**For a High School.**

At a recent meeting of the school board the principal was authorized to prepare an advanced course of study including two year's work.

Students completing this course will be given credit for their work at the universities, colleges and state normals of Oregon.

To aid in defraying the expenses of this department, a small tuition will be charged. All who desire to attend during the year are requested to notify the principal before August 29th. This addition to the school course will be very popular with those desiring to take the advanced work. It is to be hoped that our people will encourage this movement in every way possible, as nothing would be of greater benefit to our city than a well-conducted high school.

# THE DONS LEAVE.

At 4:55 Sunday the Spaniards Retire.

The Victory is Complete and the Yellow Flag Comes Down—25,000 Prisoners.

WASHINGTON, July 16.—The war department has been informed by General Shafter that the surrender is completed, and the Spanish will evacuate Santiago at 9 o'clock tomorrow.

WASHINGTON, July 16.—The following message has just been received, and is given out by Adjutant-General Corbin: "The surrender has been definitely settled and the arms will be turned over tomorrow morning and the troops marched out as prisoners of war. The Spanish colors will be hauled down at 9 o'clock, and the American flag hoisted." (Signed) Shafter, Major-General.

WASHINGTON, July 16, 9:15 P. M.—The following has just been received at the White House: "Camp near Santiago, July 16.—To the President: I thank you, and my army thanks you for your congratulatory telegram of today. I am proud to say that every man performed his duty gallantly. Your message will be read to every regiment in the army at noon tomorrow." (Signed) Shafter, Major-General.

WASHINGTON, July 16.—The war department has posted the following message: "Headquarters, near Santiago, July 16.—The conditions of the capitulation include all the forces and war material in the deserted territory. The United States agreed with a little delay as possible, to transport all Spanish troops in the district to the kingdom of Spain, the troops, as soon as possible, to embark from the nearest garrison they now occupy. The officers are to retain their side-arms, and the officers and men retain their personal property. The Spanish commander is authorized to take the military archives belonging to the surrendered district. All Spanish forces, known as volunteers, Mordis, Zedves and Guerillas, who wish to remain in Cuba may do so, under parole during the present war, serving their arms. The Spanish forces march out of Santiago with honor of war depositing their arms, by mutual agreement, to await the disposition of the United States government, it being understood the United States commissioner will recommend that the Spanish soldiers return to Spain with the arms they so bravely defended. This leaves the question of the return of the arms entirely to the hands of the government. I invite attention to the fact that several thousand surrendered, said by General Toral to be 11,000 men against whom a shot has not been fired. The return to Spain in this district amounts to about 24,000 men, according to General Toral." (Signed) Shafter."

**Thanks of the Nation Sent to Shafter.**

WASHINGTON, July 16.—The following messages were sent today: "To General Shafter, commander at the front, near Santiago: The president of the United States sends to you and your brave army the profound thanks of the American people for your brilliant achievement at Santiago, resulting in the surrender of the city and all the troops and territory under General Toral. Your splendid command enduring not only the hardships and sacrifices incident to the campaign and battle, but in the stress of heat and weather triumphed over obstacles which would overcome men less brave and determined. One and all displayed the most conspicuous gallantry and earned gratitude of the nation. The hearts of the people turn with tender sympathy to the sick and wounded. May the Father of Mercy protect and comfort them." (Signed) WILLIAM McKINLEY.

"To Major-General Shafter, at the front, near Santiago: I cannot express in words my gratitude to you and your heroic men. Your work has been well done; God bless you all." (Signed) R. A. ALGER, Secretary of War."

**ANOTHER TRANSPORT READY.**

Troops Will Embark on the Pennsylvania Today.

SAN FRANCISCO, July 16.—Major-General Merriam has assumed command of the expeditionary forces. Today, in spite

of the immense amount of work that has thus far been shouldered on his command active preparations were continued to get off the vessels of the fourth Manila expedition as soon as possible. There will be a final inspection of the Pennsylvania tonight, and if everything is satisfactory, the troops designated for her will be ordered to embark tomorrow.

