## GERMAN GUNBOAT

### Driven From the Scene by Dewey's Ships.

The Irene Tries to Prevent An Insurgent Attack on Grande Island--Insolent Action.

MANILA, July 13.—The insurgents on Wednesday, July 6, reported that the German gunboat Irene, in Subig bay, refused to permit them to attack the Spaniards on Grande Island. Rear-Admiral Dewey promptly dispatched the Raleigh and Concord to investigate the matter. On entering Subig bay the Raleigh opened fire on her, whereupon the Irene slipped her cable and steamed out by the other channel. The result of the fire of the American warship was that the Spaniards, numbering over 500 men, surrendered everything.

On returning to Manila the Irene explained that she interposed "in the interest of humanity," and offered to hand over to the Americans the refugees she had on board. Admiral Dewey has declined to accept them.

Governor-General Augustin has issued a proclamation promising to grant autonomy to the islands and offering the insurgents inducements to join the Spanish forces. General Aguinaldo, the insurgent leader, in a reply, said the overtures of the Spanish commander came too late.

A New York Journal copyright cable from Manila says that Admiral Dewey's possession of Subig bay defeats Germany's supposed plans to interfere in the Philippines, and although the attitude of the Germans is still irritating, Admiral Dewey is managing with great diplomacy. He does not expect any trouble with them.

The Woodmen entertainment at Jackson's last night was a grand success in every respect. An unusually large crowd was present to enjoy the excellent programme, consisting of music, recitations and the open installation of officers, followed by one of those elegant lunches which delights the eye, disorders the stomach and makes the festal occasion a success. A few games played, the midnight hour was near and all went home satisfied with the evening's revelry.

The Oregonian in a recent issue satirizes the proprietor of the Drain Watchman, in the fact that she has undisputed possession of the field and knows how to use it. Well we are glad of it, and wish there were more women in possession of newspaper plants.

### ON THE AGGRESSIVE.

#### Vigorous Attack by the Insurgents at Manila on the Spaniards.

MANILA, July 13.—The insurgents yesterday made a vigorous attack on the Spaniards from all sides, with little effect. They shelled the Spanish blockhouses and trenches north of Manila, and captured the Spanish guns at Mesa. There was a furious musketry duel all night at San Juan, Santa Ana, Paeo and Pasay, the Spaniards replying with artiller and musketry. About 400 native infantry joined the insurgents. The insurgents rushed the Malate entrenchments, pushing forward to the walls of the fort, but had to retire at daylight. It is probable that the loss was 100 men on each side.

The Americans and insurgents are acting independently, each conducting their own operations, and hoping to evolve an agreement afterwards. The extent and duration of General Aguinaldo's influence is uncertain, but it is certain that the Mohammedans of the South Archipelago will ignore him.

The insurgents of the island of Luzon and other regions are content to use Aguinaldo until the Spaniards are defeated, when there will be a state of chaos unless a strong force of Americans assume control of the island. The secret Katipunan society, which was chiefly instrumental in organizing the campaign, is not fitted, it is said, for the administration of the government of the Philippines. The Americans are postponing operations until they are fully prepared for any contingency. The natives are proving intractable. About 30,000 American troops are expected here shortly, which will enable them to effectively control the whole of the island.

It is reported that Atachio and four other Northern Philippine leaders, who supported Aguinaldo during the last insurrection until they quarrelled, have returned from Hong Kong, desiring to join Aguinaldo, but have been imprisoned and charged with treachery. It is believed they will be shot.

### Teachers Elected.

The Roseburg school board held a meeting Tuesday and elected the following teachers for the ensuing year: Miss Lena Willis, Miss Lizzie Parrott, Miss Sarah Wimberly, Mrs. O. C. Brown, Mrs. E. E. Richards, Miss Eva Lane, Miss Cora Snell. The principal, Prof. L. R. Travers, was elected some time ago. Miss Snell is from Independence, Oregon. Miss Nellie Wilson was elected supernumerary and John Baly janitor. The Fruitvale school was temporarily discontinued. No changes were made in salaries.

Fisher & Eggers, the contractors, this week began the erection of a commodious residence for H. D. Graves the photographer. The house will be modern and well appointed in every respect, and will be a credit to the city. The well known standing of the contractors is a guarantee that every thing will be first-class.

### MARRIED.

Washington, July 13.—Some concern is felt as to the situation before Santiago largely because of the lack of definite advice. Nothing has been heard from Admiral Sampson directly, save a few messages relating to routine affairs. Up to 9 o'clock officials of the war department stated there was no news of renewed fighting from Shafter.

At 10 o'clock a special meeting of the war board was in session. The conference as far as can be learned, related to health conditions in the army before Santiago. Information received today from the Fifth army corps indicated that there is danger of fever at Siboney and other points. A special cabinet meeting was also held.

Later it was definitely learned that the dispatches laid before the war board and cabinet meeting related to the appearance of fever, which it was feared might prove to be the dreaded yellow fever, among our forces before Santiago. The situation among the troops before Santiago is that there are 14 suspicious cases of fever among the employees of the quartermaster's department. Pending the determination of the exact character of the fever, these men have been isolated and placed under the care of immune doctors and nurses.

The department has received dispatches from Generals Miles and Shafter, and the war department has received a dispatch from the fleet off Santiago. The contents of these dispatches had not been made public up to noon. They had the effect, however, of arousing officials of both departments to activity. The dispatches thus guarded stated definitely that no fighting was in progress up to the time of the last report.

The war department has made the following statement concerning the condition of things in the hospital at Santiago.

On the 11th a telegram came from the surgeon-general saying there were 14 cases of yellow fever in the field hospital which had been established for the care of such cases. Since that time information has been received that a number of new cases have occurred. Everything is being done to check the disease.
