"The next legislature should knock out the state militia appropriation."—Chas. H. Fisher.

Hon. A. M. Crawford who is attending court at Coquille City spent Sunday in town on a visit with relatives.—Marshfield Sun.

The map of the United States needs revising any way. Let's take in Cuba and Porto Rico, the Philippines and the Caroline islands.

Young Mr. King, the fusion candidate for governor of Oregon, carries with him a populist orator from Arkansas to do his talking for him.

Will some one please notify Mr. William Jennings Bryan of Nebraska, that co-partnership heretofore existing between the bushel of wheat and the silver dollar, has been dissolved.

Antonia Abington, of the Soldiers' Home has been granted a pension of \$12 per month. Or to put it correctly, a pension has been granted of which Mr. Abington will receive \$4 and the state of Oregon, by virtue of rules 13 and 14, will receive \$8.

Luther A. Wiley, the republican nominee for school superintendent of Linn county, like our Capt. Hamlin, was a member of the O. N. G. and like Capt. Hamlin, he volunteered, with his company and has gone to San Francisco, on his way to the Philippine islands.

The difference between the old and the new naval methods and equipments, is shown by the fact that in 1762, when the British captured Manila, it required a fleet of thirteen ships and almost 7000 men of whom 1000 were lost in the assault on the fortifications. Admiral Dewey has accomplished the same thing, with much less men and ships, and without loss of life or damage to his ships.

Geo. M. Brown, republican nominee for district attorney, who has been making a tour of the county greeting his host of friends and acquaintances was in Marshfield several days the first of the week. Mr. Brown served this district as prosecuting attorney one term and it must be said to his credit that he proved an efficient and capable servant of the people, ever guarding the interests of the state and making a record that he may well be proud of.—Marshfield Sun.

Two years ago, we paid a farmer \$15 for a fresh milk cow. Last week we paid another farmer \$50 for about the same grade of a cow. The first named farmer sold 3000 bushels of wheat last fall for 80 cents per bushel and last week he sold 50 tons of hay for \$10 per ton, and if he had held it a few days longer he could have had \$12. And yet notwithstanding these conditions Bob Veatch is traveling over this congressional district telling the farmers that unless they turn down Tongue, whose vote in congress has helped bring about these conditions, and put him in with his free trade ideas, they will starve to death. Great idea that would be, would it not?

DON'T TRY IT.

Two or three states have tried the experiment of turning their government over to the populists and in every instance they have become heartily sick of their action in doing so. No greater calamity could befall the state of Oregon than to have the word go out that at the coming election the state had elected the fusion candidates for state officers.

There is not a business man or a farmer of any intelligence in the state of Oregon, but knows that the aggregate value of the property in the state of Oregon will depreciate millions of dollars as a direct result of the election of the fusion state ticket if that calamity should befall the state. Every banker to the state knows that in the event of the election of the fusion candidates on the populist platform on which they are running, it would cause the withdrawal of millions of dollars now invested in this state and render it practically impossible to obtain outside capital for any purpose.

Every merchant knows that the happening of such an event would injure his credit immeasurably in the markets of the east from whence he must procure his goods. Every farmer who has investigated the subject knows that such a calamity would depreciate the value of his lands, at the very time when returning prosperity offers him the opportunity of recovering some of the losses caused by the last democratic administration. So far as the state ticket is concerned there is but little danger that the people will try an experiment fraught with so much danger to the welfare of the people as that of delivering the state over to the fusionists. But the danger lies in the fact that thousands of men in the state who could not under any circumstances be brought to support the fusion state ticket, will be induced for various reasons to vote for one or more candidates for county officers on the fusion ticket. In many respects this would be more dangerous than to vote for the fusion state candidates. In most cases the county candidates are less reliable and less to be trusted than the state candidates, and their election would turn the machinery of the counties over to the fusionists and thus enable them to make a stronger fight to carry the state in the future. The man who loves the good name of his state and desires to see her go forward in the march of civilization, should hesitate before casting his ballot for any man whose election would bring disgrace and discredit on the fair name of the state.

FOR JUDGE.

