The depot is just simply filled with freight—every rack and corner is piled with boxes, stoves, household goods, camping outfit, trunks, valises, everything from a hat box to a steam engine.

Spaniards About Ready to Surrender

MANILA, via Hong Kong, July 21.—Admiral Dewey may decide to capture Manila before General Merritt arrives here. In view of the possibility of an early peace, there have been vigorous attacks and a slight bombardment on the outskirts of the city, to which the Spaniards replied with extravagant shelling. Spaniards now say they do not believe the reinforcements promised them will ever reach here, and they despair of success, but condemn the proposal to retire to the citadel, which is utterly defenseless, as such a step would merely invite slaughter. Therefore they believe it would be better to surrender, though fearing public censure. However, they will probably be compelled to surrender soon, as food is dangerously scarce.

Four Deaths Occurred on the Voyage Out.

SAN FRANCISCO, July 21.—A cable special to the Examiner, dated Hong Kong, July 20, says that the second fleet of transports from the United States has reached Manila. The China arrived on the afternoon of July 16, and the Zealandia, Colon and Senator on the morning of the 17th. Four deaths occurred during the voyage, those of Lieutenant Laelle and Private Maddox, of the Eighteenth infantry; Sergeant Oades, of the First Nebraska, and Private Wiesband, of the First Colorado. Otherwise all the men arrived well.

Hoss Kono, July 21.—The German steamer Vistan, from Cavite, reports that the United States transport China, with American reinforcements for Dewey, arrived at Cavite Saturday last, and that the other transports arrived Sunday.
