DOZIER & MARTIN, Props. 'Phone Main 181.

State News.

Gold Hill is to have a new depot. Among the jurors drawn for the May term of court at Portland is the name of Sylvester Penney, "Milkman".

Washington is the seventh county to pay its 1898 state taxes in full, a remittance of \$25,568.80 having been received at the state treasurer's office yesterday.

L. B. Edwards, who killed his mining partner, near Ashtland some time ago, during a quarrel was acquitted at Jacksonville Monday. The trial lasted a week.

George W. Orment, a pioneer settler of Lane and Douglas counties, died at his home eighteen miles southwest of Eugene, in the Siuslaw valley, Monday night, April 19th, aged 66 years.

Oregon pensions have been granted as follows: Original, William H. Whitney, Gold Hill, 88; Charles E. Arnold, Carson, 86; Reinsel, special April 5 (special act), Michael Lannan, Huntington, 820.

A projecting party of eight or ten men well equipped left Baker City for Gold Hill district to begin a prospecting campaign. Gold Hill is a free gold belt, and offers a good field both in quartz and placer.

J. H. Taylor, of Dairyville, Crook county, one of the oldest newspaper men in Oregon, a prominent politician of the bygone days, has been stricken with paralysis, at his home, and there is little hope of his recovery.

A well defined ledge of gold bearing quartz was discovered last week in the vicinity of Creswell, Lane county. It is said to be as high as 2 1/2 to 3 ft. No one has ever thought of prospecting in that vicinity heretofore.

Frank L. Hughes aged 14, who lives with his father and brother on a stock ranch in Webster precinct, in the southern corner of Benton county, is missing, and the father is traversing the mountains and valleys of the vicinity in an anxious search.

J. J. Cunningham, superintendent of the Flax Fiber Association, has received a letter from the Brooklyn Linen company, of Belfast, Ireland, stating that tests made with Oregon flax fiber sent there are the best they ever saw heretofore.

Judge Rood, of Washington county, will notify all road supervisors that they must follow the law in respect to enforcing two days' work, or the collection of \$3 in lieu thereof, from every male between the ages 21 and 50, who are actually residing in the road district.

Supr. Theo Evans, of the North Pole mine, a steady producer located near Baker City and in which the Barings of London, are heavily interested, Wednesday brought to the mine a national bank gold bar weighing 40 pounds and 900,000.

The Booth-Kelly railroad will be 14 miles long above Colberg, in Lane county, where the company have only recently purchased several thousand acres of timber, to a point on the S. P. line near Eugene. The road will cost about \$70,000 per mile, being much better than the S. P. to which road it will be a "feeder" supplying them several car loads of lumber a day. It is said California parties are interested in the road.

When interviewed by a Telegram reporter relative to the returning of the Oregon volunteers from the Philippines, Governor Geer recently said: "I can't see that the state has any right to ask the president to send the volunteers home. They enlisted in the service of the government, and if there ever was a time when they have been needed it is now. It seems to me that it is a piece of impertinence to ask that they be returned. I feel confident that the president will order them home as soon as possible and until he does so I cannot see what right the states have to interfere. Few, if any, of the volunteers from Oregon are asking to come home. In fact, I am constantly in receipt of applications for promotion, and some who have been discharged and returned since the war began."

What has proven to be an immensely rich mine of gold has recently been struck on the divide between Sixes river and the Coquille, in Coos county, by the Harrison Bros., of that locality. It is not only rich but very extensive.

E. C. Greene, who lives near the new Porphyry Dyke gold mine discovery, on the headwaters of Sixes and Coquille rivers, was in Myrtle Point the other day. As he has had much experience in mining and having visited Harrison Brothers' works a day or two before coming to town, the public can rely upon what he says. Mr. Greene says: "They have got it. I examined thoroughly the place where the men are at work. It is nearly at the pinnacle of the mountain, for it is only a short distance from the top down one side to a flat place where they found the mine. They slide the dirt down to the creek in sacks on a sledge, about 800 feet distant, where they run it through a rocker. They use no powder, but have dug a place about 12 feet square, with picks and shovels. They say that they have got \$16 out of a pan of dyke, or peculiar formation composed of porphyry and other substance. There are seams in the formation in which there is a muddy substance that is supposed to yield the precious metal. This mud rolls up and becomes difficult to dissolve, and, no doubt, there is as much in the tailings as they have saved with the rocker. The gold is fine and in some instances it sticks together in a kind of porphyry rock. Some large pieces of this have been found. One was discovered that weighed \$12.

VOLUNTEERS TO RETURN

The Regulars with the Proposed Reinforcements Ample For All Purposes.

WAR DEPARTMENT NOTIFIED

Homeward Movement of the Volunteers to Begin Early Next Month.

