Billy Bryan's anti-imperialist ideas are about as unpopular as could well be imagined. Even the Roseburg Review has abandoned him.

"When Johnny comes marching home again" let it be hoped that he will have shoes on his feet. If reports are correct he has been without most of the time.

There will be many vacancies in the ranks of returning volunteers, even though they have not been outside of the United States. The records will probably show that more soldiers have died as a result of being placed in camps which were a constant menace to health, than were lost in battle.

A friend, after reading the account which was published of the progress made by the Oregon boys at Manila, in collecting relics and articles of value, suggests that the boys have simply swiped the palace, which they are in possession of, and will bring it home as a reminder of their experience in Manila.

The Hon. Binger Hermann is by no means without a formidable following in Eastern Oregon where he is highly esteemed for what he has accomplished for Oregon while in the halls of congress. It is true he is recognized as a conscientious and painstaking representative, and, as the Times-Mountainier puts it, was not directly a representative of the republican party, but a representative of the whole state. There will be weaker and less worthy candidates for the vacant seat than Mr. Hermann during the next session of the legislature. —Vendleton Republican.

Mr. General Miles doesn't believe in letting red tape interfere with the relief of wounded soldiers. In the storeroom of the hospital at Fort Myer the other day she found a great number of boxes of delicacies sent by friends of the injured men, but which remained unopened for lack of authority from the war department. She ripped open the boxes distributed pyjamas, jelly, tobacco, ginger ale, deviled chickens and whole stockings until the wounded cheered themselves half well. Then she went to Washington and applied at the war department for permission to open the boxes.

The Times-Mountainier has this to say in regard to the continued contemptible things of the Roseburg Review at Hon. Binger Hermann. "The Roseburg Review is perpetually after Binger Hermann. Mr. Hermann is the most distinguished citizen of Roseburg, genial, whole-souled gentleman and friend, and ranks with the leading public men of the nation. He is a man of sterling worth, who gives his advancement solely to his own indomitable energy and pluck. The Review is a bright paper but it only bolsters itself in never having a word of commendation for its fellow townsmen."

Word comes to us in an authentic form that the candidacy of ex-Senator Mitchell for the United States senate to fill the existing vacancy will again come before the legislature of Oregon at its next session. Out of the 90 members composing the two branches of that body the calculator figure 63 republicans and 27 silverites. The friends of the ex-senator claim that he has already 32 of the republican members pledged to him. This would give him the caucus nomination if he desired it. But after his experience with the last caucus he has concluded to leave that institution severely alone. There will, therefore, be no caucus, and it will be a free fight for all. If our informant is correctly advised, Mr. Mitchell will stand an excellent chance of going back to the senate. What marvelous vitality the man has! He should, according to the rules, have been politically dead long ago; but here he is still the greatest factor in the state in the election of a federal senator! The coalition against him in 1876 was a mistake. That is plainly seen now. It had no excuse other than the hope that his defeat would in the next election give the people of the state an opportunity to elect a silver senator, and experience has shown that that hope was baseless. We do not doubt that the ex-senator is stronger with the people today than at any time within the past two years. The silver men prefer him to any goldbug of the Simon-Corbett stripe, and we are assured that if necessary to elect him their whole strength in the legislature will be given him. But whoever may be elected, let us hope that the state will not be damned with another scandalous session, to the demoralization of all legislative business.—Oregon Mining Journal.

ROSEBURG SCHOOLS.
The Roseburg schools will open Sept. 12th. Prof. Traver who will have charge comes well recommended, and we have no doubt but that he has the ability not only to maintain the high standard of efficiency which the schools have attained but to increase their efficiency provided he meets with the encouragement he

should from the patrons of the schools. No city the size of Roseburg should be satisfied with a system of public schools which does not prepare its students to enter the higher institutions of learning in the state. The trouble with the Roseburg schools is not with the quality of the work done but with the quantity. There is no truer index to the enterprise and progress of a city, than its public schools, and this city should hasten to put itself in the front rank of the cities of the state in educational matters.

The Sunday Oregonian gives an half page write-up to Southern Oregon and Crater lake, as prepared by a couple of youths of Perilous who left that city on their wheels for Crater lake. They tell of their trip as each point of interest is passed. At Gold Hill they told of the miners looking with astonishment at their wheels and commenting on them in the light of what Buffalo Bill would do with a wheel. The idea conveyed was that the Gold Hill boys were unfamiliar with the sight and usage of a bicycle, when, as a matter of fact, there are probably fifty bicycles in the town and two-thirds of the people know how to ride one. The editor also tells of a rivalry between Medford and Ashland, and of the uncompromising term of Medford or Ashland "guys" as applied to the coming meet of either of these towns. This is an expression not used in that connection by our young people and the Portland striplings were as much at sea in this matter as was the "space" writer who assisted in preparing their country dispatch. They resulted the up-to-date white people of Klamath county by asserting that the Indians in that locality never saw a bicycle until they were sighted. They fell again of coaching Waini Island, in Crater Lake, without other incident than the splashing of their "ears in the still waters." (Quite an incident that? The wonder is that the cars didn't skid and splash a little common sense into their vacuums, where nature intended there should be brains. They fell again of coming down Rogue river, through Central Point to Ashland and on to Grants Pass. This last is another instance of the space writer's imagination. —Medford Mail.

STREET AFFRAY AT MANILA.

U. S. Troops and Filipinos Engaged in Combat.

MANILA, Aug. 26.—Last Wednesday a corporal and two men of battery B, Utah artillery, after disembarking at Cavite, were sent on an errand. While passing through the streets, Trooper Hudson discharged his revolver. It was in mere fun, but the natives in the immediate locality were much alarmed for a time.

The natives immediately began firing. Dismounted cavalrymen were sent to quell the disturbance, but the natives misunderstood the movement, and the firing became general.

Trooper Hudson was killed, and Corporal Anderson mortally wounded. Troopers Layton, Machbar, Connolly and Doyle, of the Fourth cavalry, were seriously wounded. Four natives were killed and several wounded.

Aginaldo has expressed regret at the encounter, and promises to punish the offenders. No further trouble is apprehended.
