REPUBLICANS OF IOWA

State Convention Nominates a Ticket.

L. M. SHAW FOR GOVERNOR.

They Support the Dingley Tariff, the Gold Standard and the Administration.

DES MOINES, Aug. 2.—The state republican convention today nominated the following ticket:

Governor, Leslie M. Shaw, of Denison.
Lieutenant Governor, J. C. Milliman, of Logan.
Superintendent of Public Instruction, S. C. Barrett, of Osage.
Railroad Commissioner, E. A. Dawson, of Waverly.
Supreme Judge, John C. Sherwin, of Mason City.

After approving the administration of President McKinley, and Governor Shaw, the resolutions state:

"We commend the action of the Iowa delegation in congress in its support of protection, of the Dingley tariff, of the maintenance of the gold standard and in its faithful support of the administration and President McKinley in his policy in peace and war.

"Industry and commerce should be left free to pursue their methods according to the natural laws of the world, but when a business aggregation known as trusts, prove hurtful to the people, they must be restrained by law, and if need be abolished."

Kentucky Democrats Oppose Goebel.

LEXINGTON, Ky., Aug. 3.—A political revolt in Kentucky was inaugurated here today. The anti-Goebel conference here for the purpose of calling a state convention and nominating another democratic state ticket or part of one was in some respects, perhaps, the most remarkable political gathering ever held in Kentucky. The conference was composed of leading farmers and professional men, only a few politicians being in the assembly.

It was manifest from the beginning that the feeling was not against the whole ticket, but against its head, and although other nominations may be made against those of the Louisville convention, the opposition will be mainly directed toward the defeat of William Goebel.

The gathering was larger than was expected. There were 720 men by actual count in the auditorium. A committee on resolutions, composed of one from each district, and two for the state at large, was appointed. When this committee retired to draft resolutions, John Young Brown was escorted to the platform, and made a vigorous, impassioned speech in denunciation of the course of the Louisville convention.

The resolutions committee report recommended the indorsement of Bryan and the Chicago platform, denounced the methods of the Louisville convention to secure the nomination of William Goebel, declared that the report of the committee on credentials of the Louisville convention was secured by shameful and fraudulent tactics; denounced "McKinleyism" and other national affairs, and provided that a convention be held in Lexington on Wednesday, August 16, to declare principles and nominate candidates for the November election. Each county or legislative district was urged to appoint delegates to the convention, each county being entitled to one vote for every 200 votes or fraction over 100 polls cast for W. J. Bryan in 1896.

Tons of Copper Coins.

NEW YORK, July 28.—The steamer Cevic brought to this city 9,999 bags or 250 tons of copper coins from India, consigned to the Oxford Copper Company. The coins will be melted over for refining purposes, as they are imported as copper scrap. It is explained that the coins are worth more as copper than as coins, with the price of copper standing at or about the present value of $18.50 for Lake. The statement is made that when copper stood at 10 cents, there was a profit in coining for the Indian government, but conditions are now changed by price ruling for copper. It is said that the copper coins of China can also be imported and melted into copper at a profit.

Skillful Acrobat.

Mr. Bryan's shiftiness as a politician has rarely been more strikingly displayed than it is in his present attitude toward the democratic factional fight in Kentucky. His open declaration in favor of Goebel, the party nominee for governor who is said to be a gold-standard man, means that he may indorse a gold supporter in one state and a silver supporter in another, but that he is always and first of all a Bryan man. In his picturesque effort to be all things to all men he is invariably animated by a high sense of loyalty to the interests of number one.—New York Mail and Express.

Held Up.

Word was received at Cottage Grove Thursday that a miner named Shane was held up in the Bohemia district about 9 o'clock a few nights previous and robbed of $60 together with an uncut diamond which Shane valued at about $2000. The footpad called to Shane to hold up his hands and when Shane turned around knocked him over the head with a blunt instrument. Shane lay unconscious for about 4 hours.—Eugene Guard.

The Portland Oregonian July 30, gives the steamer Empire the following "send off": "The venerable steamer Empire attracted considerable attention on the front yesterday. She will celebrate her twenty-sixth birthday in October, and does not look a day younger, and moves as though she was 500 years older."

