TERRIBLE CONDITIONS IN SANTIAGO.

Parreda Not Surrendered.
SPANISH FLAG NO LONGER WAVES OVER CAIMANERA.
CARLIST UPRISING IMMINENT.
Oregon Officers in Trouble at Manila—Chinese Terrible Deed at Oakland, Calif.

SANTIAGO DE CUBA, via Kingston, July 19.—Strenuous efforts to prevent the spread of infectious disease among the American troops in front of Santiago de Cuba were made as soon as the city surrendered, and for the past 36 hours our soldiers have been sent as rapidly as possible to the hills to the north of the city, where new camps have been established. The physical condition of our troops is not considered serious now that the number of cases of fever is growing less all the time, and it is believed that the disease will disappear with the removal of the soldiers to a healthier location and the extra precautions which are being taken.

General Shafter has had a thorough examination made of the sanitary condition of Santiago. The work was done by Dr. Goodfellow, of the general's staff, and by a civilian physician, Dr. Wicker. They find that although there are but six cases of yellow fever in the city, in addition to two suspects, the town is ripe for an epidemic. Santiago and Rio Janeiro are the greatest fever-breeding centers in the world. This town lacks every sanitary feature at its best, and now, after two months' siege, it is a veritable pesthole. The awful stenches that arise from the streets stager and choke one. No cordial in Santiago has the power to wash out this odor from one's throat.

The city of Santiago is a typical tropical place, with narrow, crooked streets, and low, one-story dwellings and stores. Many of the houses are stuccoed and painted with startling colors, sky blue and vivid shades of green predominating. These, with the red tiles of the roofs and the quaint verandas, show evidence of past picturesqueness, but everything is now in a state of dilapidation and decay, and the city is but a shadow of its former self. The majority of the houses are absolute ruins and once beautiful public squares are utterly neglected.

There is no sewerage system. The city drainage is along the surface to the harbor, and through the lower part of the city much of the drainage runs, especially from the poor quarter around the bull-ring, to the northwest of the city, which is the breeding center of malaria, typhoid and other low fevers.

There are four hospitals in the city—the Civil Hospital, presided over by the Sisters of Charity, and the Military, Mercedes and Concha hospitals. In these four are 1747 patients, which is a comparatively small number, considering the lack of food and long siege. It must be remembered that in a reconcentration were never admitted to the hospitals, and when the notification of the proposed bombardment of our batteries were received, every patient who could stagger out was driven into the streets.

Twenty lepers, who were in the Civil Hospital, were turned into the streets ever since. The largest number of patients are in the Military Hospital, where 424 Spanish prisoners, and 425 soldiers and hundreds of cases of malaria and dysentery and six cases of yellow fever.

Spain is Not Ready to Sue for Peace.
CHINESE MURDERER'S DEED.
Explodes a Magazine Killing Himself and Six Others.

LOS ANGELES, July 20.—Neither the officials of the Spanish embassy, those of the British foreign office nor the United States ambassador, Colonel John Hay, have any news tending to confirm the report circulated in the United States that the Spanish cabinet has decided to sue for peace. On the other hand, dispatches received here from Madrid late this afternoon make no mention of such a determination on the part of the Spanish ministry.

A special dispatch from Madrid says the powers are exchanging notes regarding the coming of Commodore Watson, and the progress made thus far is satisfactory to Spain.

OAKLAND, Cal., July 19.—The works of the Western Fuse & Explosive Company were blown up by a Chinese murderer at 5:20 this morning. Five deputy sheriffs who were trying to arrest the murderer were killed. The dead are Charles White, George Woodson, D. C. Cameron, Constable Gus Koch, J. J. Leri, Mrs. Hill and the murderer, Goon Ng Chung.

The Celestial, who was employed in the works and who caused the awful explosion, killed a fellow countryman yesterday afternoon in a quarrel over Chinese lottery tickets. He defied the officers of the law who went to arrest him, and fled into a magazine which contained five tons of giant powder, barricaded the door and threatened to blow up the magazine if any one came to arrest him.

Deputy Sheriff Charles White, son of Sheriff White, in charge of a posse, was on the scene of the shooting shortly after the murder, and kept guard over the Chinese within his stronghold. All the officers were armed with rifles. After repeated demands to surrender had been made, to all of which came reply, "If you come in here I will blow up the magazine," the officers retired for the night within the private office of the company, about 20 yards away.