WASHINGTON, April 21.—Secretary Alger has received a reply from General Otis to his inquiry as to whether the reinforcements proposed to be sent to him to relieve the volunteers would be sufficient for the purposes of the campaign. Otis replied in the affirmative, the estimate of 30,000 men to constitute the army agreeing with his own calculations.

The programme for the movement of the regulars out to Manila and of the volunteers home ward, therefore, will be carried out according to General Otis' statement contained in his dispatch yesterday.

General Otis adds to his message the hopeful remark that he expects very shortly to be able to report a decided improvement in the situation in the Philippines.

The volunteers in the Philippines will return home in the order in which they sailed for Manila. The date upon which each troop sailed follows:

Mar. 26, First California, Second Oregon and detachment California artillery; June 26, batteries A and B, Utah artillery; Fourth Pennsylvania, First Colorado and First Nebraska; June 29, First North Dakota, Thirtieth Minnesota, First Idaho and First Wyoming; July 10, First Montana; July 23, First South Dakota; October 19, First Washington; October 27, Twentieth Kansas; October 30, First Tennessee; November 3, Fifty-first Iowa; November 6, troop Nevada cavalry; November 9, First Wyoming battery.

Retires from Congress.

It is announced that Speaker Reed has declined to become a member of the law firm of Simpson, Thacher & Baranum New York. It is understood that Mr. Reed will resign his seat in congress and remove to New York. The statement has been made that Mr. Reed is guaranteed by the firm of \$200,000 a year, adding down Mr. Reed will make a protracted visit to Europe.

The New York Express says Mr. Baranum, of the law firm, said that Mr. Reed had already practically become a member of the firm, but would not enter actively upon his new duties until after he had taken a brief vacation in Europe. This decision was not made by Mr. Reed until all the details of his acceptance of their offer were arranged. In all likelihood, his friends say, he will remain on the other side during the summer.

Oregon Boy Wounded.

WASHINGTON, April 21.—General Otis forwards the following list of additional casualties: Wounded—Second Oregon, April 17, company A, Private W. O. Walker, foot, moderate.

(Private William O. Walker, company A, Second Oregon, enlisted at McMinnville last May. He was 21 years 3 months old at that time. He was a farmer by occupation. His father, W. Walker, is also a farmer, and lives near West Chehalis, Yamhill county.)

The Appointment Declined.

WASHINGTON, April 21.—Ex-Governor William Bain Lord, of Oregon, has declined the tender of the mission to Persia. Governor Lord was an applicant for the Peruvian Mission.

[Judge Lord was not an applicant for any diplomatic position. He was tendered the position to Persia and accepted it. It proved to have been Persia, the error having been made in transmitting the original telegram making the tender of the position.]

Little Sickness at Manila.

WASHINGTON, April 21.—The following dispatch was received at the war department today: "Manila, April 21.—Adjutant-General Washburn: The troops are abundantly supplied and the sickness, wounded included, is only seven and a fraction per cent of the command. Oris."

The school board of Gold Hill have employed P. H. Daily and wife another year and raised their salary. The only reason given for such unusual procedure is that they are the right people in the right place and can't be spared hence are worth more—Valley Record.

The Ashland Woolen Mills, which have been idle since the third of February, was started up again Monday by Manager Geo. N. Anderson and Foreman J. R. Dasey and will be kept in full blast by the crew of about 30 hands.—Valley Record.

The Greenback mine started up Wednesday and a large force of men put to work. The new ten stamp mill is running night and day.—Grants Pass Observer.

Current News.

The army lead court of inquiry is preparing its report. Congressman Heppner, of Iowa, has come out as a candidate for speaker of the house.

Few people are aware that the first American captain general of Cuba was Andrew Jackson. President McKinley has accepted an invitation to attend the Ohio state-empire of the G. A. R. in June.

Navy department officials think there is no danger of the captured men of the Yorkton being murdered by the Filipinos. An officer of Dewey's fleet who made a tour of Luzon reports that the Spanish prisoners held by the Filipinos are well treated.

Congressman Sherman, of New York, announces himself a candidate for speaker of the house of representatives at the next session. John Barrett, who just arrived at London from Hong Kong, declares the Filipinos are on the run, and that the end of the war is near.

Two companies of the Twenty-fourth Infantry (colored), now stationed at Fort Sherman, Idaho, have been ordered to the Philippines. Gomez has determined to announce to the people of Cuba, his support of an American protectorate until such time as stable independent government may be formed.

An official decree has been passed in Madrid announcing the appointment of Duke de Arce, ex-prince of Asturias and minister plenipotentiary to the United States.

Some think Lieutenant Gilmore and the 14 sailors of the Yorkton have fallen into the hands of Spaniards instead of Filipinos. There isn't much comfort in this thought when one remembers the Maine.

The class above quoted says: "Some of the senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and it may become vacant by resignation, or otherwise, during the recess of the legislature of any state, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies."

[The class referred to is the one which John Lord appointed H. W. Corbett of Oregon.]