Oregon at the Paris Exposition

While the plan of the American exhibit at the coming Paris exposition is admirably designed to portray the character of American resources and industry as a whole, it will not afford much opportunity for distinction to individual states. For example, there will be a general exhibit of American breadstuffs in which Oregon's contribution will appear suitably marked; and so on as regards timber, fruit and other products. But there will be little or no space, even if exhibits shall be provided, for the setting forth in a comprehensive way of the industry and resources of Oregon, or of any other state individually. With the idea of making a more satisfactory showing for the three Pacific states through which its lines run, the Southern Pacific Company has conceived the idea of a special exposition—in side-show form, so to speak—in which the states of Oregon, California and Nevada, and possibly the territory of Arizona, shall be very fully and completely represented. It is proposed to find quarters in some prominent and popular street of Paris, and there to make a showing of Pacific coast products the like of which cannot be equaled by any other part of the United States, or, for that matter, any other country of the world. The California board of trade, a body whose chief function it is, in connection with the Southern Pacific Company, to exploit the state, has taken up the work of organizing the California feature of the exhibit.

The secretary of the board—Mr. J. A. Filcher—is now in Portland for the purpose of inviting our people to co-operate. He has conferred with the Chamber of Commerce, and that body has named a committee to take the matter in hand.

The offer made to Oregon is a generous one. If our people will contribute the materials for an exhibit—passing them at Portland—the Southern Pacific will transport them to Paris, pay all the charges of transportation, and return them here or elsewhere in the United States. And if, further, our people will send an agent or commissioner to take charge of the exhibit and explain it to visitors, special advantages in the way of transportation will be afforded him.

How much an effort under this plan will cost, Southern Pacific representatives do not undertake to say. The more the better, of course; but $5000 would probably make an effective display and pay an agent to accompany it.

There should be no difficulty about raising this moderate sum, and there will be none. Oregon will take advantage of this extraordinary chance, and will be represented at Paris in a way that cannot fail to advertise widely the potentialities and charms of the state.

While the exhibit is to be a state affair in the fullest sense the advantage will be most likely to lie with Western Oregon, through which the lines of the Southern Pacific pass. It will be especially to the interest of the western counties to stir themselves to the end of setting forth their attractions in the best form. The timber, the grains, the fruit, the minerals and the vast multitude of other interests must all be represented. Contributions will be freely made, ingenuity and art will be taxed to present them in beautiful forms and the the result cannot fail to be a prodigous benefit to Oregon.

Evils of Yellow Journalism.

It hardly needed a denial to enable us to say that the interview so called with Admiral Dewey at Trieste was made out of whole cloth, says the San Francisco Chronicle.

The truth probably is that the Herald man wanted something to effect the interview in which James Creelam represented Dewey as gossiping to the New York Journal like an old lady over her teacups and so hit upon the scheme of putting words into his mouth that are offensive to Germany. He rightly conjectured that he could print nothing more sensational, but he did not take into account the common sense of the American people and the sound basis of Admiral Dewey's reputation for discretion.

Nor did he recollect that the admiral is already on friendly record about Germany and its attitude to the United States at Manila and that the language attributed to him at Trieste directly contradicts his own statements elsewhere.

The fake character of this interview, with its glaring evidence of the lengths to which yellow journalists will go to provide "readable" matter for their papers, ought to satisfy the American public, or that small part of it which is not yet satisfied, as to the wisdom of the Otis censorship. But for that the country would be continually disturbed by lying reports from Manila, of which those of verbal assaults by our responsible officers upon neutral or friendly governments would not be the most objectionable.

Wherever the censorship is not enforced, as at Trieste, no end of trouble is made. We do not doubt that the Dewey canard will make a very bad impression in Germany, but matters in that quarter would be far worse if the affairs of the round robin at Manila were open the free field they desire in which to compete with each other for sensations and to cultivate the gifts of their imagination.

The habit of misquoting public men concocting interviews and spying out military secrets is likely, if continued by the yellow journalists, to seriously affect the freedom of the press. Much as the American people value the right to express their sentiments in print without let or hindrance they are not willing to have it abused by irresponsible fakers who do not care what disaster their words may bring upon their country nor upon the reputations of public men. If ever the press is put under the ban, as it is in several European countries, it will be because yellow journalism has made the measure one of public necessity.

We already have grave legislative invasions of the Constitutional guarantees themselves are in time removed.

Don't think you can cure that slight attack of Dyspepsia by dieting, or that it will cure itself. Kodol Dyspepsia Cure will cure it; it "digests what you eat" and restores the digestive organs to health.
