CHANGE OF PLANS.

Second Oregon May Come to Portland by Rail.

TRANSPORTS CANNOT BE SPARED

Otis Wants the Ships Returned to Manila at Once—Hermann Appeals to the President.

WASHINGTON, July 6.—Commissioner Hermann, in pursuance with requests received from Oregon today, made inquiry at the war department as to how the Oregon regiment is to be taken to Portland. He was informed that the troops will be landed at San Francisco, and that the transports will be immediately loaded with regulars for Manila, and will leave for that port, and will not go to Portland with the Oregon regiment. This change of plan was made at the request of General Otis, who says there is a scarcity of transports.

The commissioner told the secretary that the people of Oregon had already made extensive plans for receiving the troops at Portland and that the change of plan would be a very great disappointment. The department said that it would make every effort to accommodate the people of Oregon and the troops themselves, and has, therefore, directed the commanding officer at San Francisco to secure a sufficient number of ships at the port to carry the Oregon regiment from there direct to Portland, enabling the people of Portland to carry out their original plan.

If this plan cannot be carried out, the department will make arrangements to have the regiment carried direct to Portland by rail, but this will not be done unless it is impossible to secure ships.

Commissioner Hermann will see the president tomorrow afternoon, and urge upon him to exercise influence to have the troops sent to Portland by water and in a body.

Adjutant-General Corbin says there is no question about the muster-out of the Oregon regiment at Vancouver, and nothing will be allowed to interfere with the department's promise that the troops shall be sent to Portland. This was in reply to a question as to whether the organization of the Thirty-fifth United States volunteer regiment at Vancouver would interfere in any way with the previous arrangement for the muster-out of the Second Oregon.

Beside General Otis' desire for the return of the transports to Manila, he will also be wanted to send recruits and soldiers to reinforce him.

The appointments made by President McKinley thus far in the army show that the promise that regular army officers who had earned the gratitude of the country would be selected for the volunteer service seems to have been pretty well carried out. The selections thus far are of men of the regular army, men well known, men of military ability and men who have served with distinction. A great many very good men have been passed over, but it is possible that they will have an opportunity when the other regiments are organized.

Numerous politicians of both political parties are in town trying to have their names given places in the army, and it is said that when the other regiments are called out they will be given over to the politicians on the plea that it will do to drain the regular army of experienced officers. The ten regiments are to be organized by recognizing the meritorious officers, but the others yet to be put in service will furnish opportunity to gratify the spoils-men.

New Officers Elected.

The National Editorial Association in convention at Portland last Friday elected the following officers for the ensuing year:

President—Colonel R. H. Henry, Jackson, Miss.

First Vice-President—Matt Parrott, Waterloo, Ia.

Second Vice-President—F. E. Ballou, Cleburne, Texas.

Third Vice-President—Albert Totter, Roseburg, Or.

Treasurer—James G. Gibbs, Norwalk, Ohio.

Corresponding Secretary—J. M. Page, Jerseyville, Ill.

Recording Secretary—R. M. White, Mexico, Mo.

New Orleans was selected as the next place of meeting and after a most interesting, profitable and successful session the convention adjourned Friday evening.

Oregon is short on fruit this year; shorter than for many years; but in some varieties there will be plenty; and in other ways compensation will be made. The hay crop will be immense; grain promises well; and of everything else there is or will be a prolific abundance as usual.

"A Gentle Wind of Western Birth"

Tells no sweeter story to humanity than the announcement that the health-giver and health-bringer, Hood's Sarsaparilla, tells of the birth of an era of good health. It is the one reliable specific for the cure of all blood, stomach and liver troubles.

Hood's Sarsaparilla NEVER DISAPPOINTS.

It is reported several persons here have been exposed to smallpox, which is now in the Armstrong family in Yonion county. The exposed have been vaccinated, and it is hoped no new cases will appear.—Newberg Item.

Merchants who sell sawmill machinery in Portland say that the demand for such goods is unusually large this season. Many men from the East are coming into the forests of the Northwest and making investments, and many of these are putting up mills.

It is said that Hon. D. P. Thompson, of Portland, who is one of the most extensive growers of wheat in the Northwest, if not the most extensive, is contemplating a trip to Russia, primarily for the purpose of studying the situation and outlook in that country.

Preliminary arrangements for the annual reunion of the Southern Oregon Soldiers' and Sailors' Association were made last week. It will be held at Grant's Pass this year—September 18 to 22, inclusive—the citizens of that enterprising town having guaranteed the sum of \$500 toward paying the expenses thereof.

An Expansionist.

SEATTLE, July 5.—A Post Intelligencer special from Olympia quotes Governor Rogers as saying:

"There is one thing that I do know, and that is that it is idle and useless to talk or work against expansion, or the holding of territory conquered by the military branch of the United States government. After seeing the reception tendered to the officers and men of the battleship Iowa at Tacoma yesterday, it is preposterous to talk against expansion. The people simply went wild over them, and they were cheered to the echo, and called the 'heroes of Santiago.' Even the 'mascot' goat came in for his share of praise."

A unique feature of the Cottage Grove celebration was a signal talk between people forty miles apart. At 9:30 p. m. several hundred people went to the edge of the town to exchange signals with the miners in the Bohemia mountains, 40 miles away. Signals were exchanged for half an hour. They could be plainly seen, the sky being very clear. Skyrockets were used at both places.