The Coming Assembly.

The Williams Valley Chautauque Association has looked the best array of talent ever presented for the assembly to be held at Clatskanie Park, Oregon City, July 15th to 25th.

Among the attractions will be Sam P. Jones for July 15th and 19th. The greatest evangelist orator on the American platform today.

Mrs. J. J. Hedden is one of the successful dairy women of this vicinity. She churns about 125 pounds of fine butter per month and receives a ready market. She sends about 35 pounds per month to Tunnel 5 Greendale.

Mr. Ida M. Davis has been employed to teach the spring term of school in the Hardacker district, which will begin next Monday. The district in this district are all men of good judgment, and in the selection of Mrs. Davis they secure an experienced and competent teacher.

Drain and Yuccella will soon have direct communication over the long distance telephone. The poles are nearly all up and ready for the wire, which will connect with the main line at Elkhead. The telephone office here will be in Lyons & Applegate's drug store.

What Bill Nye knew about farming was considerable and what he did not know was something the other day that we don't think Bill ever knew. We heard friend Hedden inform friend Hedden that the time to plant onions is when the sign is in the feet. We have often wondered from whence proceeded the exhilarating aroma of the onion, but now the axiomatic fact is plain.

Oakland News. In Oakland goods.

The PLAINEALER books much improved with its new headgear and change of cloth.

The first statue south of Oakland has been reported from Tidewater to Whitmore.

It is charged that the storm in the Bohemia mountains last week was one of the worst of the season.

P. B. Beekley will ship 100 cars of cattle from Oakland and one from Yuccella to Portland Saturday.

Ralph Dimnick, son of Mr. Lot Dimnick, living in the State, died last Friday and was buried at Winton on Sunday.

Mr. E. N. Smith, of Glendale, is in Oakland looking over the farms in this vicinity with the object of buying in view.

Miss Jessie Baren, of Roseburg, is visiting Apple Becker this week. Aggie will accompany her to Roseburg next Sunday.

The usually leafy city of Yuccella has been beset with masses and grip for the past month, but things are changing for the better of late.

QUAY IS EXONERATED

Verdict of Not Guilty is Returned by the Jury.

CONSPIRACY CASE THIS CLOSES.

Following the Acquittal Quay is Appointed United States Senator by Governor Stone.

PHILADELPHIA, Pa., April 21.—Matthew Stanley Quay was today declared by a jury to be not guilty of the charge of conspiracy to use for his own unlawful profit funds of the state deposited in the People's bank of this city.

The court officers were unable to keep back the struggling crowd that pressed forward to congratulate Quay, when the verdict of the jury was announced. As soon as Quay could get away from those anxious to shake his hand and congratulate him, he made his way to the elevator to descend to the municipal building. Here the scenes just enacted in the courtroom were repeated. Enthusiastic crowds rushed forward and attempted to hug him on their shoulders, but he waved them back, saying: "Oh, no, I'm too old a man for that."

Quay walked with his friends to the office of his counsel, where he made his escape from the crowd.

HARRISBURG, Pa., April 21.—Shortly after noon Governor Stone appointed Matthew Stanley Quay as senator to serve until the next session of the legislature.

The appointment is addressed to the president of the United States, and it is stated in the letter to be made under the authority of clause 2 of section 3 of article 1, of the constitution of the United States.

The class above quoted says: "Some of the senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and it may become vacant by resignation, or otherwise, during the recess of the legislature of any state, the executive thereof may make temporary appointments until the next meeting of the legislature, which shall then fill such vacancies."

[The class referred to is the one which John Lord appointed H. W. Corbett of Oregon.]

Drain News. (From the Workman.) J. G. Healy left last night to join the U. S. geological survey party in California.

Bury at Yuccella, Friday April 14 1899, at the will of Prof. E. O. Parker, a doctor.

Mrs. Lillian W. Watters has been somewhat indisposed the past week with an attack of grippe.

Mrs. Patterson went to Roseburg yesterday to see a glass case containing Miss Lillian, after which she will go to the Grove to reside.

Invitations are out announcing the wedding of Miss Martha Bridges, formerly of this city, but now of Lebanon, to take place April 24.

G. W. Sand is anxious to state that Miss Mae Green has been engaged to teach the fall term of school in the 5th known as the Victor school.

A number of people in this vicinity are going into the poultry business quite extensively this season. Several incubators are in use and satisfactory results are being obtained therefrom.

Mrs. J. J. Hedden is one of the successful dairy women of this vicinity. She churns about 125 pounds of fine butter per month and receives a ready market. She sends about 35 pounds per month to Tunnel 5 Greendale.

Mr. Ida M. Davis has been employed to teach the spring term of school in the Hardacker district, which will begin next Monday. The district in this district are all men of good judgment, and in the selection of Mrs. Davis they secure an experienced and competent teacher.