The troops that are detailed for the Pennsylvania are the First Montana and the recruits for the First California. The South Dakota regiment is to go on the Rio Janeiro. It is doubtful whether the Rio will be ready by Tuesday. The delay is in putting in the bunkers. Men will work all day tomorrow. There is, so far, no sign of the St. Paul, due from St. Michaels. She is now a week overdue, but has probably had to wait for river steamers.

The Utah light battery of volunteer artillery received orders this morning to prepare and be ready to embark on the Rio without delay. They consist of 105 officers and men.

The New York troops, which the Johnson-Loeke Company has contracted to land in Honolulu between now and August 17, will probably go on the Centennial Humboldt and Titamook.

The Centennial went on the drydock today. The Red Cross Society, it is said, will inspect her with the view of a big her as a hospital ship at Manila.

Private Stratford, company C, First Tennessee volunteers, has died of typhoid fever. Private Bartlett, of the Twentieth Kansas, who died of meningitis on Wednesday, has been buried in the national cemetery at the Presidio.

**WATSON'S RAID.**

Eastern Squadron Preparing to Start.

WASHINGTON, July 16.—Commander Brownson, of the auxiliary cruiser Yankee, was in conference with Secretary Long today arranging for the trip of his ship with a large cargo of ammunition for Commodore Watson's squadron in its attack on the coast of Spain. The Yankee is at Newport and will sail tomorrow for Santiago. She will reach there about next Tuesday, and the big stock of ammunition will then be placed aboard the battle-ships and cruisers. This transfer of powder and shells is a delicate operation, requiring time, and it is probable that the week will be well along before this and the coaling of the Yankee will permit the squadron to actually get under way for Spain.

Owing to the important mission of Commodore Watson's squadron and its possibility of long absence from an American port, every magazine on the ships will be full when the ships sail.

Admiral Sampson recently made requisition for the ammunition supplies, as these had run low as a result of the engagement with Cervera's squadron and the frequent shelling of Santiago. One load already has been taken down on a supply ship, and the Yankee now fills up the full quota. Each battleship will have about 200 tons of powder with 50 to 70 of the largest 12-inch or 13-inch shells, according to the size of the big guns; 70 to 80 8-inch shells; 200 to 300 shells for 6-pounders, and other medium-sized guns, and 500 to 800 rounds for the small rapid-fire guns. The cruisers carry approximately the same allowance, without the shells for the 12 and 13-inch guns.

Aside from this equipment of shells, the squadron is well provided with solid armor-piercing steel shot. There has been no call for a renewal of the supplies of the armor piercers, as Admiral Sampson's fleet seems to have used very few of them thus far, confining their work to the big explosive shells. The latter, although not made for armor piercing, are tested by the navy department to pass through four inches of solid steel, not exploding until through the steel. They have done such execution that Admiral Sampson has reserved almost his entire stock of armor piercing shells.

The navy department will not set a time for the departure of Commodore Watson's squadron, but with the delivery of the Yankee's supplies of ammunition, very few days will be lost before this formidable squadron will be headed for Spain.

**Cervera in Prison.**

ANNAPOLIS, Md., July 16.—Admiral Cervera and about fifty Spanish officers were brought here today, and are now prisoners of war within the United States naval academy. At the wharf command Edwin White, with a detachment of United States marines, was waiting their coming.

# THE OREGON.

The Finest Battle-ship That Ever Existed.

New York, July 16.—A Tribune special from Washington says: "The unparalleled performance of the battle-ship Oregon, in cruising 15,000 miles to take an active part in the war against Spain, so speedily followed by her magnificent race past the American fleet in pursuit of the Cristobal Colon less than two weeks ago, now is to be rewarded by the flying of the commander-in-chief's flag on the battle-ship during the transferring of the seat of hostilities to Spain itself. The Oregon's achievement has scarcely been fully appreciated, though it has evoked the applause of the world, until to-day, when the steam leg of the vessel reached Commodore Melville, to be filed in the records of the navy department, in accordance with the regulations.

The official volume, with its hundreds of entries relating to every minor occurrence in the engine-room of the vessel since the first of the year, constitutes the most remarkable proof of the high efficiency and capabilities of a warship that ever existed.

