The very latest is a perfume trust, the profits of which are expected to yield a large per cent.

Some of the big trusts are likely to break down from the weight of their capitalization alone.

Spain has ceded the Carolines and neighboring islands to Germany. It is now clear why the Germans tried to make things unpleasant for Admiral Dewey at Manila.

The Oakland Gazette has turned up its toes to the daisies. Its failure was no fault of the good citizens of Oakland, nor any reflection on their public spirit, liberality or enterprise.

Mr. Altgeld remarks that "if the democratic attempt to drop the Chicago platform the result will be the dissolution of the party."

No city of the importance of Roseburg can afford to be without a local board of trade. Such an organization is of inestimable value to a town and community, and our enterprising business and professional men realizing this fact met and effected a temporary organization last Thursday evening.

To attempt to make political capital against a popular foreign war is suicidal to the party that undertakes it. Nothing is so popular with the American people as a successful foreign war.

Tillamook Slide Still Moving.

TILLAMOOK, June 1.—The landslide at the sand spit is still on the move toward the beach, it having moved 100 feet under the beach, which in some places has been raised 15 feet. A large quantity of clay has been unearthed by the landslide, and it is claimed that it is suitable for brick and pottery.

Friendship of Spain and Germany.

MADRID, June 3.—Germany, it is announced, pays 27,000,000 pesetas for the Caroline, Palos and Mariann islands. Spain retains three coal stations, one in each group, and Germany undertakes to defend these stations in case of war. Germany in addition grants Spain the most favored-nation treatment in Germany and in the Colonial islands.

Pine Lumber Trust.

SAN FRANCISCO, June 3.—The Pacific coast export lumber manufacturers have just consummated arrangements which will make the price of this building material much higher from now on than it has been for a long time past. The combine is composed of all of the pine lumber companies in British Columbia, Washington and Oregon, controlling the entire output of pine on the coast. Under the new schedule lumber has been advanced about \$1 per 1000 feet, and the advance takes place at once. The combination was formed last November, and its shrewd mathematicians have been hard at work since preparing the schedule which now has appeared in tabulated form. The combine has agreed to make the base price \$10 per 1000 feet, subject to a rebate of \$1, making the net price \$9.

Diplomatic Relations Resumed.

WASHINGTON, June 3.—The diplomatic relations with Spain, broken off April 21, 1898, were formally resumed at 11 o'clock today, when President McKinley greeted Don d'Arco, the newly accredited minister to the United States, in the blue parlor of the White House. Simultaneously in Madrid, if the programme arranged was tried out, Belian Storer, the new United States minister to Spain, was being presented to Christina, the queen-regent, during the legal minority of his Catholic majesty, Alfonso XIII.

It was a notable occasion in the world's history—the resumption of friendly relations between two nations which had been at war in the brief struggle had changed the map of the world. The speeches of today were especially notable. They were plain-spoken and devoid of the usual hazy diplomatic phraseology. At the conclusion of the address the president stepped forward and shook hands cordially with the new minister, and they engaged in conversation in a low tone for a minute or two. The party then retired and was driven to the Arlington.

Shooting Affray at Myrtle Point.

A shooting affair took place on the street in front of the Enterprise office last Saturday afternoon, when Samuel Appleton was shot by city marshal, Ed Carter, the ball entering the lower part of the cheek and coming out at the corner of the mouth. A warrant was issued charging Carter with shooting with intent to kill and on Monday a preliminary examination was held before Judge Dodge at this place. W. Sinclair acting as prosecuting attorney and A. J. Sherwood appearing for defendant. From the evidence adduced at the examination of Appleton, who has been working at Smith's camp, with some neighbors was on his way to his home on Myrtle creek. They stopped at Lehmonsky & Day's for some packages which they took on their horses and started up the street. The marshal saw him coming and ordered him to stop which he did not do. The marshal attempted to grab the horse by the bit; the horse ran against him, his pistol, a double action one, was discharged with result stated above, and his hand was lacerated by the bit and he was somewhat bruised about the side. Appleton did not stop nor discover that he was shot until he had gone some distance, when he returned and had Dr. S. L. Roberts dress his wound, which is only slight.

In rendering his decision the court stated that the use of a deadly weapon was a serious affair and should be resorted to only when the necessity of the occasion requires it, and in the case before him it was possible that the marshal had been too hasty. However, the marshal was an officer who was sworn to perform his duty. The evidence showed that Mr. Appleton had attempted to ride over the street when he attempted to arrest him while he was in the act of violating an ordinance of the town, and did almost ride him down, therefore he would dismiss the case.—Enterprise.
