A Salvation lassie struck it rich in the lobby yesterday. She was selling the "War Cry," and had quite a bunch of papers. Senator Al Reed, of Douglas, with a generosity all his own, and a caring anxiety in his heart for the moral welfare of his colleagues in the senate, bought the entire edition and instructed the girl to put one in the hand or on the desk of every senator he could find; and an order she obeyed with alacrity and pleasure.—Statesman.

Days West returned home Wednesday morning from Portland, where he accompanied Lester Wright to the hospital. He reports that Wright has sufficiently recovered to sit up and that he will soon be home and well. He is not, however, able to give any account of the accident. Whether he was struck by the passing train or attacked and injured by tramps will probably remain a mystery. In either event he had probably sat down near the track while waiting for the overland to pass, and being weary from overwork fell asleep. The fact that his revolver with the handle broken was found about 20 feet from where he was lying would lead to the conclusion that he was attacked by tramps.

GETTING WARMED UP.

Peace Commissioners Are Growing Tired of the Efforts of the Spaniards to Delay Proceedings.

LONDON, Oct. 17.—A dispatch to the London News Agency from Paris says: Today the conference reached a crisis for the first time, Judge Day presented the demands of the American commission in threatening words. He said that delay was the only possible object obtainable by the persistent efforts of the Spanish commissioners to saddle the United States with the Cuban debt, and would be tolerated no longer, as the United States would neither assume nor guarantee any part of the debt.

The Spaniards replied that this then placed Spain in the position of repudiating or of reducing the face value of the Cuban bonds from 50 to 60 per cent, paying only half the stipulated interest on the reduced value. Before they would adopt either alternative they would surrender to the United States the entire Philippines.

"Judge Day responded that the surrender of the Philippines would probably be demanded, irrespective of the Cuban or any other debt.

Mr. A. L. Catching, who has been doing carpenter work near Cottage Grove, came home Saturday morning, and is visiting with his family at this place.

Prune drying for the present year is a thing of the past. The yield in this part of the county was the largest ever known and hundreds of bushels have gone to waste for the want of sufficient drying capacity to save them. An estimate of the output of each dryer, in this vicinity, places the amount about as follows: G. W. Riddle, 180,000 lbs.; A. Riddle and son, 180,000 lbs.; T. S. Riddle, 180,000 lbs.; S. & C. Bros., 160,000 lbs.; M. Dean, 140,000 lbs. While the above figures may not be exactly correct, they will not miss the mark far, and makes a total of over three quarters of a million pounds. There is a good demand for dried prunes, and we are informed that Mr. C. Gazley, of Canyonville, has contracted for one and one-half million pounds, in this county, south of Ricketts, at prices that are very encouraging to the growers.

FOR MANILA.

The Oregon Recruits Have Sailed and Will Join The Famous Second.

SAN FRANCISCO, Oct. 17.—Troops from Camp Merrim, to the number of 500, marched through the streets this morning and embarked on the steamer Senator for Manila. They comprised the Third battalion of the Twenty-third infantry, recruits for the Second Oregon, and battery D, California heavy artillery. The camp was broken early, and the men took up their march to the Pacific-street dock where they arrived at 11 o'clock.

There are now seven United States transports in port. The arrival of the Zealandia and Pennsylvania has made it possible to send all the remaining troops at the Presidio away in a bunch and the chances are that they will be on the way before next week.

The remains of chaplain Freeman, of the Baltimore, who committed suicide at Nagasaki, which were brought over by the Zealandia, will be shipped to Logansport, Ind., today.

The Bohemia Mining District.

COTTAGE GROVE, Or., Oct. 17.—Very little is known of the Bohemia mining district outside of Oregon. It is situated in the Callpoola mountains, 35 miles east of Cottage Grove. The ores of the district are free-milling gold ores. At present there are seven stamp mills in the district. In the Helena mine, owned by Jennings Bros. & Bruneau, a depth of nearly 100 feet has been attained, and immense bodies of free-milling ore have been uncovered. The mine has been extensively developed during the past summer. Seven tunnels have been run on the vein, making seven levels, uncovering a continuous chute of high-grade ore six feet wide, for 1000 feet along the surface.

Prosperity of Oregon.

Never before in the history of Oregon has there been such prosperity, throughout the entire state. Large crops of wheat, wool, hops and fruit have made the farmers independent. Sheep and cattle are being shipped from all sections of the state to the Missouri river and Chicago. Wheat is bringing a fair price, wool can be sold at good figures, and sheep and cattle are making splendid returns. Fruitgrowers for the most part did well, while Lops were excellent and are bringing good prices. The prospects for next year are equally as bright, with the assurance of a large immigration of the best class of farmers and business men. Oregon, the garden spot of the country, will soon take her place on the top rounds of the ladder of national prosperity.—Huntington Herald.

STEAMERS COLLIDE.

