states, says: The Polk county populists met in county convention in the county court room here today for the purpose of nominating candidates for the various county offices.

The silver fusionists came into the convention with a "stuffed" delegation and, much to the annoyance of the middle-of-the-road populists, and sought to control the convention.

It is evident by the remarks of the chairman of the convention, Dr. Embrie, that free silver is as dead to a populist as it is to any one that is not trying to ride into office on this pretext.

It seems that the middle-of-the-road men agreed with their chairman, for when the "stuffed" delegation went into the hall to force free silver into them, it precipitated a row that made it necessary to call on Sheriff Plummer and his deputies to quell.

The middle-of-the-roaders then proceeded to nominate a full ticket, viz: Representatives—T. B. Embrie, and R. Shirkley.

Some of the people who are engaged in work with some in black and white that more than 250 industries resumed work in the past year, at an increase in wages from 10 to 20 per cent.—Reporter.

Butter has long been extracted from new milk, without the labor of churning but now a Baltimore man claims to have invented a method of making butter directly from cream.

The London Tit-Bits says monkeys work in the mines in the Transvaal, with perfect method and precision.

The Bryan party are the only silver people in the world except the Mexicans and here is the difference between them: The Mexicans are trying to get the gold standard, while the Bryan free silver party seem eager to accept the fiat of financial policy of the world.—Union.

Close upon the heels of the assassination of President Barrios, of Guatemala, comes news that Prosper Morier, leader of the revolution, has been declared a rebel.

Mr. Hanna's Ohio enemies failed in their effort to make Senator Jones, of Ark., chairman of the Democratic National Committee, their agent on the floor of the United States senate to the extent of offering a resolution in opposition to Mr. Hanna's right to his seat.

The free silver orators who insisted in 1897 that farm products could not advance without the free coinage of silver would do well to look up the prices at which wheat sold in Chicago last week before they attempt to use their old manuscript in the campaign of 1898.

An old decrepit printer passed through this place en route to Roseburg Tuesday. He informed us that for the past three months he had been doing all of the manual, and we presume, most of the mental labor on J. H. Upton's paper.

As a result of the publication last week of a letter written by Senator Enrique Dupuy de Lome, Spanish minister at Washington, to Senator Canelajas, Premier Sagasta's former special agent in Cuba, which document contained serious strictures upon the president of the United States because of the latter's Cuban policy, instructions have been sent to Minister Woodford, at Madrid, to inform the Spanish government that the usefulness of Le Lome as its representative in Washington has been terminated by the incident, and requesting his recall.

The January customs receipts under the Dingley law were more than 25 per cent in excess of the customs receipts in January of last year under the Wilson law.

How Like Some Oregonians. Chicago Tribune. The senate is hopeless. It is rotten to the core. The democratic senators who stood by Cleveland while he was fighting for sound money have all gone over to the enemy, with the solitary and honorable exception of Cullery of Louisiana.

Senators Murphy, Smith and Mitchell informed by their votes doctrines which are abhorrent to their constituents, as to honest men everywhere, simply because they would rather be in fellowship with "the democratic party" than with the reputable, moral part of the community.

NOTE AND COMMENT.

Whatever else may be said of ex-President Cleveland, he is true to his Observer.

As good as gold—the resolutions adopted by the state league of republican clubs.—Newberg Graphic.

Fifteen people were burned and \$1,000,000 worth of property destroyed by a fire at Pittsburg, Pa., last week.

Let it be hoped that the mingled smiles and tears of an April day at Astoria will completely cement the fracture in Multnomah's republican party.—Telegram.

A "union" party was organized at Springfield yesterday afternoon. Eight democrats, one populist and one republican signed the membership roll.

Now that the date and place for holding the three political state conventions has been decided on, candidates for nomination on the state tickets will swarm like a hive of bees.—Brownsville Times.

AN ELEMENTARY LESSON.

Base Money for the Bondholder Means Base Money for the Plowholder.

If the bondholders were to be paid with dollars worth less than 100 cents, every other obligation, public and private, would be paid in the same kind of debased money.

Does not the same rule prevail now? Though payable nominally in gold, the bondholder really receives, as a rule, either a check or greenbacks.

Somebody asks what the popocate are going to howl about next spring during the campaign. Don't worry. They will turn the howl.