Hon. A. C. Woodcock, republican candidate for circuit judge of the second judicial district is a man whom republicans are proud to defend, whom democrats fear to oppose and whom populists cannot conscientiously oppose. The pride of republicans, because any party is proud of its most able and manly members; the fear of democracy because he has always been one of Oregon's most fearless fighters against the principles which, by birth and study, conscientiously believed to be wrong in theory and dangerous in practice; and the proper man for the populists to endorse, because he has stood out as a member of the state board of equalization against unjust and discriminating assessments, and as a true representative of numerous clients has brought down the enemy of a corporation, which it seems, is now fighting him.

If Mr. Woodcock should be opposed by the Southern Pacific Company on account of his conscientiously representing his clients against the company, it would make 500 votes for him where it would lose five.

Mr. Woodcock has a judicial mind, calm and dispassionate, firm as Gibraltar, and as just and trustworthy a man as can be found. And he is consistent.—Eugene Register.

R. M. Veatch, who now wants to go to congress and occupy the place so ably filled by the Hon. Thos. H. Tongue in the United States house of representatives was in the Oregon state senate in session of 1893. He voted three times during that session against a bill carrying an appropriation of \$20,000 to uniform and equip the Oregon national guard that has just so nobly responded to the call of the president to free Cuba, and without loss of life or damage to his ships.

What would R. M. Veatch do under similar circumstances? His record in the Oregon senate shows that he would vote "no" every time a measure for the defense of the nation was under consideration. Oregon has no use for R. M. Veatch in the halls of congress. Put nose but patriots on guard! Vote for the Hon. Thos. Tongue, who will in turn vote for the defense of the nation every time.—Ashland Tidings.

When Mr. Sovereign of Arkansas, was here two years ago, he told our people that it was impossible for times to improve unless this country adopted free coinage of silver. Now he is back among us with a new calamity tune. He admits that times are better than they were two years ago, but refuses to believe that the returning prosperity is permanent or that it was brought about by the return to power of the republican party. "None are so blind as those who will not see."

Young William J. Bryan would no doubt be glad to adopt the "government by injunction" plan long enough to put a stop to the present war. Never, during the history of this country has the fame of a popular idol been so completely extinguished as has that of the young man whose name but a few short months ago was on every tongue, either in commendation or criticism. Long before another presidential campaign is inaugurated, people will wonder what there was about the man or his sayings that caused him to be so admired. This result would have come about in any event but it was hurried by the present war, which gave the people something of more importance to think about and aroused their patriotism which, in itself, means the passing of the demagogue.

"The Joe Simon republicans are responsible for all the useless commissions now burdening the Oregon tax payers, and for the repeal of the mortgage tax law. What voter can reasonably expect relief from that party?"—Roseburg Review.

The voter cannot certainly expect anything from the populist and democrat representatives. That class of representatives had all the matters mentioned in their own hands and were responsible for the failure to legislate. If Joe Simon was the failure, he could handle but a small percentage of the republican members, but he did completely control all the populists and democrats. If we cannot look to republicans for relief, then we are indeed in a bad fix unless the populists and democrats can pledge themselves to handle Joe.

Even the fusionists admit that F. B. Hamlin will be our next school superintendent. The man who would not hesitate to leave family, position, everything in fact, to follow the old flag when his country called, will not be soon forgotten by the people. The voters will show their appreciation of his patriotic and self-sacrificing spirit by giving him a good rousing majority in June.—Drain Press.

The political speaker has a hard time of it this campaign trying to get the attention of the people, who are more interested in who is to govern Cuba and the Philippines than they are to who shall govern Oregon.

Two and four years ago the populist party of Oregon were demanding the abolition of the national guard. Now they are willing that they may fight Spain, provided that they are paid in fiat money.

Can you trust men, who for the sake of office have sacrificed their political principles as the fusionists have done in this county and state?

Has anyone heard any reason offered by a populist or a democrat why John H. Shupe should not be re-elected county clerk of Douglas county.

Judge A. F. Stearns should receive the vote of every citizen of the county who desires to see the county once more redeemed from debt.

PRECINCT OFFICERS.

The voters of Deer Creek district will be called on to elect one justice of the peace and one constable for the district, which is composed of the following precincts: Deer Creek, Roseburg, West Roseburg and Umpqua.

The republicans have nominated two of the very best men who could have been named for these offices.