A MONSTER RECEPTION

Will be Given the Oregon Boys At San Francisco.

AN EX-POPULIST ON THE WAR.

He Says Some Very Pertinent Things About the Philippines.

Other News.

SAN FRANCISCO, July 6.—Tugs are now keeping a sharp lookout for the Newport, bearing the detachment of the Second Oregon volunteers from Manila, while committees of citizens are preparing a monster reception for the boys, who are now thought to be nearing the Golden Gate. The Newport is 24 days out from the Philippines, and, being noted for her speed, may be sighted at any time between now and Sunday.

The Red Cross Society met tonight to further arrange for the reception, which will be one of the biggest ever given here to home-coming soldiers.

The tug, Governor Markham has been placed at Mayor Phelan's disposal, and upon the arrival of the transport, the mayor, accompanied by the governor of California, and also the governor of Oregon and staff, will meet the troops as they come in over the heads.

Signals sent from Point Lobos will be answered by bells and whistles from factories, mills and steamers.

If the Oregon boys arrive at night they will remain in the streets till morning, when many yessels lying in the bay will join in a grand procession, honoring the brave.

A committee of Native Sons of the Golden West will co-operate with the mayor and Red Cross Society, and the troops will be escorted through the streets by an escort, with General Shafter at the head.

This evening following their arrival the Oregon boys will be given a rousing reception at the ferry depot, and a banquet is one of the good things in store for the heroes.

The government transportation service is now negotiating rates with the railroad companies for the removal of the Oregonians to Portland. However, they will necessarily be quartered some time at the Presidio before going north.

SAN FRANCISCO DISAPPOINTED.

Troops Will Not Leave the Transports at the Bay City.

SAN FRANCISCO, July 8.—General J. B. Beback, adjutant-general of the department of California, has received word that the Oregon volunteers will be mustered out at Vancouver, according to the original plan. The transports will enter this port, however, and may be delayed for some time, according to the necessities for coaling and taking on fresh supplies.

The troops will not be unloaded from the transports. This is a disappointment to many of the citizens, who had hoped to honor and glorify this returning volunteers. They will proceed north by water, probably on the same transports, although this has not been decided upon.

Ex-Populist on the Philippine War.

CHICAGO, July 6.—A special to the Tribune from Marysville, Mo., says: Ex-Senator Peffer, of Kansas, was the principal speaker at the Fourth of July celebration in Marysville. He said in his address:

"Scarcely had the smoke of the battle between Americans and Spaniards blown from over Manila, when that part of the earth began to show signs of American prosperity and order."

"Everything went along smoothly until some of our soldiers were fired upon by certain ruffians. It immediately became our government's duty to defend the lives of our soldiers and the honor of our country, and to secure and preserve peace and order."

"When that has been done we can find time to dispute among ourselves about minor questions of government, but not before. Those who oppose this policy tell us that we are violating the principles of the declaration of independence by forcing our government upon people without their consent."

"Will you open the doors of our prisons and turn out all the men who are incarcerated there against their consent? This country originally belonged to the Indians."

"Did the white man permit the Indians to burn and kill? To restrain him would be to govern him without his consent."

"We were dealing directly with Spain, and when the Spanish fleet was sunk and Manila captured, the Philippines came into our control under the international code, and we came directly responsible for them and the acts of their inhabitants in the eyes of the world."

"They are ours to dispose of as much as any territory of this nation, and if the administration refused to put down that rebellion, it would be derelict in its duty as it would be if it failed to put down a rebellion in Missouri, or Kansas or Texas."

Their First Fourth.

SAN JUAN DE PORTO RICO, July 5.—The Fourth was celebrated here yesterday with great enthusiasm. The events were a military and civic parade, barbecue, athletic sports, fireworks and patriotic speeches. The republican party of Porto Rico, in convention here yesterday, adopted a platform and resolution to support the government in every measure tending to Americanize the islands.

General News.

This year's production of best sugar in the United States is estimated at 122,000 tons from 144,000 acres, a four-fold increase in one year.

General Otis could scarcely spend the few hours of sunshine occurring during the rainy season better than in discovering where Agnaito gets all his supplies.

Five youthful burglars, aged from 9 to 12 years have been arrested in Spokane. In a cave in which their plunder was found nearly \$500 worth of merchandise was recovered.

Mr. Dingley's successor in Maine gets the unusual and rather striking plurality of 888. Popular as Dingley was, his plurality last year fell below these figures by 1865. This is a good year for Republicans.

A ran of twenty-six days from San Francisco to Manila is the record of the transport Grant, which has just arrived with over 1600 men for Otis. Before many years the American ocean greyhound will be cutting down the time in the broad Pacific, says an "Eastern" exchange.

Some are at a loss to understand the flow of gold Europeanward, but the cause is a perfectly natural one. The far-sighted, conservative Englishmen see in the booming of many trusts, with much-watered stock and the reckless speculations going on in America, good cause for alarm, and he is calling in his investments in the country. This always causes big gold exports.—Telegrams.

There were so many young cattle taken out of Oregon last year that many persons feared a serious reduction in the number of cattle in the state had taken place. The buyers who are scouring the state are finding a pretty large number of cattle this year, however, and the same thing will probably happen again next year. There are very few states in which the number of cattle raised is as large in proportion to the population as in Oregon.