Extracts showing simply the main results of the Oregon's run from Puget sound, where the vessel was in dock at the time the Maine was blown up, to her arrival at Jupiter inlet, about two months later, will permit a more accurate statement of her wonderful endurance than has been possible up to the present time.

She left Puget sound March 6th, arriving at San Francisco March 9th, making 825 knots in 72 hours.

She left San Francisco March 19th, arriving at Callao, Peru, on April 4th, covering 412 knots in 375 hours.

Left Callao on April 7th, arriving at Tamaro April 16th, a run of 2550 knots.

Left Tamaro April 17th, arriving at Sandy Point the same afternoon, covering 131 knots in 9 hours.

Left Sandy Point April 21st, arriving Rio de Janeiro on April 30th, making 2148 knots in 221 1/4 hours.

Left Rio May 5th, reaching Bahia May 8th, 749.7 knots; time, 74 1/2 hours.

Left Bahia May 10th, reaching Barbadoes, 2228 knots away on May 17th, in 191 1/4 hours.

Left Barbadoes on the home stretch on the 19th and reached off Jupiter inlet on the 24th, a run of 1666 knots in 141 1/4 hours.

The total distance covered from Puget sound to Jupiter inlet was 14,510 knots, and during this time the ship consumed 3908.84 tons of coal. The chief engineer of the Oregon, whose ability and experience made possible the unprecedented record attained on this memorable voyage, was Robert W. Milligan, who entered the navy at the beginning of the civil war, and has risen through all grades until he assumed command of the Oregon's engine room two years ago.

**BIG FIRE IN ASHLAND.**

Entire Block Near Depot Burned—Serious Loss by Property Owners.

Saturday afternoon about 2 o'clock fire was discovered in the Shannon house near the depot by W. H. Buckley, a workman on Loomis' new building across the street. The flames had made considerable headway before noticed. The alarm was given as soon as possible, and both hose companies went down, but as the water was being used on the other side of town the force was not good and sufficient water could not be obtained at first, but later the force was better.

Five buildings were burned entirely to the ground. The Shannon House on the corner of 4th street and Railroad avenue owned by J. N. Combs and occupied by R. T. Shannon as a hotel had an insurance of \$600. Shannon's loss was \$1000 with an insurance of \$700. Mrs. W. J. Bush's restaurant in a building owned by Geo. Love had no insurance on building or household goods. Mrs. Bush's loss was estimated to be \$400. E. F. Loomis' store, living rooms and stable was valued at \$4000 with \$2000 insurance. A small amount of goods of his was saved. On the corner a building owned by J. G. Shively valued at \$100 with no insurance. On the building facing 4th street, owned by Chas. Nickell, the loss is unknown.

The buildings burned were the Shannon House, Mrs. Bush's restaurant, E. F. Loomis' store, a building owned by J. G. Shively and Chas. Nickell's house.

There was a breeze and considerable work was done to keep other near by buildings from burning. The buildings were wooden structures and it did not take long for fire to gain headway. The origin of the fire is unknown.—Ashland Town Talk.

**More Soldier Boys.**

Owing to the illness of the editor last week, mention of the enlistment of the volunteers from this city, to fill the quota of Co. B, which was recruited from Roseburg and Ashland was omitted from Monday's issue. Those accepted and enrolled from this county were: L. H. Saund, K. B. Parsler, M. S. Cobb, J. B. Bray, J. W. Brown, W. H. Roberts, Hans Masenssen, W. E. Butler, Chas. Thomas, P. V. Dickmann, H. P. Adams, P. A. Humphrey, Chas. A. Leslie and W. S. Threlkeld.

The following named persons were also accepted and enlisted for Co. E, of Portland: Chas. Patterson, John W. Jones, Clifton L. Inman, Zopher N. Ages and Geo. E. Noah. This makes fifty men furnished by Douglas county for the war with Spain. The new recruits left last Wednesday morning for San Francisco from which point they will sail with the next expedition to join the companies now in Manila.

The new recruits were handsomely entertained by the ladies of the Emergency Corps, who have been untiring in their attentions, not only to the Roseburg volunteers, but to others who have passed through our city either day or night.