This morning at 5 o'clock Deputy Sheriff White, after a consultation with the others, determined to break down the barricade, not believing the Chinese would keep his daring promise. Accordingly the entire posse headed for the door. True to his word the Chinese fired the giant powder and in an instant a terrific explosion occurred, killing all the officers and blowing the Chinese to atoms so small that not one piece has been found. Mrs. Hill was visiting Mrs. Frize, who lived across the way. She was killed in the falling debris of the house.

All the buildings took fire. Engines were soon fighting the flames, but to no avail. The works were completely destroyed. Four houses were also blown down, and about 40 partially wrecked.

Deputy Sheriff Fred Sheriff and Ed White escaped, but were painfully wounded. The man whom murdered was Han Seng Sing. Fourteen freight cars were blown to splinters and several were burned. Windows were broken in Oakland, Alameda and as far as Berkeley.

Fred Sheriff in a statement said: "Just at daybreak Charles White sent a Chinese to tell the fellow to come out. He wouldn't do so, but shortly after 5 o'clock he told us he would walk out and give us no more trouble. As soon as the fellow made his appearance at the door of the place Charles White and Koch walked toward him to make the arrest. They were almost at the door when Goon Ng Chung closed it with a bang. Less than a second later, I was being carried with a cloud of debris and earth swiftly over the ground. I have no doubt that as soon as the door was closed Goon fired his pistol into the powder."

Sheriff and Ed White are complete nervous wrecks. They were carried over 40 feet by the force of the explosion and thrown violently to the ground.

Refuses to Abide by Toral's Capitulation.

MADRID, July 20.—General Parreda, the Spanish commander, refuses to be included in the capitulation of Santiago de Cuba. According to Spanish military law a commander can surrender the troops he personally commands, but he cannot obligate other commanders at distant points, even though under his authority, to follow suit. Consequently it is held here that the capitulation only comprises about 7000 troops actually at Santiago.

Caimanera Surrenders.

CAMP McCALL, July 19.—A launch from the Marblehead went up the bay this afternoon to visit Cayo del Toro, opposite Caimanera, and gave formal notice to the Spanish commander of the surrender of General Toral, together with the conditions of the capitulation of Santiago. A limited time was fixed for hauling down the Spanish flag over Caimanera.

The American officers also gave notice that if the Spanish gubnat Sandoval was disabled in any way or if any ammunition, public building or barracks at Caimanera or Guanatanamo were destroyed the Spaniards would not be treated as prisoners of war. The flag was hauled down this afternoon.

From Spanish sources it is learned that the total force in Guanatanamo and Caimanera is about 5000, of which number, however, only 3000 are fit for service, the others being disabled by sickness or wounds. Tomorrow steps will be taken looking to the completion of a formal surrender. What disposition

will be made of the prisoners has not yet been determined, because of yellow fever among them. A rigid quarantine will be maintained, and it is probable that transports for the removal of the prisoners will be sent up the bay and loaded there, instead of having the prisoners marched down here.

Menace to the Alfonso Dynasty.

MADRID, July 20.—The newspapers here say a coalition is being organized between the different parties and against the government on account of the suspension of the constitution.

LONDON, July 20.—The English Carlists are unusually active and in hourly expectation of momentous news. A leader of the organization says: "We are quite ready for active operations. Moreover, there is no doubt that the authorities at Madrid are aware that a Carlist rising is imminent and that it will be successful. We are immensely strong in most parts of Spain, and as soon as the truth of the cowardly surrender of Santiago de Cuba percolates, our forces will be greatly increased."

Oregon Officers in Trouble.

NEW YORK, July 19.—A World special from Manila says that on July 19 four volunteer officers from Oregon, Captains Heath, Wells and Prescott and Lieutenant Telfer, obtained permission to spend a day visiting the rebel lines. There was much uneasiness when they did not return Sunday or Monday, but they arrived safely on Tuesday morning. They explained that they got farther away than they thought, and could not return on Sunday, so they decided to make a tour of investigation along the Pang river, back of Manila, and got some valuable information. They are now confined to their quarters, and probably will be court-martialed.