O. R. & N. Steamer, T. J. Potter Runs Into and Sinks the G. W. Shaver.

PASSENGERS WERE ALL SAVED.

Were Taken on the Potter and Later Sent to Portland on the Telephone.

About 2:15 this morning the O. R. & N. Co.'s sidewheel steamer T. J. Potter, bound from Portland to Astoria, collided with the Staver Transportation Company's steamer G. W. Shaver, en route to Portland from Clatskanie. In less than eight minutes the Shaver went down in about 12 feet of water. Beyond a few scratches the Potter sustained no damages.

The accident occurred in the Columbia river about mid stream, directly off Deer Island, five miles this side of Kalama. The night was dark and heavy fog was prevailing.

Notwithstanding the fact that the ill-fated steamer had about 25 passengers on board, many of whom were women and children, no lives were lost. The fact that most of them were asleep in their staterooms and bunk beds at the time of the accident makes their escape almost miraculous. Some got out directed of nearly every bit of clothing.

The Shaver was struck on the port side, just forward of her boilers, the sharp bow of the Potter almost cutting her in twain. When the steamers parted the water rushed into the hold of the Shaver in tremendous volume, and she began to settle immediately.

The shock awoke most of the passengers, and they came rushing from their cabins to ascertain the trouble. When they realized what had happened everybody was for himself. Women and children screamed for help and a general commotion prevailed. Captain J. W. Shaver, assisted by his crew, soon had order restored, and the work of rescuing the passengers was immediately begun. By this time the Potter had come alongside. Gangplanks were laid between the two steamers, and in a remarkably short time all were saved.

Fortunately the collision did not occur in the main channel, but a distance toward the Oregon shore, where the water averages a depth of from 12 to 14 feet.

The Shaver lies with her stern submerged almost to the top of the wheelhouse, but because of a lot of lumber in the forecastle her bow is partly above the surface of the water.

The Shaver's passengers were subsequently transferred from the Potter to the Telephone which arrived in Portland this morning.

BOXES FOR THE BOYS.

How To Send Christmas Gifts to the Soldiers at Manila.

NEW YORK, Oct. 17.—A dispatch to the Tribune from Washington says: The quartermaster's department of the army is arranging to extend its good offices in the direction of transporting a reasonable amount of Christmas gifts to the American soldiers in the garrison at Manila. It will be necessary to start a steamer from San Francisco early in November in order to reach the Philippines by Christmas, and the friends of the soldier boys out beyond the Pacific who wish to forward boxes of good things are already in correspondence with the quartermaster-general on the subject.

The rigid rule has been laid down that Christmas boxes for the soldiers at Manila must not contain quantities of sweet things calculated to disturb the digestion of men living in the tropics. Mince meat, fruit cake and candy will be permitted only in small parcels, and it is advisable that packages be limited in weight, as the department will not be able to forward over 1000 tons at the utmost.

The packages will have to be delivered at San Francisco without expense to the government, which has no fund for transporting such supplies, and it is essential that the quartermaster-general shall give permission in each case for the package to go aboard a government transport.

Cold Wave Follows Storm.

KANSAS CITY, Oct. 18.—Freezing weather has followed yesterday's storm of rain and snow in Missouri, Kansas, Iowa and Nebraska in many places. A strong wind still blows, causing more or less damage. Wire communication, so badly demoralized yesterday in the North and West, has been only partially restored. At most places, as far as ascertained today, snow ceased falling about midnight last night when the mercury began dropping.

Only brief news of suffering on the open prairie where stock is unprotected has been received, but it is safe to say great damage to cattle will result.

Members of the Third and Fifth Missouri regiments whose camps at Fairmount Park were made uninhabitable by the storm, were ordered to Kansas City today, where they will be quartered in the army.

A dispatch from Maryville, Mo., says snow has been falling there for 23 hours. At Leavenworth, Kan., several hundred soldiers, driven from their camps at Fort Leavenworth, are being housed in public buildings. Today many received leaves of absence and are going to their homes.

Bad Faith Charged.

CHICAGO, Oct. 17.—A renewal of the international rate war between the American roads and the Canadian Pacific seems to be imminent.

Renewed accusations against the Canadian Pacific were made today in a circular letter issued by General Passenger Agent Whitney, of the Great Northern Railroad. The letter states that the Canadian Pacific has not kept faith with the American roads in so far as a restoration of the East-bound passenger rates is concerned, and it is estimated that the Great Northern is preparing to adopt retaliatory measures. This, it is believed, means that the Great Northern will put into effect the old war basis of rates, unless the Canadian Pacific acts in good faith.

Trophies of War.

NEW YORK, Oct. 17.—A dispatch to the Tribune from Washington says: The effective strength of the United States navy has been increased by eight useful vessels which recently flew the Spanish flag. Five of these are now attached to Admiral Dewey's squadron, two are credited to the North Atlantic station, and the last is the cruiser Infanta Maria Teresa, now under her own steam, preparing to start for Norfolk to be made ready for active service.