For the important office of justice of the peace the republicans have named W. F. Benjamin. No man in the district has a better reputation for honesty and integrity than has Mr. Benjamin. Even those who differ with him in politics, admit that as a justice of the peace, he would be perfectly just and impartial in his rulings and judgments. He is a man of excellent judgment and ripe experience and will make a just and upright magistrate.

For constable the republicans have again nominated H. C. Slocum. Mr. Slocum is so well known and so universally popular, both as a citizen and an officer, that his re-election will be almost without opposition. He has for years held this office to the universal satisfaction of our people and his re-election will be a just recognition of a competent and faithful officer.

Geer at Drain.

DRAIN, May 13, 1898.

Hon. T. T. Geer, republican candidate for governor, W. H. Leeds, state printer, and candidate for re-election; Chas. Moore, candidate for state treasurer; and A. F. Brown, candidate for representative were here last evening making themselves acquainted with a large concourse of people who came to hear Mr. Geer speak. I am glad to say Mr. Geer made many new friends.

At 3 o'clock the town was as still as on a Sabbath, but soon the farmers bringing their families came rolling into the town, and by speaking time, the I. O. O. F. hall could not hold the crowd and many had to stand out by the windows and hear what they could. Mr. Geer was introduced by C. E. Wade, member of the county central committee for this precinct. The republicans present were highly pleased with the speech as was evidenced by frequent applause.

Old Lane Creek is almost solid for Theodore Tilton, our next governor, as well as for all the republican ticket, both state and county. The semi-weekly PLAINDEALER pleases everybody. The Review is losing ground every day in this part of the county.

The state was represented by Attorneys Bennett, Hall and Sinclair; and T. S. Minot appeared for the defendant. The case was called Monday morning and the day until 9 p. m. in the evening was consumed in taking testimony. Tuesday forenoon the counsels were engaged in arguing the case, and after dinner Judge Fullerton instructed the jury.

A LITTLE SUFFERER

Face, Hands and Arms Covered With Scrofulous Humors—How a Cure Was Effected.

"When five years old my little boy had scrofula on his face, hands and arms. It was worst on his chin, although the sores on his cheeks and hands were very bad. It appeared in the form of red pimples which would fester, break open and run and then scab over. After disappearing they would break out again. They caused intense itching and the little sufferer had to be watched continually to keep him from scratching the sores. We became greatly alarmed at his condition. My wife's mother had had scrofula and the only medicine which had helped her was Hood's Sarsaparilla. We decided to give it to our boy and we noted an improvement in his case very soon. After giving him four bottles of Hood's Sarsaparilla the humor had all been driven out of his blood and it has never since returned."

Father Time has to halt when he meets a woman who knows how to take care of her health. Time can't make her seem old.

She may be the mother of a family; that makes no difference. She is bound to be young because her heart is young and there is rich, young blood circulating in her veins. She doesn't need cosmetics and face-powders and skin-preservers. Pure blood is the only true skin-preserver.

But when a woman's blood is full of bilious impurities, she can neither look young nor feel young. Her whole constitution is poisoned with bad blood. It permeates every part. It paralyzes the nerve-centers; weakens the stomach; irritates the heart; preys upon the lungs and bronchial tubes. It reduces a woman to a state of weakness, nervousness, irritability, depression and melancholy. Such a woman can't possibly be youthful, no matter what her age may be. She needs the youthfulness of highly vitalized blood. Dr. Pierce's Golden Medical Discovery will give it to her. It will help any woman to get back her youth and freshness again.

It gives the digestive and blood-making organs and the liver power to produce good, pure, healthy blood. It gives color to the cheeks, and sparkle to the eyes; drives away pimples and blotches; wipes away wrinkles; cures out emaciated forms, and creates firm, natural, healthy flesh.

Mrs. Rebecca F. Gardner of Graham, York Co., Va., writes: "When I was married I weighed 135 pounds. I was taken sick and reduced in health and broke out with a disease which my doctor said was eczema. It treated my disease but failed to do me any good, and I fell away to 60 pounds. I began using Dr. Pierce's Golden Medical Discovery, and thank God and you, I began to improve. Now I weigh 120 pounds and have had when two bottles. I cannot say too much about the medicine. My husband says I look younger than I did the first time he saw me, 15 years ago."
