THE WEEKLY INTER OCEAN

LARGEST CIRCULATION OF ANY POLITICAL PAPER IN THE WEST

It is radically Republican, advocating the cardinal doctrines of that party with ability and earnestness.

But it can always be relied on for fair and honest reports of political movements.

THE WEEKLY INTER OCEAN SUPPLIES ALL THE NEWS AND BEST CURRENT LITERATURE

It is Morally Clean and as a Family Paper Is Without a Peer.

The Literature of its columns is equal to that of the best magazines. It is interesting to the children as well as the parents.

THE INTER OCEAN is a WESTERN NEWSPAPER, and while it brings to the family THE NEWS OF THE WORLD and gives its readers the fullest and fair discussions of all questions of the day, it is in full sympathy with the ideas and aspirations of Western people, and devotes literature and politics from the Western standpoint.

Weekly Crop Bulletin.

Weather.—The total rainfall for the week amounts to from one-quarter to one half an inch. Showers occurred every day from Thursday. The temperature for the week averaged 56 degrees, which is 5 degrees higher than for the preceding week and 6 degrees lower than for the corresponding week of last year. The highest temperature for the week was 85 degrees, on Wednesday; the lowest 38 degrees, on Tuesday morning, when light frosts were quite general.

Crops.—The frosts did no damage. The rains were of benefit; they have assured the success of the year's crop. Some little fear is expressed that the fall sown wheat will become too rank and that it will lodge, but such will not occur unless the rains are heavier and of longer duration than now expected. Fall grain is now heading. Spring grain is about one foot high and very healthy in appearance. The wheat and oat crops will probably be larger than any previous crops in the history of Western Oregon. The hay crop is certain to be very large. Some grass has already been cut for hay in southern counties, and as soon as the weather settles, haying will be general.

Hops have changed very little in their condition. Some missing hills are now showing life, since the rains have soaked the earth. The outcome of the hop crop is yet to be determined.

Strawberries are ripening rapidly, but a few days of warm weather will cause them to ripen rapidly. Cherries also are slowly ripening. Both promise to yield very large crops. Other fruits continue as promising, as heretofore reported.

The vegetables are growing rapidly. Late-planted potatoes are above the ground. The vegetable crop, which usually is large, will be much larger this year.

The general weather conditions today are such that a change to clearing and probably fair weather will take place within the next seven days.
